The Egyptian Heavens And The Zodiacs Of Denderah:

The Dawn of Astronomy Sir Norman Lockyer, 1894 **Memoir on the antiquity of the Zodiacs of Emeh and Dendera** William DRUMMOND (Right Hon. Sir), 1821 The Dawn of Astronomy J. Norman Lockyer, 2006-04-28 A pioneer in the fields of astrophysics and astro archeology J Norman Lockyer believed that ancient Egyptian monuments were constructed in strict relation to the stars In this celebrated study he explores the relationship between astronomy and architecture in the age of the pharaohs Lockyer addresses one of the many points already extensively investigated by Egyptologists the chronology of the kings of Egypt All experts are in accord regarding the identity of the first monarch but they cannot agree upon the dates of his reign within a thousand years The author contends that by applying a knowledge of astronomy to the actual site orientation of the region s pyramids and temples accurate dating can be achieved In order to accomplish this Lockyer had to determine the level of the ancient Egyptian ideas of astronomy Some of his inferences have been invalidated by subsequent scholarship but many of his other conclusions stand firm and continue to provide sensational leads into contemporary understanding of archaic astronomy **Memoir on the Antiquity of the Zodiacs of Esneh and Dendera. [With Illustrations.]** William Drummond (Rt. Hon. Sir.), 1821 **The Shadow of Enlightenment** Theresa Levitt, 2009-01-08 This work examines the intersection of science and politics in the work of Fran ois Arago and Jean Baptiste Biot the principle architects of the optical revolution of early nineteenth century France Their disagreement over the optical accessibility of the world played out across a wide range of French culture **Astronomy and Astro-physics** , 1894

Some years ago it was my privilege to enjoy the acquaintance of Miss Frances Rolleston of Keswick and to carry on a correspondence with her with respect to her work *Mazzaroth or the Constellations* She was the first to create an interest in this important subject Since then Dr Seiss of Philadelphia has endeavoured to popularize her work on the other side of the Atlantic and brief references have been made to the subject in such books as *Moses and Geology* by Dr Kinns and in *Primeval Man* but it was felt for many reasons that it was desirable to make another effort to set forth in a more complete form the witness of the stars to prophetic truth so necessary in these last days To the late Miss Rolleston however belongs the honour of collect ing a mass of information bearing on this subject but published as it was chiefly in the form of notes unarranged and unindexed it was suited only for but was most valuable to the student She it was who performed the drudgery of collecting the facts presented by Albumazer the Arab astronomer to the Caliphs of Grenada 850 a d and the Tables drawn up by Ulugh Beigh the Tartar prince and astronomer about 1450 a d who gives the Arabian Astronomy as it had come down from the earliest times Modern astronomers have preserved and still have in common use the ancient names of over a hundred of the principal stars which have been handed down but now these names are used merely as a conven ience and without any reference to their significance This work is an attempt to popularize this ancient information and to use it in the interests of truth For the ancient astronomical facts and the names with their signifi cation I am from the very nature of the case indebted of course to all who have preserved collected and handed them down but for their interpretation I am alone responsible It is for the readers to judge how far my conclusions are borne out by the evidence and how far the foundation of our hopes of coming glory are strengthened by the prophecies which have been written in the stars of heaven as well as in the Scriptures of truth For the illustrations I am greatly indebted to Jamieson s *Celestial At las* 1820 Flammarion s *L toiles* Sir John W Lubbock s *Stars in Six Maps* 1883 and to the late Mr Edward J Cooper s *Egyptian Scenery* 1820 For the general presentation and arrangement of the Constella tions I am responsible while for the drawings my thanks are due to my friend Miss Amy Manson It is the possession of that blessed hope of Christ s speedy return from Heaven which will give true interest in the great subject of this book
