Annual Bibliography of English Language and Literature ,1922 Includes both books and articles *The Bodleian Quarterly Record* ,1926 *The Working-Classes in Victorian Fiction* Peter Keating,2016-07-22 First published in 1971 The book examines the presentation of the urban and industrial working classes in Victorian fiction It considers the different types of working men and women who appear in fiction the environments they are shown to inhabit and the use of phonetics to indicate the sound of working class voices Evidence is drawn from a wide range of major and minor fiction and new light is cast on Dickens Mrs Gaskell Charles Kingsley George Gissing Rudyard Kipling and Arthur Morrison This book would be of interest to students of literature sociology and history *Bulletin of the New York Public Library* New York Public Library,1924 Includes its Report 1896 19 Bulletin of Recent Books Added to the Public Library of the City of Boston Boston Public Library,1924 *The Ends of Life* Keith Thomas,2010-02-25 How should we live That question was no less urgent for English men and women who lived between the early sixteenth and late eighteenth centuries than for this book s readers Keith Thomas s masterly exploration of the ways in which people sought to lead fulfilling lives in those centuries between the beginning of the Reformation and the heyday of the Enlightenment illuminates the central values of the period while casting incidental light on some of the perennial problems of human existence Consideration of the origins of the modern ideal of human fulfilment and of obstacles to its realization in the early modern period frames an investigation that ranges from work wealth and possessions to the pleasures of friendship family and sociability The cult of military prowess the pursuit of honour and reputation the nature of religious belief and scepticism and the desire to be posthumously remembered are all drawn into the discussion and the views and practices of ordinary people are measured against the opinions of the leading philosophers and theologians of the time The Ends of Life offers a fresh approach to the history of early modern England by one of the foremost historians of our time It also provides modern readers with much food for thought on the problem of how we should live and what goals in life we should pursue **Most Necessary Luxuries** Ronald M. Berger,2010-11-01 Between the twelfth and seventeenth centuries guilds were the basis of industrial and commercial

organization in England Surprisingly however the disappearance of guilds has been neglected by historians In *The Most Necessary Luxuries* Ronald Berger uses the Mercers Company of Coventry to follow the eclipse of an entire trading community in one of England's premier medieval cities and manufacturing centers Berger charts the difficulties faced by mercers and grocers in a growing capitalist economy and discusses their unsuccessful efforts to maintain their prosperity The book helps to explain both the development of a new urban system and the rise of shops in Midland England It shows how shops replaced markets and fairs and uses the economics of the fashion trades to explain why provincial shops could not overcome the competition put forward by the metropolis *The Most Necessary Luxuries* unites the fields of social urban and economic history to explain the decline of a medieval city the evolution of the English urban middle class and the transformation from an amalgam of wealthy wholesalers and distributors of luxury goods to an association of mere shopkeepers It demonstrates that the rise of commercial capitalism between 1550 and 1700 in England undermined the medieval economy that was based on protected markets restrictive trading practices and entrenched oligarchies that dominated towns
