Reincarnation, and Other Lectures Louis William Rogers, 1925 *Reincarnation & Other Lectures* Louis William Rogers, 1925 **A Western Approach to Reincarnation and Karma** Rudolf Steiner, 1997 The soul s immortality and its repeated earthly births are not new ideas in Western thought They are implicit in the Pythagorean and Platonic traditions as well as in some branches of esoteric Judaism and Cabbala But it was not until the early years of this century that the West was given a detailed modern evolutionary philosophy of human life based on the reality of reincarnation and karma This turning point occurred when Rudolf Steiner began to make public the results of his spiritual scientific researches He viewed the revelation of reincarnation and karma as one of his most important life tasks Steiner s contribution however remains unique in its understanding of the human being as an evolving developing being of body soul and spirit On the basis of his researches presented in numerous books and lectures we begin to understand how the complex interaction of human lives between birth and death and between death and a new birth gives new meaning not only to individual lives lived on Earth in community with others but also to human history and evolution and to earthly and cosmic events This book collects many of Steiner s major statements on reincarnation and karma The primary purpose of this volume is to help readers meet the challenge of spiritual research in the area of individual evolution of the soul and spirit in the context of cultural and universal evolution Such a study can be tremendously revealing and provide spiritual understanding in a time of increasing intellectual confusion and spiritual poverty The notion of reincarnation and karma is generally associated in most minds with spiritual traditions of the East especially Hinduism and Buddhism Ren Querido s in depth sixty page introduction however places these concepts within the context of Western spiritual development and esoteric tradition showing us a panoramic view of how such ideas have developed over the centuries in the West Contents Introduction by Ren Querido 1 Our Present Dilemma 2 Historical Survey of Reincarnation and Karma 3 Rudolf Steiner s Original Contributions The lectures 1 Natural and Chance Illnesses in the Human Being 2 Elemental Events Volcanic Eruptions Earthquakes Epidemics in Relation to Karma 3 Death and Rebirth in Relation to Karma 4 Knowledge of Reincarnation and Karma 5 Examples of Karma Working between Two Incarnations 6 Vital Questions in the Light of Reincarnation and Karma 7 The Formation of Karmic Forces 8 Reincarnation of

the Spirit and Destiny *Five Lectures on Reincarnation* swami Abhedananda,1910 **Reincarnation and Other Lectures** L. W. Rogers,2013-10 This is a new release of the original 1925 edition *The Doctrine of Rebirth and Dr. Evans-Wentz* M. J. LeGoc,1921 *Five Lectures on Reincarnation* Swami Abhedananda,2020-03 Every voluntary or involuntary action of the body sense or mind must correspond to the dormant impressions stored up in the subtle body Although growth the process of nourishment and all the changes of the gross physical body take place according to the necessarily acting causes yet the whole series of actions and consequently every individual act the condition of the body which accomplishes it nay the whole process in and through which the body exists are nothing but the outward expressions of the latent impressions stored up in the subtle body Upon these rests the perfect suitableness of the animal or human body to the animal or human nature of one s impressions The organs of the senses must therefore completely correspond to the principal desires which are the strongest and most ready to manifest They are the visible expressions of these desires If there be no hunger or desire to eat teeth throat and bowels will be of no use If there be no desire for grasping and moving hands and leags will be useless Similarly it can be shown that the desire for seeing hearing etc has produced the eye ear etc If I have no desire to use my hand and if I do not use it at all within a few months it will wither away and die In India there are some religious fanatics who hold up their arms and do not use them at all after a few months their arms wither and become stiff and dead A person who lies on his back for six months loses the power of walking There are many such instances which prove the injurious effects of the disuse of our limbs and organs **Reincarnation: a Lecture** Charles Webster Leadbeater,1903 *Reincarnation* Swami Abhenananda,2021-11-09 The visible phenomena of the universe are bound by the universal law of cause and effect The effect is visible or perceptible while the cause is invisible or imperceptible The falling of an apple from a tree is the effect of a certain invisible force called gravitation Although the force cannot be perceived by the senses its expression is visible All perceptible phenomena are but the various expressions of different forces which act as invisible agents upon the subtle and imperceptible forms of matter These invisible agents or forces together with the imperceptible particles of matter make up the subtle states of the phenomenal universe *The Logic of Reincarnation* Louis William Rogers,1918 **Reincarnation: Its Answers to Life's Problems, Etc. [From "Popular Lectures on Theosophy."].** Annie Besant,1915 *The Cathars and Reincarnation* Arthur Guirdham, **The Cathars and Reincarnation** Arthur Guirdham,1978 Factual record of a woman who remembers her life in the 13th century
