The War of the Mind: Understanding Inflation and Alienation David Sinclair, 2021-07-27 Christians say that Jesus Christ had two natures divine and human What would that be like According to Carl Jung we are all Jesus Christ Our human part is our ego the center of our consciousness while our divine part is our Self the unconscious center of our entire psyche With Jesus Christ both natures divine and human were conscious in one person According to Jung the problem for humans is that our divine nature is unconscious and our conscious human nature is for the most part completely unable to communicate with our inner God If it could we would all be Jesus Instead the human mind is at war with itself The part that is truly connected to reality is our unconscious Self the God inside us The part that is prone to making up reality the part that lives in a fantasy world of its own devising is our conscious human part For Jung the ego consciousness has to undergo a process called individuation to make proper contact with the Self the divine unconscious and thus reach the answer to life the universe and everything Dreams are where our inner God attempts to speak to us but people are hopeless at interpreting their dreams The more successful you become at individuation the better sense you can make of your all important dreams If the conscious ego and unconscious Self have a poor relationship disaster usually follows Two of the biggest dangers are inflation and alienation These are currently happening on an epidemic scale and infecting the whole world with madness The Mind War can end only if the two natures of Jesus human and God can at last learn to be on the same page and understand each other's role Come inside and find out what has to be done The Gospel of War, If You Want Peace Prepare for War. From Ambassadors of Conflict to Messengers Aware of Peace Davide Appi, 2023-02-17 The Gospel of War if you want Peace prepare for war From ambassadors of conflict to messengers aware of peace True Peace is not only the absence of war but also of all the emotional negativity of the human being Harmony and serenity already dwell in us as well as truth and positive qualities it is only necessary to hear again to listen in silence and all the most precious inner treasures will blossom in unison The actual armed confrontation is only the visible tip of the iceberg a striking aspect of the war the one that moves the minds that suddenly rise from the sofa and say Putin is a criminal it is not acceptable to invade a foreign country and make massacres of innocent women and children But these people need to understand that the tanks that invade a country is just the final act of something that is being prepared day by day starting from our consciousnesses the war is a social structure a way by which we have organized the entire society because education itself is separating and teaches conflict So the war has become a philosophical spiritual psychological social cultural and economic structure born of our own consciousness of our false self that feels separated from itself from others and this is the feeling of division that is the source of war To be pacifist does not mean to go to the streets to protest against the war or to be indignant before the television for the criminal invasion perpetrated by the despot of the moment but to work on ourselves to dissolve that nature of conflict that we already have inside that we express in our daily lives when we clash with the people around us and show aggression towards those who attack us True Peace is first of all a journey within

us in search of all those stimuli in most cases unconscious that make us react aggressively when we feel attacked It s a huge but essential work we should base a new education on this key of inner pacification that further on will transmits outside as well Can we change the fate of our destiny Currently the world we live in seems to be addicted to violence and like the worst addict it requires stupidly unconsciously and automatically its dose of cruelty of arrogance of malevolence and the drug system itself is not interested in the destructive consequences of these behaviors for him the priority is to appease his addiction But war is a self destructive choice born from a sick conscience incapable of understanding itself and its own models of functioning Faced with this situation the pacifists seem to be silenced unable to respond to the completely rational and logical discourses of those who preach let us take up arms to defend ourselves or If you want peace prepare the war It seems more than ever to be back in fashion the famous Let s arm ourselves and go while the patriotic heroism regains strength as in the good times But now let s ask ourselves carefully It s truly like this Must we convert to the logic of violence brush up from the museum of prehistory the eye for an eye tooth for a tooth of Mosaic memory Can we ever live in a peaceful world What can we do against the war

and argues that the belief in moral warfare doesn't exist separately from the growing violence of Israel's occupation. This book is ideal for those interested in military ethics and Israeli politics and provides crucial in-depth analysis for students and researchers alike. **The Challenge of the War** Henry Frank, 1919 **War of the Ancient Dragon** Laurel A. Howe, 2016-04-24

Valuable above and beyond a case study because it remarkably grounds what can be very illusive alchemical imagery into psychological experience. Margaret Johnson, editor, *Psychological Perspectives*. A testament to the healing capacities of the imagination, the humble star in man that connects us to the unconscious to unknown and unexpected developments in ourselves. Literary Aficionado I suspect that far more would be resolved and much of the world's suffering wouldn't be in vain if only we could transform the wars in the Middle East and elsewhere in this world into the likes of Randy's sandtrays. *War of the Ancient Dragon*. Transformation of Violence in Sandplay is a major contribution to Jungian Psychology, Sandplay Therapy, and to the world at large. I urge you to read and to tell others about this powerfully moving book. Mel Mathews, Publisher, Fisher King Press.

Six-year-old Randy conducts bloody wars in the sandtray, calling them World War One, World War Two, and The War of the Ancient Dragon. He burns fires and bombs helpless victims, killing some and saving others. What could possibly be going on in his imagination? The contents of his imagination, what the alchemists call the realm of subtle bodies, are revealed in his sandplay from one session to the next, and there we see the raw, autonomous dynamism that motivates Randy, already branded a bully and nearly expelled from first grade. We see fiery, destructive conflict, part his part, his culture's part, lived part, projected a conflict of archetypal opposites that engulf Randy's personality and fuel his violent behavior. But also from Randy's imaginal world, out of the very war between opposites that drives him, the unknown third possibility unfolds. Allowed to exist and be seen with a paradoxical healing aim, the war fights itself out over time in the safe container of the sandtray, finds its unpredictable resolution, and gradually releases Randy from its grip. He finally emerges, calling himself king of the bloodfire, returned to the rule of his own emotional life. He has adapted to school, proud of his achievements, a star student in math. Randy's lively narratives animate his dramas and reveal the distinct hallmarks of an alchemical opus over the course of 24 therapy sessions. He remarkably echoes the words of the ancient sages such as Zosimos, who centuries ago in his own imagination witnessed the torture of transformation in fire. Randy's process is thoroughly documented and amplified, unveiling the alchemical stages of transformation: nigredo, albedo, and rubedo, in a way that helps us relate to those chapters in our own individuation struggles.

Psychological Perspectives, editor Margaret Johnson, writes that the work is valuable above and beyond being a case study because it remarkably grounds what can be very illusive alchemical imagery into psychological experience. *War of the Ancient Dragon* guides us through the gritty realities of the alchemical process, helping us realize how they can manifest in everyday life, dream images, and fantasy. Above all, the book is a testament to the healing capacities of the imagination, the humble star in man that connects us to the unconscious to unknown and unexpected developments in ourselves. **Psychotherapy in the Wake of War** Bernd
