animals that are found nowhere else on earth rock formations that span every geological era and among the longest underground tunnels ever found The capital of Hobart where almost half the island s residents live is tucked into the southeastern edge and the sleepy northern ferry town of Devonport brings in visitors from the mainland No one ventures far though which leaves the majority of the island open to exploring and free of crowds even at the loveliest of national wonders such as Tasman National Park in the southeast Freycinet National Park in the east and Franklin Gordon Wild Rivers National Park in the west Harmsworth History of the World Anonymous,2022-11-09 Reprint of the original first published in 1871
