This useful framework helps you develop your knowledge and understanding of the foundation subjects as well as how to plan, assess and teach these diverse subjects. The book also helps you understand the value that the foundation subjects bring and enables you to reflect on why and how to teach them in a creative, imaginative and inspirational way. In particular, the book offers a clear structure that is easy to follow. A concise overview of the curriculum requirements for each subject. Great teaching ideas for each subject to try out in the classroom. Links to academic research and practical experiences from the classroom. With its rich range of creative and practical teaching activities and underpinned by the pedagogy and identity of each discipline, this is essential reading for beginning and early career teachers. Through a comprehensive examination of subject identity, effective pedagogy and creative teaching strategies, Webster and Misra provide the tools to be a pro-active, reflective and versatile leader in the Foundation Subjects. The knowledge and experience of the authors and contributors is evident in the book's ability to convey theory and pedagogy using coherent and accessible language which makes it both informative and practical. This book adopts a unique and fresh approach which seamlessly combines theory and experience to deliver information that is enlightening, inspiring and truly useful. Nick Murphy, Edge Hill University, Trainee teacher and Teaching Assistant. This book fills a void in the world of ITE. The links between theory and practice can be difficult to comprehend for those making their first steps into the profession. With the three-lens approach exploring the unique nature of each discipline synthesised with pedagogical aspects and creative ideas, this book provides fabulous support for trainee teachers to clearly make those links. I feel that *Teaching the Primary Foundation Subjects* will be an invaluable text for ITE providers to share with their students to support and guide them not only through their placements but through their academic work too.
