The Basic Kafka:

The Basic Kafka Franz Kafka, 1979 Published together for the first time are selections from all Kafka's writings The Metamorphosis Josephine The Singer plus his short stories parables and his personal diaries and letters [Basic Kafka](#) Franz Kafka, 1971 Published together for the first time are selections from all Kafka's writings The Metamorphosis Josephine The Singer plus his short stories parables and his personal diaries and letters **The Basic Kafka** Franz Kafka, 2009-07-01 The complete METAMORPHOSIS and JOSEPHINE THE SINGER over 35 short stories selections from his diaries and letters

Kafka's Narrative Theater James Rolleston, 1990-10-01 Can one speak of Kafka's heroes as characters If so why is it so hard to define their characteristics If not how is the reader persuaded to accompany them on their existential journeys accepting their behavior as falling within the realm of human logic This study argues that Kafka's fiction has two conflicting premises the subjective impossibility of human existence foreclosing all hope of meaning in individual actions and the ordered structure of human thoughts which assign meaning to the smallest event and analyze endlessly the behavior of other people Kafka's characters are always either potentially or actually moving in both directions at once earnestly building up a continuous logic to their actions while skeptically dismantling their own pretensions to existence The device of the circumscribed narrator congruent with the hero knowing only what the hero knows yet not identical with him enables Kafka to contain both fundamental tendencies in a single sentence Although Kafka is widely read his works seem to give rise very easily to misconceptions this study is designed primarily to facilitate an intelligent reading of Kafka Without imposing answers of its own it seeks to foster an awareness of the problems of perspective and presentation which Kafka engages

Kafka's Stereoscopes Isak Winkel Holm, 2019-09-19 In 1911 Franz Kafka encountered the Kaiser Panorama a stereoscopic peep show offering an illusion of three dimensional depth After the experience he began to emulate the apparatus in his literary sketches developing a style we might call stereoscopic juxtaposing like the optical stereoscope two images of the same object seen from slightly different perspectives Isak Winkel Holm argues that Kafka's stereoscopic style is crucial to an understanding of the relation between literature and politics in Kafka's work At the level of content the stereoscopic style offers a representation of the basic order of a specific community At the level of form the stereoscopic style is structured as the juxtaposition of two dissimilar images of the same community At the level of function finally the style provokes a reconsideration and perhaps even a reconfiguration of the social order itself With insights from literary studies philosophical aesthetics and political theory Kafka's Stereoscopes offers a detailed but highly readable argument for the relevance of Kafka's literary works in today's political reality [Kafka's Cognitive Realism](#) Emily Troscianko, 2014-02-03 This book uses insights from the cognitive sciences to illuminate Kafka's poetics exemplifying a paradigm for literary studies in which cognitive scientific insights are brought to bear directly on literary texts The volume shows that the concept of cognitive realism can be a critically productive framework for exploring how textual evocations of cognition correspond to or

diverge from cognitive realities and how this may affect real readers. In particular, it argues that Kafka's evocations of visual perception, including narrative perspective and emotion, can be understood as fundamentally enactive and that in this sense they are cognitively realistic. These cognitively realistic qualities are likely to establish a compellingly direct connection with the reader's imagination, but because they contradict folk psychological assumptions about how our minds work, they may also leave the reader unsettled. This is the first time a fully interdisciplinary research paradigm has been used to explore a single author's fictional works in depth, opening up avenues for future research in cognitive literary science.

Kafka's Jewish Languages David Suchoff, 2011-11-29 After Franz Kafka died in 1924, his novels and short stories were published in ways that downplayed both their author's roots in Prague and his engagement with Jewish tradition and language, so as to secure their place in the German literary canon. Now, nearly a century after Kafka began to create his fictions, Germany, Israel, and the Czech Republic lay claim to his legacy. *Kafka's Jewish Languages* brings Kafka's stature as a specifically Jewish writer into focus. David Suchoff explores the Yiddish and modern Hebrew that inspired Kafka's vision of tradition. Citing the Jewish sources crucial to the development of Kafka's style, the book demonstrates the intimate relationship between the author's Jewish modes of expression and the larger literary significance of his works. Suchoff shows how *The Judgment* evokes Yiddish as a language of comic curse and examines how Yiddish, African American, and culturally Zionist voices appear in the unfinished novel *Amerika*. In his reading of *The Trial*, Suchoff highlights the black humor Kafka learned from the Yiddish theater, and he interprets *The Castle* in light of Kafka's involvement with the renewal of the Hebrew language. Finally, he uncovers the Yiddish and Hebrew meanings behind Kafka's *Josephine the Singer* or *the Mouse Folk* and considers the recent legal case in Tel Aviv over the possession of Kafka's missing manuscripts as a parable of the transnational meanings of his writing.

Strong Opinions Chris Danta,Sue Kossew,Julian Murphet,2011-07-14 This new collection of essays on Coetzee examines how his novels create and unsettle literary authority Its unique contribution is to show how Coetzee provokes us into reconsidering certain basic formal and existential questions such as the nature of literary realism the authority of the author and the constitution of the human self in a posthumanist setting by consciously revealing the literary theoretical seams of his work Strong Opinions makes the innovative claim that Coetzee s work is driven not by a sense of scepticism or nihilism but rather by a form of controlled exposure that defines the literary The essays in the volume variously draw attention to three of Coetzee s most recent and significant experiments in controlled exposure The first is the exposure of place Coetzee s decision to set his novels in his newly adopted country of Australia The second is the exposure of form Coetzee s direct almost essayistic address of literary philosophical topics within his novels And the third is the exposure of limits Coetzee s explicit deconstruction of the traditional limits of human life

Litowitz, 2017-08-11 The legal system is often denounced as Kafkaesque but what does this really mean This is the question Douglas E Litowitz tackles in his critical reading of Franz Kafka's writings about the law Going far beyond Kafka's most familiar works such as *The Trial* Litowitz assembles a broad array of works that he refers to as Kafka's legal fiction consisting of published and unpublished works that deal squarely with the law as well as those that touch upon it indirectly as in political administrative and quasi judicial procedures Cataloguing explaining and critiquing this body of work Litowitz brings to bear all those aspects of Kafka's life that were connected to law his legal education his career as a lawyer his drawings and his personal interactions with the legal system A close study of Kafka's legal writings reveals that Kafka held a consistent position about modern legal systems characterized by a crippling nihilism Modern legal systems in Kafka's view consistently fail to make good on their stated pretensions in fact often accomplish the opposite of what they promise This indictment as Litowitz demonstrates is not confined to the legal system of Kafka's day but applies just as surely to our own A short clear comprehensive introduction to Kafka's legal writings and thought Kafka's *Indictment of Modern Law* is not uncritical Even as he clarifies Kafka's experience of and ideas about the law Litowitz offers an informed perspective on the limitations of these views His book affords rare insight into a key aspect of Kafka's work and into the connection between the writing the writer and the legal world

Kafka's the Trial Espen Hammer, 2018 Kafka's novel *The Trial* written from 1914 to 1915 and published in 1925 is a multi faceted notoriously difficult manifestation of European literary modernism and one of the most emblematic books of the 20th Century It tells the story of Josef K a man accused of a crime he has no recollection of committing and whose nature is never revealed to him The novel is often interpreted theologically as an expression of radical nihilism and a world abandoned by God It is also read as a parable of the cold inhumane rationality of modern bureaucratization Like many other novels of this turbulent period it offers a tragic quest narrative in which the hero searches for truth and clarity whether about himself or the anonymous system he is facing only to fall into greater and greater confusion This collection of nine new essays and an editor's introduction brings together Kafka experts intellectual historians literary scholars and philosophers in order to explore the novel's philosophical and theological significance Authors pursue the novel's central concerns of justice law resistance ethics alienation and subjectivity Few novels display human uncertainty and skepticism in the face of rapid

modernization or the metaphysical as it intersects with the most mundane aspects of everyday life more insistently than *The Trial*. Ultimately the essays in this collection focus on how Kafka's text is in fact philosophical in the ways in which it achieves its literary aims. Rather than considering ideas as externally related to the text, the text is considered philosophical at the very level of literary form and technique.

The Remnant: Franz Kafka's Letter to the Father Eli Schonfeld, 2024-09-23 As a Jew, Kafka received nothing in inheritance from his father. Nevertheless, throughout his life, subtly, remnants of Jewish words can be deciphered. Hence the question at the heart of this book: what remains when what's left is a nothing of Judaism? Letter to the Father. This question necessitates a philosophical and Jewish reading of his work, prompting a reconsideration of the intricate relationships between the Jew and the West and the Jew and modernity. Thus, this book proposes an examination of Kafka's oeuvre to uncover what remains Jewish therein at the heart of Europe amidst modernity where nothing remains the enigma of the Letter.

Kafka's Castle and the Critical Imagination Stephen D. Dowden, 1995 Kafka's final unfinished novel *The Castle* remains one of the most celebrated yet most stubbornly uninterpretable masterpieces of modernist fiction. Consequently, it has been a lightning rod for theories and methods of literary criticism. In this chronological study of its fate at the hands of academic and non-academic critics, S. D. Dowden lays emphasis on the acts of critical imagination that have shaped our image and understanding of Kafka and his novel. He explores the historical and cultural contingencies of criticism from the Weimar Era of Max Brod and Walter Benjamin to Lionel Trilling's Cold War to the postmodern moment of multiculturalism and its turn to cultural studies. Dowden shows how and why *The Castle* became a contested site in the imaginative life of each succeeding generation of criticism. In addition, he accounts for those moments at which Kafka's novel escapes or at least attempts to escape the gravitational pull of historically anchored understanding. Forthright in its prose, Dowden's is a book essential for anyone, casual reader or professional critic, who hopes to grasp the peculiar difficulties and

challenges of Kafka's prose in general and of *The Castle* in particular *Theory After Theory* Nicholas Birns, 2010-06-14
