Transpersonal Psychology in Psychoanalytic Perspective Michael Washburn, 1994-01-01 In this book Michael Washburn provides a psychoanalytic foundation for transpersonal psychology Using psychoanalytic theory Washburn explains how ego development both prepares for and creates obstacles to ego transcendence Spiritual development he proposes can be properly understood only in terms of the ego development that precedes it For example many difficulties encountered in spiritual development can be traced to repressive underpinnings of ego development and significant gender differences in spiritual development can be traced to corresponding gender differences that emerge during ego development Washburn draws on a wide range of psychoanalytic perspectives in discussing ego development and uses both Eastern and Western sources in discussing spiritual development In rethinking transpersonal psychology in psychoanalytic terms he explains how essential elements of Jungian thought can be grounded in psychoanalytic theory

The Perfectibility of Human Nature in Eastern and Western Thought Harold Coward, 2012-02-01 How perfectible is human nature as understood in Eastern and Western philosophy psychology and religion Harold Coward examines some of the very different answers to this question He poses that in Western thought including philosophy psychology Judaism Christianity and Islam human nature is often understood as finite flawed and not perfectible in religion requiring God's grace and the afterlife to reach the goal By contrast Eastern thought arising in India frequently sees human nature to be perfectible and presumes that we will be reborn until we realize the goal the various yoga psychologies philosophies and religions of Hinduism and Buddhism being the paths by which one may perfect oneself and realize release from rebirth Coward uses the striking differences in the assessment of how perfectible human nature is as the comparative focus for this book

Embodied Spirituality in a Sacred World Michael

Washburn, 2012-02-01 Anyone seeking a deeper understanding of human spirituality will find something of value in Michael Washburn's new book Drawing on a rich variety of psychoanalytic Jungian and existential phenomenological sources and on both Western and Asian spiritual texts Embodied Spirituality in a Sacred World provides a theoretical foundation for the idea that human development follows a spiral path Washburn shows that ego development early in life requires us to turn our backs on original sources of our existence and therefore that spiritual development later in life requires us to spiral back to these sources on the way to whole psyche integration He elucidates the underlying causes and pivotal events that set development on its spiral course and traces six major dimensions of experience as they unfold along the spiral path the unconscious the energy system the ego system the perceived other the experiential body and the life world In providing a theoretical foundation for the idea of the spiral path Washburn defends the idea against its critics and helps explain why the idea has been compelling to so many people in diverse traditions

John E. Nelson, 1994-01-01 The links between madness creative genius and spiritual experiences have tantalized philosophers and scientists for centuries In Healing the Split John Nelson brings the lofty ideas of transpersonal psychology down to earth so they can be applied in a practical way to explain the bizarre effects of insanity on the human mind Drawing on a vast knowledge of Eastern philosophy and mainstream neuropsychiatry he heals the split between orthodox and alternative views with a comprehensive approach that goes beyond both Starting where R D Laing and Thomas Szasz left off Nelson revises

and expands their radical views in light of modern brain science He then turns to ancient tantric yoga for a synthesis that weaves brain psyche and spirit into a compelling new conception of mental illness For professionals who seek to meet the needs of their patients more creatively this book offers a unique synthesis For people in emotional crisis it clarifies the distinctions among intractable psychosis temporary breakdowns in the service of healing spiritual emergencies and psychic breakthroughs spiritual emergence And for anyone interested in the seemingly inexplicable workings of the human mind gone mad this fascinating exploration of psychotic states of consciousness will be exciting reading **Integrated**

Daniels,2002-11 The Integration of Psyche and Spirit presents an interactive model of a new genre of psychology Integral Psychology In this genre all schools and systems of psychology are unified within a single all inclusive framework Psychoanalysis Behaviorism Cognitive Psychology Existentialism and Transpersonal Psychology all find their rightful place as members in a new democracy of mind Building on the pioneering work of Freud Jung Kohut Maslow and Wilber as aligned to the spiritual revelation of the Ruchira Avatar Adi Da Samraj Burton Daniels has developed a comprehensive theory of psychic structure personality development and clinical practice It is the intent of this work to usher in a new era within professional psychology where all schools and systems can benefit from a common language and theoretical framework This breakthrough is made possible by a conception of the psyche that includes every aspect of structure and development within a single comprehensive theory The Apex Paradox The author integrates the Avatar Adi Da s teaching on psychology and spirituality into this analysis providing a compelling argument for the inclusion of spirituality into psychological theory and a strong argument for the truth of the Avatar Adi Da s teaching iUniverse Counselling Skills Dr. Salma Seth,Dr. Harpreet

Bhatia,Prof. N.K. Chadha,2019-08-16 There are three parts of the book which follow Part One Different Voices in the Counselling Profession emphasises that as counselling evolved a kaleidoscope of helping initiatives emerged to meet the

needs of the human condition Each given time period had its clashes of prominent theorists and ideologies In the 1940s Freud and psychoanalytic theory was perhaps the initial major influence on all other formal systems of counselling Many other perspectives evolved as an extension of or rebellion against psychoanalytical principles such as the ego psychologists or neo Freudians of the 1950s and the convincing ideas of Carl Jung Alfred Adler Karen Horney Erich Fromm Harry Stack Sullivan Erick Erikson and Wilhelm Reich who felt that interpersonal aspects have a more significant influence on the development of the individual Existential approach evolved as the third force in counselling as an alternative to psychoanalysis and behavioural approaches with the person centered approach developed by Carl Rogers and the gestalt approach of Fritz Perls Essentially the 1960s was touted as the decade of person centered counselling with the emphasis on feelings and the importance of relationships and focus on the congruency between the ideal and the real self The 1970s was the decade of behaviourism and behavioural counselling focusing on measurable and observable data to monitor clients growth and change The 1980s emerged as the decade of cognition and cognitive approaches to counselling focusing on the client s ability to change perceptions attitudes and thinking regarding the human condition The 1990s rapidly emerged as what some have termed as the age of dysfunction and the decade of eclecticism In the 21 st century counselling profession will have to sustain their worth in response to the constraints of managed care Transpersonal approaches the fourth force is attempting a synthesis that rethinks both spirituality and the practice of counselling today The prolific writings of eminent psychologists have been included to describe the above mentioned theoretical models and their innovative counselling techniques Part Two The Counselling Process Developing Eclectic Skills which the reader would find more enriching and inclusive that expands and strengthens the four stage model of the counselling process relationship stage extended exploration stage problem resolution stage termination and follow up Here an attempt is being made with the help of examples cases and activities to enhance social emotional and cognitive skills to maximize human potential Part Three Special Areas of Counselling makes the book unique and of value to the demanding needs of today s clients and specific populations with a wide range of problems namely developmental concerns of children adolescents elderly family dysfunctions crises intervention etc Yet another primary focus of the book is on Assessment Tools for the diverse clientele used by the counselors and adding to their repertoires are Skill Development Exercises as well which brings existential meaning to the work of the helping professional This brings content and consciousness together and provides hope and meaning for the reader
