## **The East Florida Expeditions Of Clarence Bloomfield Moore Classics In Southeastern Archaeology:**

The East Florida Expeditions of Clarence Bloomfield Moore Clarence B. Moore, 1999 The East Florida Expeditions of Clarence Bloomfield Moore Clarence Bloomfield Moore, 1999-04-27 Clarence B Moore 1852 1936 a wealthy Philadelphia socialite paper company heir and photographer made the archaeology of the Southeast his passion beginning in the 1870s This volume collects 17 of Moore s publications on East Florida works originally published between 1892 and 1903 These invaluable and copiously illustrated works amply document the results of Moore s numerous archaeological expeditions along Florida s eastern Coastline from the Georgia border to Late Okeechobee between 1891 and 1895 and focus primarily on sites along the St Johns River and its tributaries

**The West and Central Florida Expeditions of Clarence Bloomfield Moore** Clarence Bloomfield Moore, 1999-07-20 This compilation of Moore s publications on western and central Florida provides all of his archaeological data on the region s mounds and prehistoric canals in a single volume The name Clarence B Moore is familiar to every archaeologist interested in the southeastern United States This amateur archaeologist s numerous scientific expeditions to the region resulted in dozens of well illustrated publications the value of which increases daily as many of the sites he investigated continue to be destroyed by modern development Moore invested considerable time and effort exploring Florida s archaeological sites devoting more pages of published reports and articles to Florida than to any other state Because of the wealth of material on Florida Moore s Florida expedition publications have been collected in three separate volumes all published within the Classics in Southeastern Archaeology series The thirteen papers reproduced in this volume present the results of Moore s research in West and Central Florida Moore s first and last expeditions were to Florida and spanned almost fifty years of archaeological investigations Following the eastern river drainages to central and western Florida in 1900 Moore concentrated his efforts along the Florida Gulf Coast spurred by the exciting discoveries of Frank Hamilton Cushing at Key Marco in 1896 Although this region is rich in mound sites many sites located by Moore in the early years of this century had already been destroyed by construction and lime processing In addition to mound groupings some containing masses of skeletal remains Moore found a number of sites connected by a network of prehistoric canals Several of the sites located by Moore contained European trade goods and have been used to trace the early wanderings of the conquistadores in the New World Moore s early work on the Florida Gulf Coast succeeded in preserving much of the archaeological record in this area He is to be credited with remarkable insights concerning mound and earthwork construction artifact trade networks and chronology development

The Northwest Florida Expeditions of Clarence Bloomfield Moore Clarence Bloomfield Moore, 1999-09-27 This comprehensive compilation of Moore s archaeological reports on northwest Florida and southern Alabama and Georgia presents the earliest documented investigations of this region

The Southern and Central Alabama Expeditions of Clarence Bloomfield Moore Clarence Bloomfield Moore, 2001-04-09 The works by Clarence B Moore reproduced in this volume were published originally in 1899 1901 1903 1904 1905 1907 and

1918     **The Historical Turn in Southeastern Archaeology** Robbie Ethridge, Eric E. Bowne, 2020-11-03 This volume uses case studies to capture the recent emphasis on history in archaeological reconstructions of America's deep past representing a profound shift in thinking about precolonial and colonial history and helping to erase the false divide between ancient and contemporary America     *The Tennessee, Green, and Lower Ohio Rivers Expeditions of Clarence Bloomfield Moore* Clarence Bloomfield Moore, 2002-07-17 This oversized reprint volume presents original materials from Moore's northernmost expeditions conducted in the early 1900s as he surveyed areas of potential archaeological interest in the southeastern United States Some of the sites he found were later targeted for major excavations during the days of the WPA CCC Many National Register Historic Sites are today located along the rivers he explored in this work In many cases however Moore's report documents sites since destroyed by river action or by lake impoundments behind hydroelectric dams or by looters As with all of Moore's other in     *The Louisiana and Arkansas Expeditions of Clarence Bloomfield Moore* Clarence Bloomfield Moore, 2003 The ninth and final volume in the C B Moore reprint series that covers archaeological discoveries along North American Waterways     *Early New World Monumentality* Richard L. Burger, Robert M. Rosenswig, 2012-05-20 In studies of ancient civilizations the focus is often on the temples palaces and buildings created and then left behind both because they survive and because of the awe they still inspire today From the Mississippian mounds in the United States to the early pyramids of Peru these monuments have been well documented but less attention has been paid to analyzing the logistical complexity involved in their creation In this collection prominent archaeologists explore the sophisticated political and logistical organizations that were required to plan and complete these architectural marvels They discuss the long term political social and military impacts these projects had on their respective civilizations and illuminate the significance of monumentality among early complex societies in the Americas Early New World Monumentality is ultimately a study of labor and its mobilization as well as the long term spiritual awe and political organization that motivated and were enhanced by such undertakings Mounds and other impressive monuments left behind by earlier civilizations continue to reveal their secrets offering profound insights into the development of complex societies throughout the New World

**Hunter-Gatherer Archaeology as Historical Process** Kenneth E. Sassaman, Donald H. Holly, 2013-02-01 The remains of hunter gatherer groups are the most commonly discovered archaeological resources in the world and their study constitutes much of the archaeological research done in North America In spite of paradigm shifting discoveries elsewhere in the world that may indicate that hunter gatherer societies were more complex than simple remnants of a prehistoric past North American archaeology by and large hasn't embraced these theories instead maintaining its general neoevolutionary track This book will change that Combining the latest empirical studies of archaeological practice with the latest conceptual tools of anthropological and historical theory this volume seeks to set a new course for hunter gatherer archaeology by organizing the chapters around three themes The first section offers diverse views of the role of human agency challenging

the premise that hunter gatherer societies were bound by their interactions with the natural world The second section considers how society and culture are constituted Chapters in the final section take the long view of the historical process examining how cultural diversity arises out of interaction and the continuity of ritual practices A closing commentary by H Martin Wobst underscores the promise of an archaeology of foragers that does not associate foraging with any particular ideology or social structure but instead invites inquiry into counterintuitive alternatives Hunter Gatherer Archaeology as Historical Process seeks to blur the divisions between prehistory and history between primitive and modern and between hunter gatherers and people in other societies Because it offers alternatives to the dominant discourse and contributes to the agenda of hunter gatherer research this book will be of interest to anyone involved in the study of foraging peoples **The Lower Mississippi Valley Expeditions of Clarence Bloomfield Moore** Clarence Bloomfield Moore,1998-11-09 This third of nine volumes covering archaeologist Clarence B Moore s expeditions in the southern United States in the early part of the century focuses on the sites on the Mississippi River and its major tributaries that Moore visited and excavated between 1907 and 1911 This one volume facsimile edition includes descriptions of sites maps and fine bandw photographs of pottery Annotation copyrighted by Book News Inc Portland OR [The Georgia and South Carolina Coastal Expeditions of Clarence Bloomfield Moore](#) Clarence Bloomfield Moore,1998-09-04 Reprints Moore s works on aboriginal mounds of the Georgia coast coast of South Carolina Savannah River and Altamaha River all originally published in the Journal of the Academy of Natural Sciences of Philadelphia in 1897 and 1898 In his comprehensive introduction Lewis Larson Georgia s senior archaeologist revisits each site and its findings and discusses recent acquisitions An appendix lists each site by county and includes Moore site names state site file numbers burial types selected diagnostic artifacts and cultural period 10x14 Annotation copyrighted by Book News Inc Portland OR **Ancient Complexities** Susan M. Alt,2010 A current overview of what is meant by cultural complexity and how archaeologists study the development of complex societies in North America [Stones & Bones Newsletter](#) ,1996 *American Book Publishing Record* ,2000 **The Moundville Expeditions of** Clarence Bloomfield Moore,1996 The two works reproduced by facsimile in this volume were published originally in the Journal of the Academy of Natural Sciences of Philadelphia in 1905 and 1907 **Anthropology News** ,2000 *Guide to Reprints* ,2009 [Journal of Alabama Archaeology](#) ,2001 *Guide to Reprints* Albert James Diaz,2008
