retheorizes the history and logic of settler colonialism by examining its intersection with capitalism and the racialization of Asian immigrants to Canada and the United States Day explores how the historical alignment of Asian bodies and labor with capital s abstract and negative dimensions became one of settler colonialism s foundational and defining features This alignment allowed white settlers to gloss over and expunge their complicity with capitalist exploitation from their collective memory Day reveals this process through an analysis of a diverse body of Asian North American literature and visual culture including depictions of Chinese railroad labor in the 1880s filmic and literary responses to Japanese internment in the 1940s and more recent examinations of the relations between free trade national borders and migrant labor In highlighting these artists reworking and exposing of the economic modalities of Asian racialized labor Day pushes beyond existing approaches to settler colonialism as a Native settler binary to formulate it as a dynamic triangulation of Native settler and alien populations and positionalities Racial Ambiguity in Asian American Culture Jennifer Ann Ho,2015-05-12 The sheer

diversity of the Asian American populace makes them an ambiguous racial category Indeed the 2010 U S Census lists twenty four Asian ethnic groups lumping together under one heading people with dramatically different historical backgrounds and cultures In Racial Ambiguity in Asian American Culture Jennifer Ann Ho shines a light on the hybrid and indeterminate aspects of race revealing ambiguity to be paramount to a more nuanced understanding both of race and of what it means to

be Asian American Exploring a variety of subjects and cultural artifacts Ho reveals how Asian American subjects evince a deep racial ambiguity that unmoors the concept of race from any fixed or finite understanding For example the book examines the racial ambiguity of Japanese American nisei Yoshiko Nakamura deLeon who during World War II underwent an abrupt transition from being an enemy alien to an assimilating American via the Mixed Marriage Policy of 1942 It looks at the blogs of Korean Taiwanese and Vietnamese Americans who were adopted as children by white American families and have conflicted feelings about their honorary white status And it discusses Tiger Woods the most famous mixed race Asian American whose description of himself as Cablinasian reflecting his background as Black Asian Caucasian and Native American perfectly captures the ambiguity of racial classifications Race is an abstraction that we treat as concrete a construct that reflects only our desires fears and anxieties Jennifer Ho demonstrates in *Racial Ambiguity in Asian American Culture* that seeing race as ambiguous puts us one step closer to a potential antidote to racism
