## **The Atlantis Researches Earths Rotation In Mythology And Prehistory:**

**The Atlantis Researches** Paul Dunbavin,1995 The myths and legends of the world abound with inexplicable tales of devastating floods famines and geological catastrophes Of all these the most lucid and compelling must surely be the Greek philosopher Plato s account of an ancient civilization situated on an island in the Atlantic Ocean According to Plato s narrative the island of Atlantis disappeared beneath the sea during a single day and night of geological upheaval [Under Ancient Skies](#) Paul Dunbavin,2005-01-01 In all of the world s myths and religions we find traditions of a Great Flood There are stories too of a Golden Age the antediluvian paradise that it destroyed Might these be real memories of the ancient world And how can we analyze the subject scientifically The key to unlock these ancient myths lies in astronomy Under Ancient Skies will examine the astronomical evidence for a prehistoric cataclysm and in the process will explore a number of related anomalies in prehistory including Was there a single great flood in human prehistory or have there been many Could the workings of ancient calendars and the records of ancient eclipses give us clues about the Flood and the antediluvian world Did the Celtic Druids use a calendar based on the orbit of Saturn and is this the same antediluvian calendar that is described in Plato s myth of Atlantis Do Hindu Chinese and Mayan cosmology myths recall the years after the Flood when our world wobbled on its axis Did these same events trigger the building of astronomically aligned monuments such as Stonehenge and the pyramids Was the Atenist religion of the heretic Egyptian Pharaoh Akhenaten inspired by a series of eclipses during his lifetime Do the seven good years and the seven bad years of the Joseph story recall a time when a comet struck the Earth Did the British Druids use astronomy to calculate the size of the Earth and could they have used this knowledge to navigate to America Why were the ancient Celts so afraid that the sky would one day fall on their heads Are comets and asteroids the only danger lurking in the cosmos or could there be other dangers as yet unknown to science In 1994 we watched as a comet struck the giant planet Jupiter Geologists have recently discovered the crater in Yucatan where an asteroid impact destroyed the world of the dinosaurs Scientists and astronomers have stopped dismissing the theory that asteroids and comets could have struck the Earth during prehistory but any suggestion that a comet impact just a few thousand years ago might have caused the Biblical Flood remains the last taboo It is time for this prejudice too to be washed away The reader is promised a real book a fully referenced textbook with original content in every chapter and a bibliography of over 300 sources If you have read Paul Dunbavin s other books then you will know what to expect First published in 2005 and for a long time out of print this new edition will make the author s unique research available again to anyone who is interested in mythology astronomy and ancient mysteries Now also available in Kindle hard and soft editions [Maps of the Ancient Sea Kings](#) Charles H. Hapgood,1966 Hapgood utilizes ancient maps as concrete evidence of an advanced worldwide civilization existing many thousands of years before ancient Egypt Hapgood concluded that these ancient mapmakers were in some ways much more advanced in mapmaking than any people prior to the 18th century Hapgood believes that they mapped all the

continents This would mean that the Americas were mapped thousands of years before Columbus Antarctica would have been mapped when its coasts were free of ice Hapgood supposes that there is evidence that these people must have lived when the Ice Age had not yet ended in the Northern Hemisphere and when Alaska was still connected with Siberia by the Pleistocene Ice Age land bridge

**The Lost Civilization Enigma** Philip Coppens, 2012-10-22 An examination of archaeological controversies with arguments showing evidence of prehistoric civilizations not recorded as part of human history Are history books giving us the whole story Or is civilization far more complex and older than we have been taught Our school textbooks barely mention the 6 000 year old Sumerian civilization yet the latest archaeological findings at sites such as Jericho and most recently Gobekli Tepe in Turkey have been dated to 10 000 BC Civilization goes back at least another 10 000 years if we are willing to believe what our ancestors themselves claimed The Lost Civilization Enigma reveals the truth about Lost magnitudes to known cultures such as the Bosnian Pyramids and the civilization of Old Europe The fabled lost golden cities of South America and the Amazon which are slowly being rediscovered Fascinating examples of lost technology such as the Antikythera Device Atlantis and the fact that it was a real civilization Analyzing the historical and archaeological record best selling author Philip Coppens demonstrates that there is substantial evidence that civilization is far older far more advanced and far more special than is currently accepted Clearly our history books have left out a great deal

**The Mystery of Easter Island** Katherine Routledge, 1998 Heavily illustrated with a wealth of old photos this book is a treasury of information on the most mysterious of islands Easter Island Rapa Nui

**Mystery Cities of the Maya** Thomas Gann, 1997 A book of archaeological adventure in Central America Gann's book discusses devil dances Mayan religion exotic flints and has lots of photos maps and diagrams from the 20s

**The Shadow of Atlantis** Alexander Braghine, A. Braghine, 1997 First published in 1940 this is one of the great classics of Atlantis research It amasses a great deal of archaeological anthropological historical and scientific evidence in support of a lost continent in the Atlantic Ocean Braghine covers such diverse topics as Egyptians in Central America the myth of Quetzalcoatl the Basque language and its connection with Atlantis the connections with the ancient pyramids of Mexico Egypt and Atlantis the sudden demise of mammoths legends of giants and much more

**Approaching Chaos** Lucy Wyatt, 2010-01-16 Twenty first century civilization faces economic ecological and spiritual meltdown To survive this century as civilized people we need to refer back to a time when city life was in harmony with nature and the wider environment We cannot dismiss the ancients as primitive when they had a blueprint for civilization that first appeared over 5 000 years ago Perhaps we should look at the ancient past for solutions
