The Art Of Taking A Walk Flanerie Literature And Film In Weimar Culture:

The Art of Taking a Walk Anke Gleber, 2020-09-01 Anke Gleber examines one of the most intriguing and characteristic figures of European urban modernity the observing city stroller or flaneur In an age transformed by industrialism the flaneur drifted through city streets inspired and repelled by the surrounding scenes of splendor and squalor Gleber examines this often elusive figure in the particular contexts of Weimar Germany and the intellectual sphere of Walter Benjamin with whom the concept of flanerie is often associated She sketches the European influences that produced the German flaneur and establishes the figure as a pervasive presence in Weimar culture as well as a profound influence on modern perceptions of public space The book begins by exploring the theory of literary flanerie and the technological changes street lighting public transportation and the emergence of film that gave a new status to the activities of seeing and walking in the modern city Gleber then assesses the place of flanerie in works by Benjamin Siegfried Kracauer and other representatives of Weimar literature arts and theory She draws particular attention to the works of Franz Hessel a Berlin flaneur who argued that flanerie is a reading of the city that perceives passersby streets and fleeting impressions as the transitory signs of modernity Gleber also examines connections between flanerie and Weimar film and discusses female flanerie as a means of asserting female subjectivity in the public realm The book is a deeply original and searching reassessment of the complex intersections among modernity vision and public space

The Struggle for the Streets of Berlin Molly Loberg, 2018-03-29 Who owns the street Interwar Berliners faced this question with great hope yet devastating consequences In Germany the First World War and 1918 Revolution transformed the city streets into the most important media for politics and commerce There partisans and entrepreneurs fought for the attention of crowds with posters illuminated advertisements parades traffic jams and violence The Nazi Party relied on how people already experienced the city to stage aggressive political theater including the April Boycott and Kristallnacht Observers in Germany and abroad looked to Berlin s streets to predict the future They saw dazzling window displays that radiated optimism They also witnessed crime waves antisemitic rioting and failed policing that pointed toward societal collapse Recognizing the power of urban space officials pursued increasingly radical policies to revitalize the city culminating in Albert Speer s plan to eradicate the heart of Berlin and build Germania

The Fabric of Space Matthew Gandy, 2014-10-31 A study of water at the intersection of landscape and infrastructure in Paris Berlin Lagos Mumbai Los Angeles and London Water lies at the intersection of landscape and infrastructure crossing between visible and invisible domains of urban space in the tanks and buckets of the global South and the vast subterranean technological networks of the global North In this book Matthew Gandy considers the cultural and material significance of water through the experiences of six cities Paris Berlin Lagos Mumbai Los Angeles and London Tracing the evolving relationships among modernity nature and the urban imagination from different vantage points and through different periods Gandy uses water as a lens through which to observe both the ambiguities and the limits of nature as conventionally understood Gandy begins with the Parisian sewers of the nineteenth century captured in the photographs of Nadar and the reconstruction of subterranean Paris He moves on to Weimar era Berlin and its protection of public access to lakes for swimming the culmination of efforts to reconnect the city with nature He considers the threat of malaria in Lagos where changing geopolitical circumstances led to large scale swamp drainage in the 1940s He shows how the dysfunctional water infrastructure of Mumbai offers a vivid expression of persistent social inequality in a postcolonial city He explores the incongruous concrete landscapes of the Los Angeles River Finally Gandy uses the fictional scenario of a partially submerged London as the starting point for an investigation of the actual hydrological threats facing that city

Cinema and Intermediality Ágnes Pethő, 2011-05-25 Within the last two decades intermediality has emerged as one of the most challenging concepts in media theory with no shortage of various taxonomies and definitions What prompted the writing of the essays gathered in this volume however was not a desire for more classifications applied to the world of moving pictures but a strong urge to investigate what the inter implied by the idea of intermediality stands for and what it actually entails in the cinema The book offers in each of the individual chapters a cross section view of specific instances in which cinema seems to consciously position itself in between media and arts employing techniques that tap into the multimedial complexity of cinema and bring into play the tensions generated by media differences The introductory

theoretical writings deal with the historiography of approaching intermedial phenomena in cinema presenting at the same time some of the possible gateways that can open up the cinematic image towards the perceptual frames of other media and arts The book also contains essays that examine more closely specific paradigms in the poetics of cinematic intermediality like the allure of painting in Hitchcock's films the exquisite ways of framing and unframing haptical imagery in Antonioni's works the narrative allegories of media differences the word and image plays and ekphrastic techniques in Jean Luc Godard's total cinema the fl neuristic intermedial gallery of moving images created by Jos Luis Guer n or the types of intermedial metalepses in Agn s Varda's cin criture From a theoretical vantage point these essays break with the tradition of thinking of intermediality in analogy with intertextuality and attempt a phenomenological re definition of intermedial relations Moreover some of the analyses target films that expose the coexistence of the hypermediated experience of intermediality and the illusion of reality connecting the questions of intermediality both to the indexical nature of cinematic representation and to the specific ideological and cultural context of the films thus offering insights into a few questions regarding the politics of intermediality as well

The Films of John Schlesinger Julia Prewitt Brown, 2019-08-24 The city with its manifold distractions and violence its invitation to intoxication and dream had long served to represent the experience of modernity in works of art at the time John Schlesinger made his acclaimed urban documentary *Terminus* in 1961 To be a reader of the city was to be a reader of modern life and Schlesinger was a discriminating at times relentless reader of the city throughout his career especially in his three greatest films *Midnight Cowboy* *Sunday Bloody Sunday* and *The Day of the Locust* set in New York London and Los Angeles respectively His character driven stories evocation of the significance of the everyday and insistence on ambiguities of situation and motive all qualities he was known for point to literary influences that reach back to the nineteenth century and earlier *The Films of John Schlesinger* is not only the first book to fully acknowledge those influences but also the first book to explicate the power of his art to capture the modern urban experiences of becoming an adult in an atmosphere that relentlessly promotes fantasies of success and wealth of coming to terms with one's national identity in the context of international
