Chinese Philosophy Ronnie L. Littlejohn,2015-11-18 The philosophical traditions of China have arguably influenced more human beings than any other China has been the home not only of its indigenous philosophical traditions of Confucianism and Daoism but also of uniquely modified forms of Buddhism As Ronnie L Littlejohn shows these traditions have for thousands of years formed the bedrock of the longest continuing civilization on the planet and Chinese philosophy has

profoundly shaped the institutions social practices and psychological character of East and Southeast Asia The author here surveys the key texts and philosophical systems of Chinese thinkers in a completely original and illuminating way Ranging from the Han dynasty to the present he discusses the six classical schools of Chinese philosophy Yin Yang Ru Mo Ming Fa and Dao De the arrival of Buddhism in China and its distinctive development the central figures and movements from the end of the Tang dynasty to the introduction into China of Western thought and the impact of Chinese philosophers ranging from Confucius and Laozi to Tu Weiming on their equivalents in the West *The Philosophy of Chinese Military Culture* W. Mott, J. Kim, 2006-04-02 Drawing on ancient texts and modern interpretations this work explores the foundations for war in China s strategic culture Shih Li and Tao The work uses Shih theory to explain the anomalies that continue to perplex Euro American observers in modern China s uses of force **Encyclopedia of Chinese Philosophy** Antonio S. Mair, Nancy Shatzman Steinhardt, Paul R. Goldin, 2005-01-31 The Hawai i Reader in Traditional Chinese Culture is a collection of more than ninety primary sources all but a few of which were translated specifically for this volume of cultural significance from the Bronze Age to the turn of the twentieth century They take into account virtually every aspect of traditional culture including sources from the non Sinitic ethnic minorities *China's Quest for Political Legitimacy* Baogang Guo, 2010-09-23 This book examines the new equity enhancing politics in China in the context of Chinese traditional cognitive patterns of political legitimacy and its implication for Chinese political development in the near future Based on an analysis of the new governing philosophy the generation of political elite and a new set of public policies the book reaffirms the emergence of a new Chinese polity that infuses one party rule with limited electoral and deliberative democracies Unlike many scholars who perceive the contemporary Chinese history as a constant search for democracy this book takes a very different approach It asserts that the enduring question in political development in China today is no different from what was sought after throughout Chinese history namely the constant search for political legitimacy Even though the quest for democracy is instrumental to that end it may not ultimately lead to the embrace of a full fledged liberal democracy The new politics is not only a rationalization of the efficiency based development but also a major paradigm shift in China s developmental strategy

Bulletin Östasiatiska museet, 2000 *Harmony in Chinese Thought* Chenyang Li, Dascha Düring, Sai Hang

Kwok, 2021-03-10 He or harmony has traditionally been a central concept in Chinese thought and to this day continues to shape the way in which people in China and East Asia think about ethics and politics Yet there is no systematic and comprehensive introduction of harmony as has been variously articulated in different Chinese schools This edited volume aims to fill this gap The individual contributions elaborate the conceptions of harmony as these were exemplified in central Chinese schools of thought including Daoism Confucianism Legalism Mohism Buddhism and trace their impact on contemporary Chinese philosophy The volume explores the various meanings and implications of harmony so as to consider its relevance as a value and virtue in the modern world It provides an accessible but substantial introductory work for readers interested in learning about pertinent core concepts and theories in Chinese thought as well as engages specialists in Chinese philosophy by explicating its implications for ethical political epistemological and metaphysical reflection as the basic point of reference *Expanding Frontiers in South Asian and World History* Richard M. China and Its Enemies Nicola Di Cosmo, 2002 Relations between Inner Asian nomads and Chinese are a continuous theme throughout Chinese history By investigating the formation of nomadic cultures by analyzing the evolution of patterns of interaction along China s frontiers and by exploring how this interaction was recorded in historiography this looks at the origins of the cultural and political tensions between these two civilizations through the first millennium BC The main purpose of the book is to analyze ethnic cultural and political frontiers between nomads and Chinese in the historical contexts that led to their formation and to look at cultural perceptions of others as a function of the same historical process Based on both archaeological and textual sources this 2002 book also introduces a new methodological approach to Chinese

frontier history which combines extensive factual data with a careful scrutiny of the motives methods and general conception of history that informed the Chinese historian Ssu ma Ch ien

Military Thought in Early China Christopher C. Rand, 2017-05-11 This study of the philosophy of war in early China examines the recurring debate from antiquity through the Western Han period 202 BCE 8 CE about how to achieve a proper balance between martial wu force and civil wen governance in the pursuit of a peaceful state Rather than focusing solely on Sunzi s Art of War and other military treatises from the Warring States era ca 475 221 BCE Christopher C Rand analyzes the evolution of this debate by examining a broad corpus of early Han and pre Han texts including works uncovered in archeological excavations during recent decades What emerges is a framework for understanding early China s military philosophy as an ongoing negotiation between three major alternatives militarism compartmentalism and syncretism Military Thought in Early China offers a look into China s historical experience with a perennial issue that is not only of continuing relevance to modern day China but also pertinent to other world states seeking to sustain strong and harmonious societies

Effortless Action Edward Slingerland, 2007-05-24 This book presents a systematic account of the role of the personal spiritual ideal of wu wei literally no doing but better rendered as effortless action in early Chinese thought Edward Slingerland s analysis shows that wu wei represents the most general of a set of conceptual metaphors having to do with a state of effortless ease and unself consciousness This concept of effortlessness he contends serves as a common ideal for both Daoist and Confucian thinkers He also argues that this concept contains within itself a conceptual tension that motivates the development of early Chinese thought the so called paradox of wu wei or the question of how one can consciously try not to try Methodologically this book represents a preliminary attempt to apply the contemporary theory of conceptual metaphor to the study of early Chinese thought Although the focus is upon early China both the subject matter and methodology have wider implications The subject of wu wei is relevant to anyone interested in later East Asian religious thought or in the so called virtue ethics tradition in the West Moreover the technique of conceptual metaphor analysis along with the principle of embodied realism upon which it is based provides an exciting new theoretical framework and methodological tool for the study of comparative thought comparative religion intellectual history and even the humanities in general Part of the purpose of this work is thus to help introduce scholars in the humanities and social sciences to this methodology and provide an example of how it may be applied to a particular sub field

Chinese Spatial Strategies Jianfei Zhu, 2004-08-02 Chinese Spatial Strategies presents a study of social spaces of the capital of Ming Qing China 1420 1911 Focusing on early Ming and early and middle Qing it explores architectural urban and geographical space of Beijing in relation to issues of history geopolitics urban social structure imperial rule and authority symbolism and aesthetic and existential experience At once historical and theoretical the work argues that there is a Chinese approach to

spatial disposition which is strategic and holistic *The Huainanzi and Textual Production in Early China* ,2014-04-03 The Han dynasty Huainanzi is a compendium of knowledge covering every subject from self cultivation astronomy and calendrics to the arts of government This edited volume follows a multi disciplinary approach to explore how and why the Huainanzi was produced and how we should interpret the work The volume should be of interest to scholars of early China as well as scholars of textual production in other periods of Chinese history and in other cultures With contributions by Anne Behnke Kinney Martin Kern John S Major Andrew Meyer Judson B Murray Michael Nylan David W Pankenier Michael Puett Sarah A Queen Harold D Roth and Griet Vankeerberghen **Aristotle and Xunzi on Shame, Moral Education, and the Good Life** Jingyi Jenny Zhao,2024 Despite recent developments in the history of emotions and in comparative studies sustained cross cultural comparative studies of the emotions remain few and far between Jingyi Jenny Zhao has produced the first major work that takes two philosophers from the ancient Greek and early Chinese traditions to stimulate discussion of an interdisciplinary nature on the rich and complex topic of the emotions in particular of shame It features comparative analysis of Greek and Chinese texts while bringing the ancient materials to bear on modern controversies such as the role of shame in moral education and social cohesion Although unlike in their social historical and intellectual backgrounds Aristotle and Xunzi bear striking similarities in several respects they both conceptualize humans as essentially members of communities as having a unique set of characteristics that set them apart from other living things and as beings in need of moral training to fulfil their potential and become integrated into a well ordered society The two philosophers discourses on shame reveal important insights into their ideals of human nature moral education and the good life This book tackles directly the methodological problems that are relevant to anyone interested in cross cultural comparisons and organizes discussions of the ancient sources to facilitate a thorough integration of perspectives from the cultural traditions concerned This approach provides sufficient focus to allow for detailed textual analysis while giving scope for making constant connections to the broader comparative questions at issue
