**From Plato to Lancelot K.** Sarah-Jane Murray, 2008-06-12 Considered the most important figure in medieval French literature Chr tien de Troyes is credited with inventing the modern novel The roots of his influential Arthurian romance narratives remain the subject of

investigation and great debate among medieval scholars In *From Plato to Lancelot* K Sara Jane Murray makes a highly original and profoundly significant contribution to the current scholarship by locating Chr tien s work at the intersection of two important traditions one derived from Greco Roman antiquity the other from the Celtic world of the Atlantic seaboard Drawing on a broad range of sources from Plato s *Timaeus* and Ovid s *Metamorphoses* to the anonymous *Lais* translated in the twelfth century by Marie de France Murray demonstrates that Chr tien and his contemporaries learned the importance of translation from the Mediterranean centered classical tradition She then turns to the Celtic world examining how Irish monastic scholarship as demonstrated by the *Voyage of St Brendan* and Celtic saints lives profoundly influenced the cultural identity of medieval Europe and paved the way for an interest in Celtic stories and legends With breathtaking insight and lucid prose Murray illustrates that Chr tien s singular genius lay in his ability to look to the future and to lay the foundations for a thoroughly new and French tradition of vernacular storytelling
