

# 6 common reactions during the Autistic discovery journey

## Denial

Imposter syndrome; I don't do \*that\* thing, the diagnosis/discovery is wrong

## Embracing

Having confidence in your Autistic identity, & connecting to the culture & community in Autistic spaces: allowing yourself to be authentically you

## Depression

Or is it Autistic burnout? masking/shielding is exhausting; taking control of your mask/shield

## Bargaining

Fine, I'm "high functioning"; I'm only a "bit Autistic"

## Acceptance

Ok, I \*am\* Autistic - but receiving mixed responses from other people when I disclose

## Anger

Re-evaluating life & events; anger at the injustice of being invalidated for Autistic behaviours & experiences: perhaps angry at the "autism"

**AUCADEMY**  
EDUCATORS OF AUTISTIC EXPERIENCE

The model was created by Autistic people to help other Autistic people feel heard & validated that whatever thoughts & feelings they have about discovering they're Autistic, others have experienced them too. All reactions, responses, thoughts, feelings, & stages when you discover you're Autistic are valid. Keep in mind these reactions are not linear, & you may experience one, many, all of them, or none, & at different times, or reactions simultaneously (for more information please use the link below). Let us know at Aucademy where you are in your journey and what has helped you in your discovery.

**The Autistic Experience** Marie-Laure Del Vecchio, Joe James, 2023-06-22 My autism and ADHD are as integral to me as my sense of personal ethics Lettie That clearly visible line for everyone else was non existent for me and often I was ridiculed Parnel Questioning authority I was seeking clarification Loukas I hate eye contact but I do it in order to look normal Diana These are Autistic Voices and this is The Autistic Experience Curated by psychologist and psychotherapist Marie Laure Del Vecchio and the Autistic Photographer Jordan James whose own experience of trauma drives his mission to create an inclusive society This book is a brave unflinching and ultimately optimistic collection of stories about life in the lens of autism Sometimes sad sometimes funny often shocking and always eye opening these stories from people across the globe explore all aspects of autistic life from the earliest childhood memories to the challenges facing the autistic parent or grandparent From school days to office life from teenagers to those in their seventies across all genders from people who are homeless to NASA scientists The Autistic Experience explodes the myths around autism and celebrates the right to be autistic Taking a deep dive into controversies like the causes of autism this is above all a book that speaks to the hundreds of thousands of people both with and without an autism diagnosis who need to know that to live in a more inclusive adjusted and autism friendly environment is a right worth fighting for *Demystifying the Autistic Experience* William Stillman, 2003 This book introduces autism from a non clinical humanist perspective emphasizing that we are all more alike than different The author deconstructs the fundamental concepts of the autistic experience using language examples and anecdotes that are concrete and understandable for all

**The Autism Experience** Valerie Foley, 2011-10-12 the Autism Experience is a guide to bringing up children with Autism Spectrum Disorder written by parents who have themselves navigated the medical maze braved the behavioural problems and survived the emotional rollercoaster associated with caring for someone with autism Each chapter is based on a question frequently asked by the parents of ASD children and consists of a clearly written informative introduction followed by the relevant real life experiences of parents from around the world These allow the reader to learn from the experiences of those who have travelled this road before them how they have come to terms with the diagnosis how it has changed their everyday lives for better and for worse their strategies for coping with autism Rich with useful information and personal experience recounted with wit and raw honesty The Autism Experience is both an invaluable practical guide and a source of comfort for parents learning to live with autism *Understanding Parent Experiences and Supporting Autistic Children in the K-12 School System* Yarbrough, Jillian, 2021-12-17 Parenting and educating a child with an autism spectrum disorder ASD is a unique experience for many reasons Too often the K 12 school system overlooks the needs of children with ASDs or educators find themselves unprepared to provide a learning environment that fulfills these needs Parents of children with ASDs must also stay informed on autism support services school system practices developmental pediatrics and more in order to be an active voice in how their children are supported within the school

system Understanding Parent Experiences and Supporting Autistic Children in the K 12 School System shares the experiences of children with ASDs in order to develop more supportive practices for these children as they navigate the K 12 system It also offers best practices strategies and information for educators to provide a sufficient learning environment to support children with ASDs within their classrooms Covering topics such as assistive tools inclusive practices and parent experiences it is an ideal resource for K 12 administration and faculty educators pre service teachers policymakers parents researchers and academicians Situating Phenomenological Psychopathology: Subjective Experience Within the World

Elizabeth Pienkos,Jasper Feyaerts,Rosa Ritunnano,Jérôme Englebert,Louis Sass,2023-09-28 vThe discipline of phenomenological psychopathology has historically focused on elucidating the ways in which persons with psychiatric illnesses experience themselves and the world Early pioneers in this field were aware of the impact of uncontrollable life events on the onset and course of severe illness such as Jaspers recognition that environmental events may stimulate or enhance certain innate potentialities for the development of a disorder Furthermore the role of environment and life events in the development and onset of psychiatric illness has been well documented For example there is a clear relationship between the development of psychotic symptoms and life stressors including adverse childhood events urban living and migration However relatively little attention with some notable exceptions has been devoted to exploring the features of those experienced worlds and how they may impact the trajectory of severe illnesses such as schizophrenia depression and personality disorders Experiences of Adults Following an Autism Diagnosis Kristien Hens,Raymond

Langenberg,2018-09-29 This book explores adult experiences of autism diagnosis Focusing on the experiences of 21 interviewees the structure of the book mirrors the seven stages undergone upon diagnosis and raises important questions about modern society and the self amidst this life changing news Analysing a broad range of empirical interview data including adults who had experiences of other diagnoses and adults who seemed to function normally before their autism diagnosis the authors use these stories to examine how autism diagnosis can be extremely important and helpful but also generate a great deal of negativity Illuminating a range of testimonies that have previously been kept in the shadows this book will not only appeal to students and scholars of autism in adults but also to practitioners as well as adults who have been diagnosed with autism **The Autism Experience** Valerie Foley,2011 The Autism Experience is a collection of advice we shared with each other stories answers explanations controversies It s practical it s useful it s heart warming it s funny and it s full of the stuff we wish we d known when we started Googling at 3am The Autism Experience is an invaluable guide for anyone involved in parenting a child on the autism spectrum The Autistic Sleuth Chris Chan,Patricia Meyer
