**The Barons' Hostage** Geoffrey Trease, Douglas Phillips, 1973-01-01      The Barons' Hostage Geoffrey Trease, 1956

Medieval Hostageship c.700-c.1500 Matthew Bennett, Katherine Weikert, 2016-09-13 This volume explores the issues of taking using and being hostages in the Middle Ages It brings together recent research in the areas of hostages and hostageships looking at the act of hostage taking and the hostages themselves through the lenses of political and social history Building upon previous work this volume in particular critically examines not only the situations of hostages and hostageships but also the broader social and political context of each situation developing a more complete picture of the phenomenon      *Hostages in the Middle Ages* Adam J. Kosto, 2012-06-21 Examines the changing situations in which hostages were used in the Europe and the Mediterranean world from the fifth to the fifteenth centuries touching on a wide range of topics in military diplomatic political social gender economic and legal history      The Hostage Paul Claudel, 1917

Hostages Terrence Crimmins, 2016-03-01 Tom O Mally a recent graduate of Georgetown University is finishing his part time job delivering pizza and everything is fine or so it seems Suddenly Tom finds himself forced into a building containing the captives of a Muslim terrorist and becomes their fellow hostage Join Tom as he is sucked into the whirlwind of being a hostage and a celebrity amid lingering international intrigue where everything is not as it seems      **Writing the Lives of People and Things, AD 500-1700** Robert F.W. Smith, Gemma L. Watson, 2017-05-15 Historical biography has a mixed reputation at its best it can reveal much not only about an individual but the wider context of their life and society at worst it can result in a narrowly focused work of hagiography or condemnation Yet in spite of its sometimes inferior status amongst academics biography has remained a popular genre and in recent years has developed into new and intriguing areas As the essays in this volume reveal scholars from an array of different disciplines have embraced what biography can offer them expanding the remit of biography from people to things tracing the life of their chosen object from creation to use to disposal to rediscovery The increasing concern with the physicality of manuscripts and books has also meant an awareness of and interest in the lives of these forms of material culture Historians have also become increasingly interested in groups of individuals resulting in prosopographical studies A book on the diversity of biography is therefore very timely exploring the multi disciplinary application of historical biography in the period 500 1700 It presents fourteen case studies offering new approaches to historical biography written by early career researchers from backgrounds in archaeology English art architectural history and history demonstrating different approaches and techniques Overall the collection is a strong and united statement by a group of early career researchers who insist on the vitality of biography as a central concern of historians across the disciplines of the humanities Contributors believe that the life is a fundamental medium of study for the medieval and early modern periods and thus bolsters the move back towards biography as a primary tool of medieval and early modern scholars as well as a tool for future research for humanities scholars interested in biography      *The*

*Experience of Power in Medieval Europe, 950-1350* Robert F. Berkhofer III, Alan Cooper, Adam J. Kosto, 2017-05-15 Taking their inspiration from the work of Thomas N Bisson to whom the book is dedicated the contributors to this volume explore the experience of power in medieval Europe the experience of those who held power those who helped them wield it and those who felt its effects The seventeen essays in the collection which range geographically from England in the north to Castile in the south and chronologically from the tenth century to the fourteenth address a series of specific topics in institutional social religious cultural and intellectual history Taken together they present three distinct ways of discussing power in a medieval historical context uses of power relations of power and discourses of power The collection thus examines not only the operational and social aspects of power but also power as a contested category within the medieval world The *Experience of Power* suggests new and fruitful ways of understanding and studying power in the Middle Ages

*The English Aristocracy, 1070-1272* David Crouch, 2011-05-24 William the Conqueror's victory in 1066 was the beginning of a period of major transformation for medieval English aristocrats In this groundbreaking book David Crouch examines for the first time the fate of the English aristocracy between the reigns of the Conqueror and Edward I Offering an original explanation of medieval society one that no longer employs traditional feudal or bastard feudal models Crouch argues that society remade itself around the emerging principle of nobility in the generations on either side of 1200 marking the beginning of the ancien regime The book describes the transformation in aristocrats expectations conduct piety and status in expressions of social domination and in the relationship with the monarchy Synchronizing English social history with non English scholarship Crouch places England's experience of change within a broader European transformation and highlights England's important role in the process With his accustomed skill Crouch redefines a fascinating era and the noble class that emerged from it
