

Smart Management For Teaching And Learning

Michael E. Auer, Dominik May

Smart Management For Teaching And Learning:

Handbook of Research on Smart Management for Digital Transformation Barbosa, Belem, Filipe, Sandra, Santos, Claudia Amaral, 2022-03-11 In a global and digital society businesses are constantly being challenged by innovative and disruptive management strategies The dramatic changes that took place in all corners of the world during the COVID 19 pandemic confirmed that companies need to update their resources and anticipate trends The current changes introduced by digitalization offer endless innovation scenarios and strategic opportunities to companies but also demand an accurate and structured analysis of drivers motivations and determinants for success in this transformation The Handbook of Research on Smart Management for Digital Transformation analyzes the drivers of digital transformation in businesses and assesses digital transformation success factors in the short medium and long run This critical reference source is comprised of theoretical and empirical chapters as well as case studies on digital adoption by companies in different business sectors Covering topics such as brand messaging digital media platforms and success determinants this book is an essential resource for managers researchers educators of higher education business students digital strategists business associations communication and marketing agencies entrepreneurs and academicians

Smart Management Jochen Reb, Shenghua Luan, Gerd Gigerenzer, 2024-05-14 Why successful leaders must embrace simple strategies in an increasingly uncertain and complex world Making decisions is one of the key tasks of managers leaders and professionals In Smart Management Jochen Reb Shenghua Luan and Gerd Gigerenzer demonstrate how business leaders can utilize heuristics simple decision making strategies adapted to the task at hand In a world that has become increasingly volatile uncertain complex and ambiguous VUCA the authors make the case against complex analytical methods that quickly reach their limits This against the grain approach leads to decisions that are not only faster but also more accurate transparent and easier to learn about communicate and teach Smart Management offers an evidence based yet practical discussion of how business leaders can use smart heuristics to make good decisions in a VUCA world Building on the fast and frugal heuristics program Smart Management demonstrates the efficacy of heuristic decision making in a twofold approach First it introduces the concept of ecological rationality which prescribes the environmental conditions under which specific heuristics work well Second the book describes a repertoire of heuristics referred to as the adaptive toolbox that leaders managers and professionals can develop and rely on to make a variety of decisions such as on business strategy negotiation and personnel selection The toolbox not only showcases the practical usefulness of these heuristics but also inspires readers to discover and develop their own smart heuristics

S.M.A.R.T. Management for Teaching and Learning Elizabeth Webber, 2001 *Digital Transformation and Innovation in Chinese Higher Education* Hongmei Sziegat, 2025-04-04 This book presents the development of digital transformation and innovation in Chinese higher education It conducts policy analysis and critical discourse analysis of national policies and initiatives It focuses on organizational perspectives to explore how conventional

and open universities respond to digital transformation and innovation through multiple case studies. It conducts impacts of digital transformations on technical, socio-cultural, economic and pedagogical changes, including changes in structural and regulatory frameworks at the organisational and policy levels. It identifies challenges in digital transformation and innovation in Chinese higher education and proposes recommendations for strategies and governance. It shows the future perspectives on digital transformation and innovation in Chinese Higher Education. This study could be used as a reference for digital transformation and innovation in higher education institutions in Asia and beyond. 2024 Yearbook Emerging Technologies in Learning Michael E. Auer, Dominik May, 2025-05-29

This book brings together global scholars to examine critical developments in education from the integration of artificial intelligence (AI) in various educational contexts to the evolving relationship between on-campus, remote and hybrid learning and the rise of digitally native learners. As educational paradigms shift rapidly in response to globalization, digitization and technological advances, this book provides a timely exploration of the future of higher education. Organized into three sections, the book delves into Generative AI in Higher Education, Unpacking the transformative potential and challenges of AI tools in teaching and learning, Remote, Virtual and Hybrid Teaching in Higher Education, Exploring innovative teaching modalities that redefine classroom boundaries, Educational Research and Emerging Pedagogical Trends in Higher Education, Highlighting cutting-edge research that addresses the evolving demands of modern learners. For educators, researchers and EdTech professionals, this yearbook serves as an essential resource to stay ahead in the ever-evolving landscape of technology-enhanced learning. **Leading**

Smart Education Haijun Zeng, Ying Hu, Jianjiang Hao, Zhuo Zhang, 2025-02-15 This book focuses on best practices in smart education in Chinese schools. It showcases the achievements of Chinese schools in smart education since the comprehensive implementation of the educational digital transformation in China. These selected case studies explore smart education practices from various perspectives such as innovative practices in teaching and learning, the construction and application of digital platforms, resources and tools, smart educational and teaching evaluation and the construction of smart campuses. It enriches understanding of the current status of smart education in Chinese schools and is a useful reference for researchers, teachers, policymakers and school administrators across the globe. Recent Trends in Educational Technology and Administration Fred Paas, Srikantha Patnaik, Taosheng Wang, 2024-05-30

This book introduces various techniques of educational technology, blending theory with real-world applications, making it an essential tool for a wide range of readers. Different innovative methods covered in this book enhance its usefulness in education administration and management. The content of the book covers chapters both for the beginners and experts, serving as a key reference for educators and administrators. This book serves as a source of fresh ideas for researchers exploring the evolving aspects of educational technology and administration. This book's wide range of coverage highlights its importance in the education sector, offering new insights and practical solutions that cater to the needs of today's diverse learning settings. By bridging the gap between

theory and practice it facilitates a deeper understanding of the shifting paradigms in education driven by technological progress and a shift towards more learner centred models
