Louis Jacobs and the Quest for a Contemporary Jewish Theology Miri Freud-Kandel, 2023-10-15 For Louis Jacobs the quest the process of engaging with and thinking about Jewish faith was a lifelong pursuit He offered a model in the 1960s a

period characterized by general religious crisis of an observant committed but intellectually curious Judaism that empowered individual seekers to address challenges to faith In Orthodox Judaism at the time a battle was under way for religious control Generating a widespread controversy in British Jewry known as the Jacobs Affair his thought offers a lens for examining the trajectory of Orthodoxy In a contemporary context marked by the changing cultural and intellectual concerns of a post secular age the focus of some of these debates over religious control has shifted Yet Jacobs emphasis on a personal quest is as relevant as ever perhaps more so This first book length analysis of his theology unpacks the building blocks of his thought It argues that despite its particularities and limitations his approach can provide a powerful model for contemporary religious seekers in the context of a growing impetus away from established denominationally bound forms of religion Many orthodox believers across a range of faiths continue to prefer the certainty of unquestionable religious truth claims rather than pursuing a subjective search for religious meaning For those seeking alternative models for the contemporary Jewish quest a reconsideration of Jacobs theology can offer valuable tools

Space and Spatiality in Modern German-Jewish History Simone Lässig, Miriam Rürup, 2017-06-01 What makes a space Jewish This wide ranging volume revisits literal as well as metaphorical spaces in modern German history to examine the ways in which Jewishness has been attributed to them both within and outside of Jewish communities and what the implications have been across different eras and social contexts Working from an expansive concept of the spatial these contributions look not only at physical sites but at professional political institutional and imaginative realms as well as historical Jewish experiences of spacelessness Together they encompass spaces as varied as early modern print shops and Weimar cinema always pointing to the complex intertwining of
