The Education Of The Spirit:

Education in Search of the Spirit John Fentress Gardner, 1996 Real education will always seek to strengthen what is best in the human soul its longing for the experience of spiritual truth that brings into the self an objective appreciation of the noble aspects of its own nature together with a subjective sense of real affinity with the rest of humanity the earth planet as a whole and the great cosmos above and beyond The premise of this book is that a human being is a being of body soul and spirit whose core is eternal spirit from which center one should strive to live From this perspective the aim of true education is to help our children activate this deepest center in themselves For this living intuitive thinking must be brought to life in a new way The organ for such thinking is the heart where will and feeling join in uniting self and world morality and truth love and action This book is in three parts The first poses the problem the second describes the Waldorf approach as a solution and the third deals with questions of special interest to parents and educators alike such as authority discipline and freedom the nature of genius and the question of cultural pluralism The first edition of this book was titled *The Experience of Knowledge* in response to a clear call for experience in education Certainly if the sole purpose of education is to acquire information learning becomes dry abstract and deadening To have meaningful consequence in a person's life coming to know must become an experience Too often however such experience is understood simply as doing field trips class projects and so on But doing if unconnected to the whole person is just activity To become true experience it must speak out of and toward a student's secret center the spirit Hence the author affirms that authentic education is always in search of the spirit *The Christian Educator's Handbook on Adult Education* Kenneth O. Educating in the Spirit Eric J. Kyle, 2019-05-16 This book is an attempt to address two struggles for theistic educators e.g. those who approach their educational vocation from a religious perspective whether they are working in secular or faith based institutions The first struggle is that while numerous guidelines on teaching excellence have been compiled the resulting checklists can contain more than a hundred criteria to consider This book therefore identifies the evidence based guidelines that are likely to have the highest impact on student achievement thereby empowering educators to focus their efforts in more substantial ways The second struggle is related to the lack of resources which can help educators to view and approach their vocation from a theistic perspective While there are texts that discuss the relationship of spirituality and or theology to education few to date have sought to bring evidence based educational literature into dialogue with the western Christian tradition and thereby develop a bottom up theology of education This book addresses this historical and theological gap Overall this book is therefore intended to not only provide theistic educators with high impact guidelines that can significantly improve the quality of education in their school systems but it also strives to do so from a thoroughly theistic perspective

THE HUMAN SPIRIT RUDOLF STEINER, 2015-12-09 To live in truth to wish to be true in one s whole being will be the watchword of the future Rudolf Steiner In the midst of the lies and propaganda of the Great War Rudolf Steiner struggled to convey the truths of the human spirit The truth asserted by partisan interests he suggested was invariably tinged with dishonesty whether the outright mendacities of politicians and rulers Steiner refers here to the machinations of the British Empire or the manipulative techniques of secret societies intent on securing and shoring up their own power In relation to the latter Rudolf Steiner highlights how whilst we tend to reject overt authority nowadays we succumb more easily to its covert forms in the received wisdoms we often unthinkingly adopt In seeking to help his audiences discern the spiritual struggle unfolding behind outer events Steiner describes how the intrigues that led to the war were based on intentional deceit which served hidden aims of which the public was mostly kept in the dark In contrast to the divisiveness of untruth truth is based on a realization of the interconnectedness of all things of interdependence between the realms below and above us The I upon which all evolution on earth is predicated signifies an overcoming of egotism and narrow interests together with the imaginative embrace of all beings Its spiritual reality that descends to us from non material worlds and towards which we evolve through earthly lives is the epitome of truth Amidst many other topics covered here Rudolf Steiner speaks about The Qur an and the Mystery of Golgotha Henry VIII Thomas More and the Church of England the Jesuits and their State in Paraguay Freemasons esoteric symbols and handshakes Madame Blavatsky s occult imprisonment by Anglo Saxon brotherhoods Dostoyevsky s The Brothers Karamazov and the occult literature of Papus and L vi
