The Aesthetics of Hope in Late Greek Imperial Literature Dawn LaValle Norman,2019-12-05 This book sheds light on a relatively dark

period of literary history the late third century CE a period that falls between the Second Sophistic and Late Antiquity It argues that more was being written during this time than past scholars have realized and takes as its prime example the understudied Christian writer Methodius of Olympus Among his many works this book focuses on his dialogic Symposium a text which exposes an era's new concern to re-orient the gaze of a generation from the past onto the future Dr LaValle Norman makes the further argument that scholarship on the Imperial period that does not include Christian writers within its purview misses the richness of this period which was one of deepening interaction between Christian and non-Christian writers Only through recovering this conversation can we understand the transitional period that led to the rise of

Bodies of Speech Gabriel Zoran, 2014-10-16 Until Plato poetry and oration were conceived as oral activities writing if considered at all was conceived as a kind of tape recorder Aristotle was the first thinker who examined the products of the literate culture in which he lived as such he conceived the works of poetry and oration not only as oral events but also as written texts Bodies of Speech reads Aristotle's Poetics and Rhetoric through this assumption and shows how both are

underlain by a systematic text theory which contains semantic as well as communicational aspects Aristotle's conception of the literary text thus is not a mere archaeological remnant it is a complex and profound theory able to hold a lively and fruitful dialogue with modern thinking

Strings Attached Ruth W. Grant, 2014-04-06 The legitimate and illegitimate use of incentives in society today Incentives can be found everywhere in schools businesses factories and government influencing people's choices about almost everything from financial decisions and tobacco use to exercise and child rearing So long as people have a choice incentives seem innocuous But *Strings Attached* demonstrates that when incentives are viewed as a kind of power rather than as a form of exchange many ethical questions arise How do incentives affect character and institutional culture Can incentives be manipulative or exploitative even if people are free to refuse them What are the responsibilities of the powerful in using incentives Ruth Grant shows that like all other forms of power incentives can be subject to abuse and she identifies their legitimate and illegitimate uses Grant offers a history of the growth of incentives in early twentieth century America identifies standards for judging incentives and examines incentives in four areas plea bargaining recruiting medical research subjects International Monetary Fund loan conditions and motivating students In every case the analysis of incentives in terms of power yields strikingly different and more complex judgments than an analysis that views incentives as trades in which the desired behavior is freely exchanged for the incentives offered Challenging the role and function of incentives in a democracy *Strings*
