So Wise Were Our Elders Mythic Narratives Of The Kamsa:

"So Wise Were Our Elders" John Holmes McDowell, 1994-01-01 So wise were our elders Thus exclaims Mariano Chicunque himself an elder expressing in a single phrase the thrust of the mythic narrative tradition he simultaneously presents and represents in his storytelling A remarkable body of mythology is documented for the first time in this volume John Holmes McDowell s study revolves around thirty two mythic narratives of the Kamsa Indians who live in the Sibundoy Valley of the Colombian Andes collected by the author from several renowned Kamsa story tellers Each myth is given in the native language with parallel English translations that seek to capture the flavor of the original performances Textual annotation and commentary assess the grounding of the myths in the language and culture of the Kamsa indigenous community Introductory chapters describe the process of transcription and translation and highlight important characteristics of the collection McDowell stresses the collaborative nature of the enterprise which benefits from the shared vision of the ethnographer and of indigenous consultants who were involved in every step of the process The narratives are portrayed as a residual mythology in transit toward folktale but still evocative of a traditional cosmos The myths are much more than inert literary objects and under McDowell s scrupulous analysis they emerge as a storehouse of narrative potential whose performances still have meaning in Kamsa society and culture today

Rejecting the Marginalized Status of Minority Languages Ari Sherris, Susan D. Penfield, 2019-11-20 This book explores Indigenous tribal and minority ITM language education in oral and or written communication and in the use of new technologies and online resources for pedagogical purposes in diverse geopolitical contexts It demonstrates that ITM language education transpires in both formal and informal spaces for children or adults and that sometimes these spaces are online where they become de territorialized discourses of teaching and learning The volume brings together examples of ITM language education that are challenging the forces that flatten languacultures into artefacts of history It also examines the economic and material realities of the people who live in and through their languacultures or who aspire to do as much The book will be useful for educators and all those interested in Indigenous and minority language issues as well as for a wide range of undergraduate graduate and research contexts
