Social Change And The Life Course:

Social Structures and Human Lives Matilda White Riley, Bettina J. Huber, Beth B. Hess, 1988-09 Social Structures and Human Lives consists of papers from the 1986 American Sociological Association annual meeting selected to reflect the rich and diverse array of conceptual methodological and substantive reports presented there Leading academics and researchers in the field offer information about aging over the life course the relationship between aging and the changing structure of families firms state and society as a whole and implications for equality of opportunity for people of differing age gender race and socioeconomic status A final chapter links selected topics from previous chapters to established sociological concerns and clarifies the broad scope of the book s central theme *Social Change and the Life Course* Matilda W. Riley, 1988-06

Social Change and the Life Course Matilda White Riley, 1988 *Social Dynamics of the Life Course* Walter R. Heinz, Victor W. Marshall, In the last two decades research on the life course has successfully combined and integrated different and rather isolated fields of social concerns such as the labor market family solidarity education employment retirement and social policy It has also developed a special focus on crucial problems of sociological research which includes the understanding of micromacro phenomena the dynamics of social change and international comparisons Contributors to this volume take an international comparative approach in applying the life course theoretical framework to issues of work and career Life course research focuses on the relationship between institutions and individuals across the life span and illuminates the impact of modernization on the shaping of biographies Industrial service societies are characterized by historically new contingencies of living arrangements and biographies These contingencies differ according to the extent to which life course patterns are regulated by social institutions In the continental European context institutional frameworks continue to define the timing and sequencing of transitions across the life course In less regulated market societies like the United States and Great Britain biographies and living arrangements are shaped more by the interaction of markets social networks and individual decisions In active welfare states institutional resources and rules continue to mediate the effects of social change on the life course What the editors and contributors to this fine compendium anticipate is a change on the cultural level toward more equality This trend supports young people and women in particular in their expectations concerning an egalitarian relationship This expectation is not taken for granted from the point of view of the male partner but has to be negotiated in decisionmaking processes as an issue that concerns the couple as a unit Thus the way in which people interact is profoundly impacted by the values and goals of equity demands Walter R Heinz is professor of sociology and social psychology and director Graduate School of Social Sciences University of Bremen Victor W Marshall is professor of sociology and director of the Institute on Aging University of North Carolina at Chapel Hill Carolina **Social Change and the Life Course: Sociological lives** American Sociological Association. Meeting, 1988 *Handbook of the Life Course* Jeylan T. Mortimer, Michael J. Shanahan, 2007-12-14 This comprehensive handbook provides an overview of key theoretical

perspectives concepts and methodological approaches that while applied to diverse phenomena are united in their general approach to the study of lives across age phases In surveying the wide terrain of life course studies with dual emphases on theory and empirical research this important reference work presents probative concepts and methods and identifies promising avenues for future research *Social Change and Human Development* Rainer K Silbereisen,Xinyin Chen,2010-04-28 Today s world is characterized by a set of overarching trends that often come under the rubric of social change In this innovative volume Rainer K Silbereisen and Xinyin Chen bring together for the first time international experts in the field to examine how changes in our social world impact on our individual development Divided into four parts the book explores the major socio political and technological changes that have taken place around the world from post from the rapid upheavals in 1990s Europe to the gradual changes in parts of East Asia and explains how these developments interplay with human development across the lifespan Human Development and Social Change is a useful resource for students and researchers involved in all areas of human development including developmental psychology sociology and education

Aging, Society and the Life Course Leslie A. Morgan,2007 As our aging population grows ever larger it is increasingly important to understand how adults age and what we can do to provide up to date care to ensure their well being as an integral part of society Leslie Morgan and Suzanne Kunkel understand that this phenomenon is about much more than just the physical or biological aspects of growing older and have put together a comprehensive text on the impact of society and sociology on the aging process Use this text to explore the diversity of the aging population and dispel the major stereotypes surrounding the elderly Learn about aging through all the layers of social context from family life to politics and economics And through this approach come to see how aging is more than just an individual process it is a process that effects the direction of our society as a whole For the Student Web sites of interest and key terms defined at the end of each chapter Real life stories and essays on love sex music medicine and crime For the Professor Assignment ready reading in a One Chapter a Week format Questions for discussion and review at each chapter end Applying Theory sections place the lesson of each chapter in a clear real world setting Instructor s Guide Now Available An Instructor s Manual for this textbook is available for those professors who have adopted *Aging Society and the Life Course* Third Edition and can verify a bookstore order of 7 or more copies Please email our Marketing Department at marketing.springerpub.com if you have adopted this text as you will need a password to download the guide Please provide the name and telephone number of the bookstore that ordered the textbooks A print version of the Instructor s Manual is also availabl *Crime and the Lifecourse* Michael L. Benson,2013 First Published in 2012 Routledge is an imprint of Taylor Francis an informa company Families, History And Social Change Tamara K Hareven,Barbara Trepagnier,2018-03-05 One of the prevailing myths about the American family is that there once existed a harmonious family with three generations living together and that this ideal family broke down under the impact of urbanization and industrialization The essays in this volume challenge this myth and provide dramatic

revisions of simplistic notions about change in the American family Based on detailed research in a variety of sources including extensive oral history interviews of ordinary people these essays examine major changes in family life dispel myths about the past and offer new directions in research and interpretation The essays cover a wide spectrum of issues and topics ranging from the organization of the family and household to the networks available to children as they grow up to the role of the family in the process of industrialization to the division of labor in the family along gender lines and to the relations between the generations in the later years of life While discussing family relations in the past and revising prevailing notions of social change these interdisciplinary essays also provide important perspectives on the present **Civil Society**

Through the Lifecourse Sally Power, 2022-04-14 Challenging conventional thinking leading academics explore how individuals relationships with civil society change over time as different lifecourse events and stages trigger and hinder civic engagement and political participation and highlight the implications for those promoting greater civic and political engagement

Cradle to Grave: Life-Course Change in Modern Sweden Jan O. Jonsson, Colin Mills, 2021-04-14 The empirical study of individuals life course is one of the most promising areas of research within sociology today Increased availability of large scale longitudinal data and improved statistical methods have made it possible to address theoretically relevant questions about events such as entrance into the labour market job mobility divorce and death This book consists of studies capturing the life course from the cradle to the grave The research questions include long term consequences of childhood conditions family formation and school careers work and parental leave gender discrimination in job promotion divorce and occupational career persistence in poverty and the intriguing question of why the highly educated tend to survive everyone else The studies shed light on the relation between family and work on gender inequality social class differences welfare state redistribution and labour market processes They do this in a particular context namely Sweden in the post war period that is during the decades that formed one of the most advanced welfare states in modern history One chapter provides a descriptive account of institutional and life course change in Sweden during that period Most authors use the Swedish level of living surveys a unique data set providing ample opportunity to study social processes in a longitudinal perspective The book will therefore be of relevance to those with interests in the Swedish welfare state as well as those with theoretical and research interests in the reproduction of inequality [Handbook of the Life Course](#) Michael J.

Shanahan, Jeylan T. Mortimer, Monica Kirkpatrick Johnson, 2015-10-26 Building on the success of the 2003 Handbook of the Life Course this second volume identifies future directions for life course research and policy The introductory essay and the chapters that make up the five sections of this book show consensus on strategic next steps in life course studies These next steps are explored in detail in each section Section I on life course theory provides fresh perspectives on well established topics including cohorts life stages and legal and regulatory contexts It challenges life course scholars to move beyond common individualistic paradigms Section II highlights changes in major institutional and organizational contexts of the life

course It draws on conceptual advances and recent empirical findings to identify promising avenues for research that illuminate the interplay between structure and agency It examines trends in family school and workplace as well as contexts that deserve heightened attention including the military the criminal justice system and natural and man made disaster The remaining three sections consider advances and suggest strategic opportunities in the study of health and development throughout the life course They explore methodological innovations including qualitative and three generational longitudinal research designs causal analysis growth curves and the study of place Finally they show ways to build bridges between life course research and public policy

Sociological Life Course Research Matthias Wingens, 2022-08-04 This introductory book provides an insight into sociological life course research and informs about its theoretical assumptions analytical concepts and main results Sociological life course research like biographical research has developed into an independent and fruitful field of research since the end of the 1960s It is true that half a century earlier in their famous study of The Polish Peasant in Europe and America 1918 20 Thomas and Znaniecki had already used life records to examine the connection between social change social structures and the life histories of individuals However such a research perspective was supplanted by other methodological conceptual approaches to empirical social research for over fifty years It was not until the 1960s that sociological interest in life course and biographical theoretical issues reawakened Today life course research is considered one of the most important conceptual innovations in sociology in recent decades The content The life course as a social construction What is life course research The life course as an institution Collective life courses generations cohorts and social change Structures of the life course Life course research a conceptual perspective Life course research quo vadis The author Prof Dr Matthias Wingens teaches sociology at the University of Bremen Bremen International Graduate School of Social Sciences BIGSSS

Handbook on Demographic Change and the Lifecourse Jane Falkingham, Maria Evandrou, Athina Vlachantoni, 2020-06-26 This innovative Handbook offers a deeper understanding of the causes and consequences of demographic change across the lifecourse Chapters highlight major theoretical and methodological advances and present research that sheds light on family dynamics health and mobility over the lifecourse illustrating the implications of lifecourse research for policy and reform

Life Course Studies Handbook Neeraj Venkataraman, 2025-02-20 Life Course Studies Handbook is a comprehensive guide exploring the intricacies of human development across the lifespan Authored by leading experts in life course studies we provide a multidisciplinary perspective on the factors that shape individuals from infancy to old age We examine the interplay of biological psychological social and cultural influences to gain insights into the complex pathways individuals follow as they grow and change Our handbook delves into various life stages from childhood to old age exploring unique challenges and opportunities at each stage We consider factors like socioeconomic status family dynamics and historical context shaping life course trajectories and influencing experiences and outcomes Resilience is a key theme throughout the book We discuss how individuals can adapt

and thrive in the face of adversity drawing on social support coping strategies and positive thinking to overcome obstacles and build strength Whether you are a researcher practitioner student or simply interested in understanding human development Life Course Studies Handbook offers valuable insights and practical strategies for navigating the complexities of life We hope this book serves as a valuable resource for exploring the diverse experiences and trajectories that shape individuals across the lifespan

Methods of Life Course Research Janet Z. Giele, Glen H. Elder, 1998-03-10 What are the most effective methods for doing life course research In this volume the field's founders and leaders answer this question giving readers tips on the art and method of the appropriate research design the collection of life history data and the search for meaningful patterns to be found in the results

Sourcebook of Family Theories and Methods Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 1993-03-31 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i.e. sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F. Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production

Aging, Society, and the Life Course, Fourth Edition Leslie A. Morgan, Suzanne Kunkel, 2011-03-15 Doody's Score 91.4 Stars This book's unfading preoccupation with social context social processes and social structures distinguishes itself and greatly contributes to the discourse in gerontology The Gerontologist This is a comprehensive textbook for both undergraduate and graduate level courses detailing the impact of societal forces on the aging process The book focuses on the diversity of the older population examining it from micro macro perspectives in order to understand aging and the life course as social phenomena This latest edition examines significant changes in the field of social gerontology such as the paradigms of aging and the life course the baby boomer cohorts as they approach retirement and later life the growing interest in global aging and civic engagement This text encourages students to examine aging from personal familial community societal and global perspectives including both the positive and negative realities of aging Key Features Provides websites of interest at the end of each chapter Presents provocative essays on love sex music medicine and crime to further expand on chapter contents Provides review questions and key terms as study guides at the end of each chapter

Higher Education and the Reproductive Life Course Sarbani Banerjee, 2006 This study examines the impact of higher educational attainment on the changing lives of women both at the individual and the societal level The study focusses on the cross cultural contexts in one of the states in South India

and the Netherlands Karnataka in the recent times is experiencing fertility transition while the Netherlands has already achieved fertility transition The two cultural contexts are both diverse and unique in character The author explores both the uniqueness as well as the similarities hence studying the impact of higher education on the changing lives of women as a continuum across cultures and societies Changes at the individual level are captured by distinguishing women into older and younger generations while changes at the societal level are captured through social change At the individual level we distinguish between the lived life course and the perceived life course At the societal level we focus on how higher educational attainment has enhanced women s position in the society The study uses secondary data from the National Family Health Survey 1998 1999 for the state of Karnataka and the Netherlands Family Fertility Survey OG 98 In addition to the secondary data in depth interviews were also conducted amongst women in Bangalore and Groningen
