The Bowl with One Spoon: The

American empire and the fourth world Tony Hall,2003 How should citizens of the world respond to the emergence of the United States as the planet s sole superpower and the military commercial and cultural centre of a new kind of global empire This question poses the central dilemma of our time How can we elaborate a global rule of law based on principles of equality and democracy when the world s most powerful polity seemingly acknowledges no higher authority in the international arena than its own domestic priorities For Anthony Hall the answer lies in the concept of the Fourth World an inclusive intellectual tent covering a wide range of movements whose leaders have sought to implement alternative visions of globalization to those that have prevailed since the Columbian conquests began in 1492 Its basic principles include recognition of the

inherent rights of all peoples to self determination and an enlightened embrace of the ecology of biocultural diversity role of the United States began at its founding The Royal Proclamation of 1763 which offered a qualified recognition of Aboriginal and treaty rights infuriated many Anglo American colonists Their resulting sense of grievance was articulated in the Declaration of Independence which proclaims the inalienable rights of all men even as it accuses King George III of having endeavoured to bring on the inhabitants of our frontiers the merciless Indian savages The United States has never faced let alone resolved this fundamental contradiction in its founding document This failure manifested itself in the lawlessness and militarism that characterized US treatment of Indigenous peoples in the most formative phase of the country s frontier expansionism The exclusion of savages from the republic s founding ideals of human equality came increasingly to permeate US foreign policy culminating in the ethnic and religious prejudices colouring the so called War on Terrorism policies toward Aborigines that have done much to shape the interconnected histories of the United States Canada Latin America South Africa Australia New Zealand and many other countries The War of 1898 and U.S. Interventions, 1898-1934 Benjamin R. Herring, 2017-01-23 In his last years as president of the United States an embattled George Washington yearned for a time when his nation would have the strength of a Giant and there will be none who can make us afraid At the turn of the twentieth century the United States seemed poised to achieve a position of world power beyond what even Washington could have imagined In **The American Century and Beyond** U S Foreign Relations 1893

2014 the second volume of a new split paperback edition of the award winning *From Colony to Superpower* George C Herring recounts the rise of the United States from the dawn of what came to be known as the American Century This fast paced narrative tells a story of stunning successes and tragic failures illuminating the central importance of foreign relations to the existence and survival of the nation Herring shows how policymakers defined American interests broadly to include territorial expansion access to growing markets and the spread of the American way of life He recounts the United States domination of the Caribbean and Pacific its decisive involvement in two world wars and the eventual victory in the half century Cold War that left it after the collapse of the Soviet Union the world's lone superpower But the unipolar moment turned out to be stunningly brief Since the turn of the twenty first century conflicts in Afghanistan and Iraq and the emergence of nations such as Brazil Russia India and China have left the United States in a position that is uncertain at best A new chapter brings Herring's sweeping narrative up through the Global War on Terror to the present
