The Bakerloo Line A Short History:

The Bakerloo Line M. A. C. Horne, 1990 **The History of the Bakerloo Line** Clive D W Feather, 2020-10-26 The Bakerloo is the dull brown line on London's iconic tube map. It doesn't have the multiple branches of the Northern or District Lines, the loops of the Piccadilly or the Central, or the puzzling shape of the non-circular Circle. But its nondescript appearance belies a history encompassing fraud in the boardroom and drama in the courtroom for a line first conceived by sports enthusiasts and finished by Chicago gangsters. With over 120 photographs, this book provides a history of its development from obtaining Parliamentary permission and raising finance through to geology and construction techniques. It details its operation including rolling stock, signalling, stations and signage from the beginning to the current day. The impact of the two World Wars is revealed, and it remembers some of the accidents and tragedies that befell the line. Finally, the book describes its evolution up to the present day and beyond.

A Short History of London Simon Jenkins, 2019-10-10
Fascinating and timely. Required reading for every developer, planner or councillor who holds London in trust today. Griff Rhys Jones. Accessible, clear and readable. Rowan Moore, *The Observer*. _____ LONDON, a settlement founded by the Romans, occupied by the Saxons, conquered by the Danes and ruled by the Normans. This unremarkable place, not even included in the Domesday Book, became a medieval maze of alleys and courtyards, later to be chequered with grand estates of Georgian splendour. It swelled with industry and became the centre of the largest empire in history. And rising from the rubble of the Blitz, it is now one of the greatest cities in the world. From the prehistoric occupants of the Thames valley to the preoccupied commuters of today, Simon Jenkins brings together the key events, individuals and trends in London's history to create a matchless portrait of the capital. _____ A vivid and deeply well-informed account of London's history. Charles Saumarez Smith, Professor of Cultural History, Queen Mary University of London. Extremely informative and witty. Roy Porter, author of *London: A Social History*. On Landlords to London: A short invigorating gallop over two and a half thousand years. Scotsman on *A Short History of Europe*. _____ *Urban History* 19:2. Kajal Lahiri, Geoffrey H. Lahiri, 1992-12-10

A Bibliography of British History, 1914-1989 Keith Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996. Containing over 25,000 entries, this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century. Accessibly arranged by theme, with helpful introductions to each chapter, a huge range of topics is covered. There is a comprehensive index. **Ultimate Folly** Henry Macrory, 2018-06-12. A gripping story of greed, treachery and ruthless ambition. Few people have led such an extraordinary life as Whitaker Wright. Few have died in such sensational circumstances. Beginning his career as an impoverished preacher, Wright crossed the Atlantic to prospect for gold, surviving a Native American massacre before he made his fortune. Then the bubble burst. Leaving behind a string of angry investors, he fled to England to start again. Soon he was one of the world's richest men. At his 10,000-acre estate in Surrey, he employed an entourage of seventy-seven staff, moved a hill that blocked his view and built an underwater glass

smoking room On his vast steam yacht he entertained the Prince of Wales the Kaiser and half of Britain's aristocracy His downfall was as dramatic as his ascent On the last trading day of the nineteenth century his financial empire which he had propped up by cooking the books went belly up This time the trail of furious investors stretched all the way to the Prime Minister With the police in hot pursuit Wright fled to New York but his escape was short lived At the end of what the press dubbed the most dramatic trial of modern times he was sentenced to seven years in jail Minutes later he sprang a last dreadful surprise Other great swindlers have followed in Wright's footsteps but none have surpassed him in daring and shamelessness Drawing on family papers and archives from around the world this compelling account of Wright's life reads like a thriller and offers an insight into the mind of the ultimate gambler and conman **Fraudsters and Charlatans** Linda Stratmann,2010-06-01 In 1817 a young woman of exotic appearance was found wandering near Bristol She spoke in a language that no one could understand except seemingly a Portuguese sailor He claimed that she was a Sumatran princess from the island of Javas Princess Caraboo as she was known became a national celebrity and lived in a grand style entertaining many distinguished visitors A few weeks later however she was exposed as Mary Baker the daughter of a cobbler from Devonshire Mary's deception is one of several intriguing stories of nineteenth century fraudsters brought to light in Linda Stratmann's entertaining look at some of history's greatest rogues From bankers who forged share certificates ruining hundreds of small investors to Louis de Rougemont whose tales of high adventure branded him The Greatest Liar on Earth these riveting tales of true crime expose the seedy side of life in which corruption avarice and scandal hold sway

Bibliography of Printed Works on London History to 1939 Heather Creaton,Tony Trowles,1994 The history of London is so important in national and indeed international terms it seems extraordinary that this is the first general bibliography of the subject to appear It contains over 22 000 selected references to books and articles on the history of London from the Dark Ages to the beginning of the Second World War The whole of the former GLC area plus the City is covered Arrangement is by subject and there is a substantial analytical index Material for the bibliography was collected from specialist libraries all over London and beyond It is a starting point for any enquiry about London's development over the centuries whether from the academic historian the amateur or the general enquirer A supplement is planned to cover new material on the period **A Short History of Mechanical Traction and Travel: The development of road motors, 1898-1946** Roger Wakely Kidner,1946 **The Industrial Archaeology and Industrial History of London** ,1988

Electrifying the Underground Graeme Gleaves,2014-02-15 The arrival of electric traction transformed London's fledgling underground system from a limited number of sub surface lines into the network of deep level tunnels we know today *A Brief History of London* Jeremy Black,2022-07-07 As the United Kingdom left the European Union during a period of international and domestic turmoil London found itself at a turning point This critical moment presents an opportunity to look back with a distinctive perspective a focus on London in its national and perhaps even more importantly its international

contexts rather than on the city itself in isolation It is the interactions of London that Black considers and he does so in order to address the question as to why London became the foremost international city how it sustained that position and what its future holds The book is as much about economics and culture as it is about politics and society It deals with migration communications empire and cultural energy rather than the mechanisms of parish vestries London s earlier period is covered but the principal focus is on the last half millennium the period during which London became a major trader with the trans oceanic world and the ruler of trans oceanic colonies while the English language became an increasingly important cultural medium one centred on London The book includes plentiful literary references quotations from visitors and boxes covering discrete topics such as Jack the Ripper [A Short History of Mechanical Traction and Travel](#) Roger Wakely Kidner,1946

Euston - A history and modelling the 1875 station David Ashwood,2024-08-30 Euston Station was the first intercity railway gateway for London and with the famed Doric Arch became a major landmark of that city Initially built for the London and Birmingham Railway it became the terminus of the LNWR Premier Line then HQ of the London Midland and Scottish The controversial 1960 s demolition of the site stimulated the building preservation movement Latterly we have a challenging on off love affair with the area through the High Speed Two project This book contains both a background history of Euston and its environs combined with a modellers review of building a OO gauge mid Victorian station complex A core model of the old station was kindly donated to the Market Deeping Model Railway Club MDMRC following the sad act of vandalism of their model railway show in 2019 This in turn served as a stimulus to expand detail and research during the Covid isolation and lockdown years This book is the end result of these endeavours We use the model to underpin the history and allow a geographical walkthrough of the site plus hints tips and techniques on building a landmark model It has been an enjoyable and eye opening challenge to unveil the story under through and over Euston Written and contributed to by members of the MDMRC all royalties will go the club Charity number 1187779 *An Economic History of London*
