Television George Comstock, Erica Scharrer, 1999-04-15 Television What s On Who s Watching and What It Means presents a comprehensive examination of the role of television in one s life The emphasis is on data collected over the past two decades pointing to an increasing and in some instances a surprising influence of the medium Television is not only watched but its

messages are attended to and well understood There is no shame in spending hours in front of the set in fact people over estimate the time they spend viewing Television advertising no longer persuades it sells by creating a burst of emotional liking for the commercial The emphases of television news determine not only what voters think about but also the presidential candidate they expect to support on election day Children and teenagers who watch a great deal of television perform poorly on standardized achievement tests and among the reasons are the usurpation of time spent learning to read and the discouragement of book reading Television violence frightens some children and excites others but its foremost effect is to increase aggressive behavior that sometimes spills over into seriously harmful antisocial behavior Incorporates social psychology political science sociology child development and the growing field of communications Presents tables and graphs clarifying theories and linking sets of data Paints concise portraits of the role of television in entertainment politics and child rearing Contains background for dozens of lectures and articles Contains a comprehensive bibliography of more than 1000 citations many recent

From Betamax to Blockbuster Joshua M. Greenberg, 2010-09-24 How the VCR was transformed from a machine that records television into a medium for movies The first video cassette recorders were promoted in the 1970s as an extension of broadcast television technology a time shifting device a way to tape TV shows Early advertising for Sony's Betamax told potential purchasers You don't have to miss Kojak because you're watching Columbo But within a few years the VCR had been transformed from a machine that recorded television into an extension of the movie theater into the home This was less a physical transformation than a change in perception but one that relied on the very tangible construction of a network of social institutions to support this new marketplace for movies In *From Betamax to Blockbuster* Joshua Greenberg explains how the combination of neighborhood video stores and the VCR created a world in which movies became tangible consumer goods Greenberg charts a trajectory from early videophile communities to the rise of the video store complete with theater marquee lights movie posters popcorn and clerks who offered expert advice on which movies to rent The result was more than a new industry by placing movies on cassette in the hands and control of consumers video rental and sale led to a renegotiation of the boundary between medium and message and ultimately a new relationship between audiences and movies Eventually Blockbuster's top down franchise store model crowded local video stores out of the market but the recent rise of Netflix iTunes and other technologies have reopened old questions about what a movie is and how and where it ought to be watched By focusing on the spaces in between manufacturers and consumers Greenberg's account offers a fresh perspective on consumer technology illustrating how the initial transformation of movies from experience into commodity began not from the top down or the bottom up but from the middle of the burgeoning industry out

Approaching Twin Peaks Eric Hoffman, Dominick Grace, 2017-07-07 Though it lasted just two seasons Twin Peaks 1990 1991 raised the bar for television and is now considered one of the great dramas in TV history Its complex plots and sensational visuals both inspired and alienated audiences After 25 years the cult classic is being revived This collection of new essays explores its filmic influences its genre bending innovations and its use of horror and science fiction conventions from the original series through the earlier film prequel Twin Peaks Fire Walk with Me and subsequent video releases

The Mass Audience James Webster, Patricia F. Phalen, 2013-11-05 In the early 20th century a new and distinctive concept of the audience rose to

prominence The audience was seen as a mass a large collection of people mostly unknown to one another that was unified through exposure to media This construct offered a pragmatic way to map audiences that was relevant to industry government and social theorists In a relatively short period of time it became the dominant model for studying the audience Today it is so pervasive that most people simply take it for granted Recently media scholars have reopened inquiry into the meaning of audience They question the utility of the mass audience concept characterizing it as insensitive to differences among audience members inescapably bound up with discredited notions of mass society or serving only a narrow set of industrial interests The authors of this volume find that these assertions are often false and unwarranted either by the historical record or by contemporary industry practice Instead they argue for a rediscovery of the dominant model by summarizing and critiquing the very considerable body of literature on audience behavior and by demonstrating different ways of analyzing mass audiences Further they provide a framework for understanding the future of the audience in the new media environment and suggest how the concept of mass audience can illuminate research on media effects cultural studies and media policy

Fundamentals of Media Effects Jennings Bryant, Susan Thompson, Bruce W. Finklea, 2012-05-03 Mass medias potential to influence audience beliefs and behavior is a subject that has long fascinated scholars and the general public The ongoing interest and concern are reflected in the common tendency to blame the media for many of societys problems This extensively revised and updated edition cuts through popular notions of presumed effects to provide a balanced informed up to date treatment of the media effects literature The clear compelling presentation illuminated by dozens of new photographs equips readers with a fundamental understanding of the history theoretical underpinnings and current status of media effects research knowledge that will help them navigate in a media saturated environment Several outstanding elements distinguish the Second Edition of Fundamentals of Media Effects New chapters explore the impact of computer video games the effects of the Internet and social networking sites and the way mobile communication devices have transformed the way we live An extensive new chapter on childrens educational television describes the considerable body of research that supports positive effects like language development and flexible thinking skills Framing studies are covered in a separate chapter where they are distinguished both theoretically and experimentally from agenda setting and priming Finally the authors provide overviews of classic and current research studies in an invaluable feature called Research Spotlight which enable readers to envision how theories translate into research

Killer Tapes and Shattered Screens Caetlin Anne Benson-Allott, 2013-02-20 Since the mid 1980s US audiences have watched the majority of movies they see on a video platform be it VHS DVD Blu ray Video On Demand or streaming media Annual video revenues have exceeded box office returns for over twenty five years In short video has become the structuring discourse of US movie culture *Killer Tapes and Shattered Screens* examines how prerecorded video reframes the premises and promises of motion picture spectatorship But instead of offering a history of video technology or reception Caetlin Benson Allott analyzes how the movies

themselves understand and represent the symbiosis of platform and spectator Through case studies and close readings that blend industry history with apparatus theory psychoanalysis with platform studies and production history with postmodern philosophy *Killer Tapes* and *Shattered Screens* unearths a genealogy of post cinematic spectatorship in horror movies thrillers and other exploitation genres From *Night of the Living Dead* 1968 through *Paranormal Activity* 2009 these movies pursue their spectator from one platform to another adapting to suit new exhibition norms and cultural concerns in the evolution of the video subject
