## The Attic Pyxis:

The Attic Pyxis Sally Rutherford Roberts, 1978      Kylichnis, the Attic Pyxis Sally Rutherford Roberts, 1970      Sally Rutherford Roberts: *The attic pyxis* Wolf Rudolph, 1980      1996, □□□ □□□□□      *The Shape of the Attic Red-figured Pyxis, Type A.* Sally Rutherford Roberts, 1959      *The Attic Geometric Pyxis* Barbara Bohen, 1979      **The Late Geometric and Early Archaic North-Eastern Aegean** Petya Velichkova Ilieva, 2023-12-31 The book focuses on the archaeology of the Late Geometric and Early Archaic North Eastern Aegean through the emergence manufacture distribution and consumption of a regional pottery group known as G 2 3 Ware It offers the first comprehensive in depth study through combination of scientific fabric analysis and traditional morphological stylistic comparative and distribution analysis methods The large body of studied material allows for drawing conclusions on a broader geographical and historical scale in contrast to earlier studies focused on individual sites The manufacture distribution and consumption patterns are characterised by diversity which reflects a dynamic multiethnic communication network developed in the Northern Aegean basin in the late 8th and the 7th c BC The adoption of G 2 3 Ware by local Thracian coastal communities is discussed in the light of transfer of knowledge and social practices It is argued that the G 2 3 Ware potters were aware of earlier and contemporaneous ceramic developments in southern Greece and Anatolia and created a blend of pottery features specific for each one of these areas The study deconstructs the forged link between G 2 3 Ware and the Greek colonisation in the area by linking it to a local pre colonial development      **The Attic Geometric Pyxis** Barbara Elizabeth Bohen, 1983      **Morgantina Studies, Volume VI** Shelley C. Stone, 2015-01-25 Excavation of the ancient city of Morgantina in southeastern Sicily since 1955 has recovered an extraordinary quantity and variety of pottery both locally made and imported This volume presents the fine ware pottery dating between the second half of the fourth century BCE when Morgantina was a thriving inland center closely tied to the Hellenistic east through Syracuse and the first half of the first century CE when Morgantina had been reduced to a dwindling Roman provincial town that would soon be abandoned Bearing gloss and often paint or relief these fine ceramics were mostly tableware and together they provide a well defined picture of the evolving material culture of an important urban site over several centuries And since virtually all these vessels come from dated deposits this volume provides wide ranging contributions to the chronology of Hellenistic and early Roman pottery An introductory chapter sketches out a comprehensive history of the city discusses the many well dated archaeological deposits that contained the excavated pottery and defines the major fabrics of the ceramics found at the site The bulk of the volume consists of a scholarly presentation of more than 1 500 pottery vessels analyzing their shapes fabrics chronology decoration and techniques of fabrication This rich ceramic material includes significant bodies of Republican black gloss and red gloss vases Sicilian polychrome ware and Eastern Sigillata A as well as early Italian terra sigillata with numerous examples imported from Arezzo and other Italian centers along with regional versions from Campania and elsewhere on Sicily The relief ware includes important groups of

third century BCE medallion cups and hemispherical moldmade cups of the second and first centuries BCE Morgantina was also an active center of pottery production and the debris from several workshops has been recovered enabling Shelley Stone to reconstruct the working techniques and materials of the local craftsmen the range of ceramics they produced and how their products were influenced by pottery imported to the site from elsewhere on Sicily the Italian mainland and even more distant centers The volume also presents new information about the sources of the clay used by the Morgantina potters as revealed by X ray fluorescence analysis of selected vases

**Hellenistic Pottery: Text** Susan I. Rotroff, 1997 *Greek Pottery from the Iberian Peninsula* Adolfo Domínguez, Carmen Sánchez, 2021-10-01 Excavations on the Iberian Peninsula yield more and more Archaic and Classical Greek material every year This is the first book to be published in English that discusses Archaic and Classical Greek pottery found in that area The volume provides elaborate and up to date information The first chapter by A Domínguez is dedicated to Archaic pottery and covers the whole Peninsula the second by C Sánchez covers the Classical period mainly based on the study of Attic pottery from Eastern Andalusia Both chapters contain a catalogue with many illustrations Not just finds are listed but distribution and shape studies are included as well as a discussion of how the local Iberian population viewed Attic painted pottery The final chapter gives a general overview of trade based upon the information presented in the previous chapters

*The Art of Libation in Classical Athens* Milette Gaifman, 2018-01-01 This handsome volume presents an innovative look at the imagery of libations the most commonly depicted ritual in ancient Greece and how it engaged viewers in religious performance In a libation liquid water wine milk oil or honey was poured from a vessel such as a jug or a bowl onto the ground an altar or another surface Libations were made on occasions like banquets sacrifices oath taking departures to war and visitations to tombs and their iconography provides essential insight into religious and social life in 5th century BC Athens Scenes depicting the ritual often involved beholders directly a statue's gaze might establish the onlooker as a fellow participant or painted vases could draw parallels between human practices and acts of gods or heroes Beautifully illustrated with a broad range of examples including the Caryatids at the Acropolis the Parthenon Frieze Attic red figure pottery and funerary sculpture this important book demonstrates the power of Greek art to transcend the boundaries between visual representation and everyday experience

**The Reign of the Phallus** Eva C. Keuls, 1993-04-27 At once daring and authoritative this book offers a profusely illustrated history of sexual politics in ancient Athens where the phallus dominated almost every aspect of public life Complementing the text are 345 reproductions of Athenian vase paintings depicting the phallus

**The Athenian Woman** Sian Lewis, 2013-09-05 Here Sian Lewis considers the full range of female existence in classical Greece childhood and old age unfree and foreign status and the ageless woman characteristic of Athenian red figure painting Ceramics are an unparalleled resource for women's lives in ancient Greece since they show a huge number of female types and activities Yet it can be difficult to interpret the meanings of these images especially when they seem to conflict with literary sources This much needed study shows that it is

vital to see the vases as archaeology as well as art since context is the key to understanding which images can stand as evidence for the real lives of women and which should be reassessed AMILLA Robert B Koehl,2013-07-31 Contributions by 34 scholars are brought together here to create a volume in honor of the long and fruitful career of Guenter Kopcke who is the Avalon Foundation Professor in the Humanities at the Institute of Fine Arts New York University Articles pertain to various topics on the ancient art architecture and archaeology of the greater Eastern Mediterranean region from Pre Dynastic Egypt to the Bronze Age Aegean and Anatolia Cyprus and the Near East and Etruscan Italy Athenian Vase Construction Toby Schreiber,1999-05-27 Based on her study of Greek pottery sherds and vases and on her profound hands on knowledge of pottery construction techniques including experiments with the potting of Attic shapes Toby Schreiber describes how ancient Greek potters constructed their vases Drawn in large part from vases and fragments in the collection of the Getty Museum the many photographs that accompany the text show how much even seemingly insignificant sherds may reveal about technique when studied by someone knowledgeable about potting The drawings all done by the author demonstrate step by step with admirable clarity how the potter executed his craft Written by a master potter this is a book both for those who know little or nothing about potting techniques and for those who already have an understanding of these matters *The Early Iron Age* John K Papadopoulos,John K. Papadopoulos,Evelyn Lord Smithson,2018-05-15 This volume the first of two dealing with the Early Iron Age deposits from the Athenian Agora publishes the tombs from the end of the Bronze Age through the transition from the Middle Geometric to Late Geometric period An introduction deals with the layout of the four cemeteries of the period the topographical ramifications periodization and a synthesis of Athens in the Early Iron Age Individual chapters offer a complete catalogue of the tombs and their contents a full analysis of the burial customs and funerary rites and analyses of the pottery and other small finds Maria A Liston presents the human skeletal material Deborah Ruscillo presents the faunal remains and Sara Strack contributes to the pottery typology and catalogue In an appendix Eirini Dimitriadou provides an overview of the locations of burial activity in the wider city **Divine Music in Archaic and Classical Greek Art** Carolyn Laferrière,2024-02-29 In this volume Carolyn M Laferrière examines Athenian vase paintings and reliefs depicting the gods most frequently shown as musicians to reconstruct how images suggest the sounds of the music the gods made Incorporating insights from recent work in sensory studies she considers formal analysis together with literary and archaeological evidence to explore the musical culture of Athens Laferrière argues that images could visually suggest the sounds of the gods music This representational strategy whereby sight and sound are blurred conveys the unheard nature of their music because it cannot be physically heard it falls to the human imagination to provide its sounds and awaken viewers multisensory engagement with the images Moreover when situated within their likely original contexts the objects establish a network of interaction between the viewer the visualized music and the landscape all of which determined how divine music was depicted perceived and reciprocated Laferrière demonstrates that participation in the gods

musical performances offered worshippers a multisensory experience of divine presence      The Culture of Animals in Antiquity Sian Lewis, Lloyd Llewellyn-Jones, 2018-01-09 The Culture of Animals in Antiquity provides students and researchers with well chosen and clearly presented ancient sources in translation some well known others undoubtedly unfamiliar but all central to a key area of study in ancient history the part played by animals in the cultures of the ancient Mediterranean It brings new ideas to bear on the wealth of evidence literary historical and archaeological which we possess for the experiences and roles of animals in the ancient world Offering a broad picture of ancient cultures in the Mediterranean as part of a wider ecosystem the volume is on an ambitious scale It covers a broad span of time from the sacred animals of dynastic Egypt to the imagery of the lamb in early Christianity and of region from the fallow deer introduced and bred in Roman Britain to the Asiatic lioness and her cubs brought as a gift by the Elamites to the Great King of Persia This sourcebook is essential for anyone wishing to understand the role of animals in the ancient world and support learning for one of the fastest growing disciplines in Classics      *Agamemnon in Performance 458 BC to AD 2004* Fiona Macintosh, 2005-12-08 This interdisciplinary multi author volume is devoted to the performance reception of Aeschylus's Agamemnon the first play in a trilogy The eighteen essays trace the story of the impact of this seminal play from its original performance in Athens through ancient Rome and the European Renaissance until the present day
