The Edge Of Madness Prisons And Prison Reform In America:

The Edge of Madness Robert A. Liston, 1972 Futile Self defeating Wasteful Disgraceful These are the words writer Robert Liston uses to describe the American prison system as a whole These are also the words used by nearly every official social scientist commission prison administrator in short by every observer of the system But while there is agreement that the prison system in the United States does not work there is no agreement over how to correct it As he examines this explosive problem Liston goes far beyond conventional sources drawing on his own experiences as a reporter and on prisoners accounts of their existence behind bars His treatment of the subject is a thorough one which includes the causes of crime and the problem of law enforcement as well In the mood of urgency pervading the country especially since Attica and San Quentin Liston's rational yet sensitive probing is invaluable Possible solutions and experiments in prison reform all of which Liston covers cannot but help a willing society to cope with the problems of crime and punishment in a new and challenging era Jacket
