The Backward Society Raymond Frost,1973 *The Backward Society* Raymond Maurice FROST,1962 **The Moral Basis of a Backward Society** Edward C. Banfield,Laura Fasano Banfield,1965 **Sociology of Indian Society** CN Shankar Rao,2004-09 The revision comes 10 years after the first edition and completely overhauls the text not only in terms of look and feel but also content which is now contemporary while also being timeless A large number of words are explained with the help of examples and their lineage which helps the reader understand their individual usage and the ways to use them on the correct occasion *A LANDMARK ON THE INDIAN CONSTITUTION* Prasanna S,2023-09-04 In the heart of India s rich legal history lies an extraordinary tale that changed the course of the nation s destiny A Landmark on the Indian Constitution delves into the captivating story of a pivotal moment in the journey of India s democracy This meticulously researched and engagingly written book explores the untold story of a landmark case that challenged the very foundations of the Indian Constitution It takes readers on a fascinating journey through the corridors of power the intricacies of legal arguments and the passionate debates that echoed in the hallowed halls of justice The book introduces us to the remarkable individuals who played pivotal roles in this constitutional saga from the brilliant lawyers who argued the case to the visionary judges who rendered the historic verdict It uncovers their personal struggles their unwavering commitment to justice and the sacrifices they made for the ideals they held dear As readers embark on this intellectual and emotional journey they will gain a deeper understanding of the Indian Constitution and the principles that underpin it A Landmark on the Indian Constitution is not just a legal narrative it s a story of courage conviction and the enduring spirit of democracy This book is a must read for anyone interested in the intricacies of Indian law the evolution of democracy and the indomitable human spirit that shapes the destiny of nations Please note that this is a fictional description and there may not be an actual book with this title or content If you have any specific questions or would like to discuss a different topic please feel free to ask **Society and Politics in India** Andre Beteille,2020-12-22 Society and politics are subjects of continuous and animated discussion in contemporary India The essays brought together in this collection were written or published between 1964 and 1990 In this case it was also a period of many changes in the disciplines of social anthropology and sociology as well as in the social and political environment Varieties of Marxism Shlomo Avineri,2012-12-06 The essays included in this volume are based on papers delivered at the International Symposium on Varieties of Marxism held at the Van Leer Jerusalem Foundation on June 16 19 1974 and dedicated to the memory of George Lichtheim When the idea of such a symposium was first raised the organizers planned to have George Lichtheim as one of the main speakers at the event In our last and brief meeting in London I suggested this to him and Lichtheim gave his consent to attend the symposium though at that time no date was yet fixed His tragic death a few months later left a gap not only in the program of the symposium but in Marxist studies generally it was felt that per haps one way of paying tribute to his contribution to the study of a subject so near to his mind would be to

name the symposium in his memory and devote an introductory paper to an attempt at an intellectual portrait of George Lichtheim as an historian of ideas The volume as published includes all papers delivered at the symposium with the exception of the papers of J L Talmon Jerusalem on Marxism and Nationalism and Gajo Petrovic Zagreb on Yugoslav Marxism Appended is also a short obituary written by me on Lichtheim for the journal Political Science published by the American Political Science Association

Proceedings, American Philosophical Society (vol. 106, no. 2, 1962), *Human Factors of a Global Society* Tadeusz Marek, Waldemar Karwowski, Marek Frankowicz, Jussi Kantola, Pavel Zgaga, 2014-06-02 During the last 60 years the discipline of human factors HF has evolved alongside progress in engineering technology and business Contemporary HF is clearly shifting towards addressing the human centered design paradigm for much larger and complex societal systems the effectiveness of which is affected by recent advances in engineering science

War and Change in World Politics Robert Gilpin, 1981-10-30 War and Change in World Politics introduces the reader to an important new theory of international political change Arguing that the fundamental nature of international relations has not changed over the millennia Professor Gilpin uses history sociology and economic theory to identify the forces causing change in the world order The discussion focuses on the differential growth of power in the international system and the result of this unevenness A shift in the balance of power economic or military weakens the foundations of the existing system because those gaining power see the increasing benefits and the decreasing cost of changing the system The result maintains Gilpin is that actors seek to alter the system through territorial political or economic expansion until the marginal costs of continuing change are greater than the marginal benefits When states develop the power to change the system according to their interests they will strive to do so either by increasing economic efficiency and maximizing mutual gain or by redistributing wealth and power in their own favour

The Equal Society George Hull, 2015-12-24 Equality is a widely championed social ideal But what is equality And what action is required if present day societies are to root out their inequalities The Equal Society collects fourteen philosophical essays each with a fresh perspective on these questions The authors explore the demands of egalitarian justice addressing issues of distribution and rectification but equally investigating what it means for people to be equals as producers and communicators of knowledge or as members of subcultures and considering what it would take for a society to achieve gender and racial equality The essays collected here address not just

the theory but also the practice of equality arguing for concrete changes in institutions such as higher education the business corporation and national constitutions to bring about a more equal society The Equal Society offers original approaches to themes prominent in current social and political philosophy including relational equality epistemic injustice the capabilities approach African ethics gender equality and the philosophy of race It includes new work by respected social and political philosophers Proceedings of the Engineers' Society of Western Pennsylvania Engineers' Society of Western
