Democracy Challenged Marina Ottaway,2013-01-25 During the 1990s international democracy promotion efforts led to the establishment of numerous regimes that cannot be easily classified as either authoritarian or democratic They display characteristics of each in short they are semi authoritarian regimes These regimes pose a considerable challenge to U S policymakers because the superficial stability of many semi authoritarian regimes usually masks severe problems that need to be solved lest they lead to a future crisis Additionally these regimes call into question some of the ideas about democratic transitions that underpin the democracy promotion strategies of the United States and other Western countries Despite their growing importance semi authoritarian regimes have not received systematic attention Marina Ottaway examines five countries Egypt Azerbaijan Venezuela Croatia and Senegal which highlight the distinctive features of semi authoritarianism and the special challenge each poses to policymakers She explains why the dominant approach to democracy promotion isn't effective in these countries and concludes by suggesting alternative policies Marina Ottaway is senior associate and codirector of the Democracy and Rule of Law Project at the Carnegie Endowment **Khrushchev's Thaw and National**

Identity in Soviet Azerbaijan, 1954-1959 Jamil Hasanli,2014-12-18 On February 25 1956 Soviet leader Nikita S Khrushchev delivered the so called secret speech in the Twentieth Party Congress of the CPSU in which he denounced Stalin's transgressions and the cult of personality around the deceased dictator Replete with sharp criticism of the Terror of the late 1930s the unpreparedness of the USSR for the Nazi invasion numerous wartime blunders and the deportation of various nationalities the speech reverberated throughout the subordinate Soviet republics For republics such as Azerbaijan the speech was an unmistakable signal to readjust the entire political orientation and figure out ways to redefine governance in post Stalin era Previously frozen under the mortal threat of Stalinist persecution various forms of national self expression began to experience rapid revival under the Khrushchev thaw Encouraged by the winds of change at the Center the Azeris cautiously began to reclaim possession of their administrative domain Among other local initiatives the declaration of the Azerbaijani language as the official language was one step that stood out in its audacity for it was not pre arranged with the Kremlin and defied the modus operandi of the Soviet leadership Somewhat reformist in his intentions yet ignorant of the non Slavic peripheries Mr Khrushchev had not foreseen the scenarios that would unfold as a result of its new tone and the developments that would come to be interpreted as the rise of nationalism in the republics Jamil Hasanli's research on 1950s Azerbaijan sheds light on this watershed period in Soviet history while also furnishing the reader with a greater

understanding of the root causes of the dissolution of the USSR

The Politics of Culture in Soviet Azerbaijan,

1920-40 Audrey Altstadt, 2016-06-23 The early Soviet Union's nationalities policy involved the formation of many national republics within which nation building and modernization were undertaken for the benefit of backward peoples. This book, in considering how such policies were implemented in Azerbaijan, argues that the Soviet policies were in fact a form of imperialism with nation building and modernization imposed firmly along Soviet lines. The book demonstrates that in Azerbaijan and more widely among western Turkic peoples the Volga and Crimean Tatars, there were before the onset of Soviet rule well developed forward looking secular national movements which were not at all backward and were different from the Soviets. The book shows how in the period 1920 to 1940 the two different visions competed with each other with eventually the pre Soviet vision of Azerbaijani culture losing out and the Soviet version dominating in a new Soviet Azerbaijani culture. The book examines the details of this Sovietization of culture in language policy and the change of the alphabet in education, higher education and in literature. The book concludes by exploring how pre Soviet Azerbaijani culture survived to a degree underground and how it was partially rehabilitated after the death of Stalin and more fully in the late Soviet period.

War and Peace in the Caucasus Vicken Cheterian, 2011-03-12 After the collapse of the Soviet Union the Caucasus was wracked by ethnic and separatist violence as the peoples of the region struggled for self determination. Vicken Cheterian, who spent many years as a reporter and analyst covering the region's conflicts, asks why nationalism emerged as a dominant political current and why of the many nationalist movements that emerged some led to violence while others did not. He explains also why minority rebellions were victorious against larger armies in mountainous Karabakh, Abkhazia and in the first war of Chechnya and discusses the ongoing instability and armed resistance in the North Caucasus. He concludes his book by examining chapters the great power competition between Russia, the US and the EU over the oil and gas resources of the Caspian region.

Mass Atrocities, Risk and Resilience Stephen McLoughlin, 2015-06-29 Mass Atrocities, Risk and Resilience examines the relationship between risk and resilience in the prevention of genocide and other mass atrocities and explores two broad areas of neglect. In terms of prevention there is very little research that analyzes how local and national actors manage the risk associated with mass atrocities. In the field of comparative genocide studies to date there has been very little interest in examining negative cases. Although much is known about why mass atrocities occur, much less is established about why they do not occur. The contributions in this book address this neglect in two important ways. First they challenge commonly accepted approaches to prevention. Second they explore negative cases in order to better understand how local and national actors have mitigated risk over time.

On the Religious Frontier Firouzeh Mostashari, 2017-05-30 Modern Russia's turbulent relations with its Muslim frontiers date back centuries. Indeed the nineteenth century when the Muslim Caucasus first came under Russian rule witnessed many of the historical antecedents to today's violent confrontations. Orthodox Russian imperial rule and the attempts of the Russian administrators of the Caucasus to integrate the region into the empire Drawing on original archival research from across Azerbaijan and Russia Firouzeh Mostashari considers the formation of a Russian colonial administration in the Muslim Caucasus subsequent social political and economic developments and the local responses to conquest military rule and Russification From 1804 to the Bolshevik Revolution of 1917 *On The Religious Frontier* offers a fascinating and timely insight into both the period itself and the ways in which the seeds of recent conflict were sown in tsarist Russia This is important reading for all scholars of the history and politics of the Caucasus as well as those with an interest in imperial Russia and its relationship with minority groups ***Empire and Belonging in the Eurasian Borderlands*** Krista A. Goff, Lewis H. Siegelbaum, 2019-04-15 *Empire and Belonging in the Eurasian Borderlands* engages with the evolving historiography around the concept of belonging in the Russian and Ottoman empires The contributors to this book argue that the popular notion that empires do not care about belonging is simplistic and wrong Chapters address numerous and varied dimensions of belonging in multiethnic territories of the Ottoman Empire Imperial Russia and the Soviet Union from the mid nineteenth to the late twentieth centuries They illustrate both the mutability and the durability of imperial belonging in Eurasian borderlands Contributors to this volume pay attention to state authorities but also to the voices and experiences of teachers linguists humanitarian officials refugees deportees soldiers nomads and those left behind Through those voices the authors interrogate the mutual shaping of empire and nation noting the persistence and frequency of coercive measures that imposed belonging or denied it to specific populations deemed inconvenient or incapable of fitting in The collective conclusion that editors Krista A Goff and Lewis H Siegelbaum provide is that nations must take ownership of their behaviors irrespective of whether they emerged from disintegrating empires or enjoyed autonomy and power within them ***Beyond the Resource Curse*** Brenda Shaffer, Taleh Ziyadov, 2011-12-30 When countries discover that they possess large deposits of oil and natural gas the news is usually welcome Yet paradoxically if they rely on their wealth of natural resources they often set down a path of poor economic performance and governance challenges Only a few resource rich countries have managed to develop their economies fully and provide a better and sustainable standard of living for large segments of their populations This phenomenon known as the resource curse is a core challenge for energy exporting states *Beyond the Resource Curse* focuses on this relationship between natural wealth and economic security discussing the particular pitfalls and consistent perils facing oil and gas exporting states The contributors to this volume look beyond the standard fields of research related to the resource curse They also shed new light on the specific developmental problems of resource rich exporting states around the globe including Azerbaijan Bahrain Cambodia East Timor Iran Norway Russia Trinidad and Tobago the United Arab Emirates and Venezuela Policy makers and academics think of energy security solely in terms of the interests of energy importers *Beyond the Resource Curse* shows that the constant volatility in energy markets creates energy security challenges for exporters as well ***The Karabakh Conflict***
