THE ELDER EDDA

A SELECTION

The Poetic or Elder Edda is a compilation made about A.D. 1200 of earlier Icelandic poems on cosmology, mythology, and the stories of Norse heroes. Together with the *Prose or Younger Edda*, it is the chief source of our knowledge of Scandinavian mythology.

This new translation—the result of a collaboration between a distinguished scholar and a major poet who has always felt a deep instinctive sympathy for the great masterpieces of Northern Europe—succeeds superbly in conveying the power, sharpness, and precision of the original. It is prefaced with a most helpful introduction by Professor Peter H. Salus and Paul B. Taylor.

Ancient Yew Robert Bevan-Jones,2016-10-31 The gnarled immutable yew tree is one of the most evocative sights in the British and Irish language an evergreen impression of immortality the tree that provides a living botanical link between our own landscapes and those of the distant past This book tells the extraordinary story of the yew s role in the landscape through the millennia and makes a convincing case for the origins of many of the oldest trees as markers of the holy places founded by Celtic saints in the early medieval Dark Ages With wonderful photographic portraits of ancient yews and a gazetteer with locations of the oldest yew trees in Britain the book brings together for the first time all the evidence about the dating history archaeology and cultural connections of the yew Robert Bevan Jones discusses its history biology the origins of its name the yew berry and its toxicity its distribution across Britain means of dating examples and their association with folklore with churchyards abbeys springs pre Reformation wells and as landscape markers This third edition has an updated introduction with new photographs and corrections to the main text **The World and Its Rival** Kathryn

Karczewska,Tom Conley,2023-11-27 This volume assembles a wide range of scholars and critical methodologies to suggest multiple interpretations of the vital connection linking literary imagination and the human experience of reality In varying ways and with varying intent it speaks to the essential experience of participating in imaginative worlds offering different accounts of how language signifies in real and imaginary contexts and why people read and write rival realities Taking as point of departure Aristotle s definition of poesis it questions how literature stands in both mimetic and transformative relation to the givens of history reworking them within the order of imagination and desire Through historical linguistic and literary analysis of texts spanning nine centuries it demonstrates how though it is irreducible to reality literary imagination

conveys something very real about the human response to the world including the knowledge and power proper to such experience neither history nor lie it discloses a reality purged of extraneous detail making what is essential to human experience more concentrated and dramatic Thus made apparent is that literature and history do not exclude each other but inform correct and supplement each other underscoring the complexities of thought and imagination English Poetry and Old Norse Myth Heather O'Donoghue, 2014-07-17 English Poetry and Old Norse Myth A History traces the influence of Old Norse myth stories and poems about the familiar gods and goddesses of the pagan North such as Odin Thor Baldr and Freyja on poetry in English from Anglo Saxon times to the present day Especial care is taken to determine the precise form in which these poets encountered the mythic material so that the book traces a parallel history of the gradual dissemination of Old Norse mythic texts Very many major poets were inspired by Old Norse myth Some for instance the Anglo Saxon poet of Beowulf or much later Sir Walter Scott used Old Norse mythic references to lend dramatic colour and apparent authenticity to their presentation of a distant Northern past Others like Thomas Gray or Matthew Arnold adapted Old Norse mythological poems and stories in ways which both responded to and helped to form the literary tastes of their own times Still others such as William Blake or David Jones reworked and incorporated celebrated elements of Norse myth valkyries weaving the fates of men or the great World Tree Yggdrasill on which Odin sacrificed himself as personal symbols in their own poetry This book also considers less familiar literary figures showing how a surprisingly large number of poets in English engaged in individual ways with Old Norse myth English Poetry and Old Norse Myth A History demonstrates how attitudes towards the pagan mythology of the north change over time but reveals that poets have always recognized Old Norse myth as a vital part of the literary political and historical legacy of the English speaking world From the Words of Angels and Ancient Book of Jika - On the Drama of Initiation in the Atlantean Age and Our Hidden Genesis Christine Preston, 2011-07-15 This work unravels the great mysteries of the Bible and ancient civilization In introducing her disclosures Christine Preston reveals the meaning of Trees in Scripture as being in connection with Initiation in the Old World The latter being the Atlantis of Plato she reveals original sin as a misuse of power by Atlanteans influenced by Wise Serpents who opposed spiritual evolution She discusses divine human intermarriages and provides a solution for the fact that the Watchers parallel to the Sons of God of Genesis are depicted as evil by disclosing a secondary scenario in Enoch that is illustrated by the Ancient Book of Jika

Culture/contexture E. V. Daniel, E. Valentine Daniel, Jeffrey M. Peck, 1996-01-01 The rapprochement of anthropology and literary studies begun nearly fifteen years ago by such pioneering scholars as Clifford Geertz Edward Said and James Clifford has led not only to the creation of the new scholarly domain of cultural studies but to the deepening and widening of both original fields Literary critics have learned to anthropologize their studies to ask questions about the construction of meanings under historical conditions and reflect on cultural situatedness Anthropologists have discovered narratives other than the master narratives of disciplinary social science that need to be drawn on to compose ethnographies Culture

Contexture brings together for the first time literature and anthropology scholars to reflect on the antidisciplinary urge that has made the creative borrowing between their two fields both possible and necessary. Critically expanding on such pathbreaking works as James Clifford and George Marcus's *Writing Culture* and Marcus and Michael M. J. Fischer's *Anthropology as Cultural Critique*, contributors explore the fascination that draws the disciplines together and the fears that keep them apart. Their topics demonstrate the rich intersection of anthropology and literary studies ranging from reading and race to writing and representation, incest and violence and travel and time.
