**The Economic Dimensions of Middle Eastern History** Hālāh Isfandiyārī, Abraham L. provoked and then sustained this migration      The A to Z of the Ottoman Empire Selcuk Aksin Somel,2010 The Ottoman Empire was the last great Muslim political entity emerging in the later Middle Ages and continuing its existence until the early 20th century and the creation of the modern state of Turkey The A to Z of the Ottoman Empire is an in depth treatise covering the political social and economic history of the Ottoman Empire the last member of the lineage of the Near Eastern and Mediterranean empires and the only one that reached the modern times both in terms of internal structure and world history Key Features o Historical maps o A detailed chronology o A list of Ottoman sultans and grand viziers o A dictionary consisting of 781 entries o An analytical bibliography o Details where original Turkish documents can be located

the country and ultimately realized his dream of an effective framework for collaboration with neighboring Gulf states The UAE has since become a constructive force within the region and beyond exemplifying the principles of national unity regional solidarity international cooperation and religious tolerance This book adopts a scholarly approach in analyzing the UAE s unique federal experience its phenomenal achievements and H H Shaikh Zayid s far sighted policies It is an in depth study of the birth of a progressive nation and the pivotal role of its leader based largely on unpublished historical records and documents The factual foundation of the book and its meticulous documentation make it a valuable record covering an important era in the contemporary history of the Arab Gulf region

**The Ottoman Economy and Its Institutions** Şevket Pamuk,2009 The Ottoman Empire stood at a crossroads of intercontinental trade stretching from the Balkans and the Black Sea region through the present day Middle East and most of the North African coast for six centuries up to World War I The articles in this volume by a leading economic historian examine its economic institutions the long term performance of the Ottoman economy and explore the reasons for the longevity of this large empire They argue that the Ottoman state and society showed considerable ability to reorganize and adapt to changing circumstances and make the case that until the 19th century standards of living in many parts of the empire differed little from those in much of continental Europe

**War and Migration** Alessandro Monsutti,2005-06-10 Focusing on the case of the Hazaras a population from central Afghanistan this book shows how migration studies and transnationalism are at the heart of theoretical and methodological debates which animate anthropology

**Ottoman Civil Officialdom** Carter Vaughn Findley,2014-07-14 In this sequel to his highly acclaimed Bureaucratic Reform in the Ottoman Empire Carter Findley shifts focus from the organizational aspects of administrative reform and development to the officials themselves A study in social history and its cultural and economic ramifications

Findley's new book critically reassesses Ottoman accomplishments and failures in turning an archaic scribal corps into an effective civil service. Combining scrutiny of well-documented individuals with analyses of large groups of officials, Findley considers how much the development of civil officialdom benefited Ottoman efforts to revitalize the state and protect its interests in an increasingly competitive world. Did reformers' initiatives in elite formation significantly broaden the social bases of officialdom and its capacity to represent Ottoman society? Did prospective officials profit from educational reform so as to achieve higher levels of qualification over the generations? How did cultural tensions of the reform era affect civil officials? To what extent did impersonal procedure and new ideas of professionalism supplant patronage and old scribal role concepts? How well did the state succeed in rewarding good service and protecting its officials against shifting economic conditions? The answers to such questions illuminate major issues of social integration and cultural change and clarify links between economic conditions and changing forms of political activism. **Islamic Civilization** S. M. Ghazanfar, 2006-03-30. Review: *Islamic Civilization: History, Contributions, and Influence: A Compendium of Literature* is a window to literature pertaining to Islamic history and Islam's contributions to knowledge and its influence in medieval Europe. The book is unique in that it presents more than mere annotations; it is a collection of literature briefs, detailed and focused descriptions of each of the more than six hundred books and articles covered. In the post-9/11 environment, there has been a surge of interest regarding all things Islamic. While much of the new literature is refreshingly positive, some works demonstrate a revival of centuries-old misconceptions about the Islamic world. *Islamic Civilization* examines that dichotomy through literature that the author has accumulated over the past twenty years in connection with other research endeavors concerning early Islamic social thought; thus, most references have a social science/humanities orientation. Students, researchers, scholars, and professionals will find this bibliography full of useful resources and a stimulus for further reading. **BOOK JACKET** **Constructing Ottoman Beneficence** Amy Singer, 2012-02-01. Ottoman charitable endowments (waqf) constituted an enduring monument to imperial beneficence and were important instruments of policy. One type of endowment, the public soup kitchen (imaret), served travelers, scholars, pious mystics, and local indigents alike. *Constructing Ottoman Beneficence* examines the political, social, and cultural context for founding these public kitchens. It challenges long-held notions about the nature of endowments and explores for the first time how Ottoman modes of beneficence provide an important paradigm for understanding universal questions about the nature of charitable giving. A

typical and well documented example was the imaret of Hasseki Hurrem Sultan wife of Sultan S leyman I in Jerusalem The imaret operated at the confluence of imperial endowment practices and Ottoman food supply policies while also exemplifying the role of imperial women as benefactors Through its operations the imaret linked imperial Ottoman and local Palestinian interests integrating urban and rural economies
