The Emerging City Paris In The Age Of Louis Xiv:

The Emerging City: Paris in the Age of Louis XIV. Leon Bernard, 1970 **The Secret Wife of Louis XIV** Veronica Buckley, 2009-09 Fran oise d Aubign marquise de Maintenon and secret wife of the Sun King Louis XIV was born in a bleak French prison in 1635 her father a condemned traitor and murderer her mother the warden s seduced daughter A timely pardon and a hopeful Caribbean colonial venture failed to mend the family s fortunes and Fran oise was reduced to begging in the streets Yet armed with beauty intellect and shrewd judgment she was to make her way to the center of power at Versailles the most opulent and ambitious court in all Europe At fifteen she was married off to the forty two year old satirical poet Paul Scarron a former rou now grievously deformed by rheumatism a sort of human Z as he described himself Despite his ailments Scarron presided over the liveliest and most scandalous literary salon in Paris and Fran oise quickly became its most prized ornament After Scarron s death she enjoyed a merry widowhood in the fashionable Marais district in the company of the courtesan Ninon de Lenclos and the King s splendid mistress Ath na s de Montespan who made the young widow governess to her brood of illegitimate children The appointment transformed Fran oise s life but was fatal to the temperamental Ath na s herself with the King soon turning his attentions to the graceful governess Fran oise was raised to the nobility as Madame de Maintenon and unofficially Madame de Maintenant the lady of the moment The acclaimed biographer Veronica Buckley traces the extraordinary story of Fran oise s progress from pauper child to salonni re to the compromised position of Louis s secret wife and uncrowned Queen An absolute ruler Louis turned away his many other mistresses to live with Fran oise only trusting her as his closest confidante and remaining in love with her for forty years Sparkling with the irresistible wit of contemporary chroniclers such as Madame de S vign this exactly researched biography is a pinnacle of the form In vibrant colors *The Secret Wife of Louis XIV* paints a portrait of Europe in an age of violent change and the Sun King s France in the process of becoming its modern self *The Huguenots of Paris and the Coming of Religious Freedom, 1685-1789* David Garrioch, 2014-02-13 This book investigates the reasons why the Catholic population of Paris increasingly tolerated the minority Protestant Huguenot population between 1685 and 1789 *The Formation of the Parisian Bourgeoisie, 1690-1830* David Garrioch, 1996 Despite their importance during the French Revolution the Paris middle classes are little known This book focuses on the family organization and the political role of the Paris commercial middle classes using as a case study the Faubourg St Marcel and particularly the parish of St M dard David Garrioch argues that in the late seventeenth and early eighteenth centuries the commercial middle classes were steadfastly local in their family ties and outlook He shows too that they took independent political action in defense of their local position This gradually changed during the eighteenth century and the Revolution greatly accelerated the process of integration at the same time broadening the composition of what may now be termed the Parisian bourgeoisie Central to Garrioch s argument is the idea that family politics and power are intimately connected He shows the centrality of kinship to local

politics in the first half of the eighteenth century and the way new family structures were related to changes in the nature of politics even before the Revolution Among the many important issues considered are birth control the role of women the importance of lineage the spatial limits of middle class lives and the language and secularization of politics The SAGE Companion to the City Tim Hall, Phil Hubbard, John Rennie Short, 2008-05-21 This book pulls together an exceptional range of literature in addressing the complexity of contemporary patterns and processes of urbanization It offers a rich array of concepts and theories and is studded with fascinating examples that illustrate the changing nature of cities and urban life Paul Knox Virginia Tech University The SAGE Companion to the City is a tour de force of contemporary urban studies At once a stocktake showcase and springboard for scholarly approaches to cities and city life the editors have assembled a cohesive and convincing set of lucid insightful and critical essays of great quality Eschewing grand theory and deadening encyclopaedism the contributors refresh both longstanding concerns and explore new themes in ways both brilliantly accessible to newcomers and satisfying to the cognoscenti Robert Freestone University of New South Wales Organized in four sections The SAGE Companion to the City provides a systematic A Z to understanding the city that explains the interrelations between society culture and economy Histories explores power religion science and technology modernity and the landscape of the city Economies and Inequalities explores work and leisure globalisation innovation and the role of the state Communities explores migration and settlement segregation and division civility housing and homelessness Order and Disorder explores politics and policy planning and conflict law and order surveillance and terror An accessible guide to all areas of urban studies the text offers both a contemporary cutting edge reflection and measured historical and geographical reflection on urban studies It will be essential reading for students of any discipline interested in the city as an object of study *The Thinking Space* Leona Rittner, W. Scott Haine, 2016-03-03 The cafe is not only a place to enjoy a cup of coffee it is also a space distinct from its urban environment in which to reflect and take part in intellectual debate Since the eighteenth century in Europe intellectuals and artists have gathered in cafes to exchange ideas inspirations and information that has driven the cultural agenda for Europe and the world Without the caf would there have been a Karl Marx or a Jean Paul Sartre The caf as an institutional site has been the subject of renewed interest amongst scholars in the past decade and its role in the development of art ideas and culture has been explored in some detail However few have investigated the ways in which caf s create a cultural and intellectual space which brings together multiple influences and intellectual practices and shapes the urban settings of which they are a part This volume presents an international group of scholars who consider caf s as sites of intellectual discourse from across Europe during the long modern period Drawing on literary theory history cultural studies and urban studies the contributors explore the ways in which cafes have functioned and evolved at crucial moments in the histories of important cities and countries notably Paris Vienna and Italy Choosing these sites allows readers to understand both the local particularities of each caf while also seeing the larger cultural connections between these places

By revealing how the café operated as a unique cultural context within the urban setting this volume demonstrates how space and ideas are connected As our global society becomes more focused on creativity and mobility the intellectual cafés of past generations can also serve as inspiration for contemporary and future knowledge workers who will expand and develop this tradition of using and thinking in space *Patroness of Paris* Moshe Sluhovsky,2023-10-16 The book examines the cult of Sainte Geneviève patron saint of Paris Using hagiographic and liturgical documents as well as municipal ecclesiastical and notarial records it analyzes the religious political and social contexts of public devotion in the early modern city **The Making of Revolutionary Paris** David Garrioch,2004-08-16 An unusually compelling work of scholarly synthesis a history of a city of revolution in a revolutionary century Garrioch claims that until 1750 Paris remained a city characterized by a powerful sense of hierarchy From the mid century on however and with gathering speed economic demographic political and social change swept the city Having produced an extremely engaging account of the old corporate society Garrioch turns to the forces that relentlessly undermined it John E Talbott author of *The Pen and Ink Sailor* Charles Middleton and the King's Navy 1778 1813 A truly wonderful synthesis of the many historical strands that compose the history of eighteenth century Paris In rewriting the history of the French Revolution as a more than century long urban metamorphosis Garrioch makes a brilliant case for the centrality of Paris in the history of France Bonnie Smith author of *The Gender of History Men Women and Historical Practice* *The Good Life* Yi-fu Tuan,1986 Tuan explores answers to an old and unanswerable question how should we live *The Good Life* is a little anthology of good feeling touchstones of joy These pleasures make the book a pleasure not of conviction or belief but of conversation's meandering exploration New York Times Book Review Tuan after all is one of the few geographers who can be read for pleasure and by the public as well as by the professional But read not merely for pleasure nor yet to mark learn and inwardly digest Rather consider Tuan's challenge to identify your concept of the good life and then try to construct that life *Environment and Planning D Society and Space* **Routledge Revivals: French Cities in the Nineteenth Century (1981)** John Merriman,2018-02-01 Originally published in 1981 *French Cities in the Nineteenth Century* analyses large scale processes of social change and looks at how this affected the growth of towns and cities of nineteenth century France The book addresses how this change affected the politics of life in France during the nineteenth century as well as how the city was organised Urbanization created new uses of space and new concerns for the people that lived among them and the book looks at how social change was a collective experience for the people of France and how this transformed the societies in which they lived *French Literature in/and the City* ,2023-11-27 Since 1974 the French Literature Series publishes essays in conjunction with the theme of the bi annual French Literature Conference sponsored by the Department of Languages Literatures and Cultures of the University of South Carolina Columbia South Carolina USA In addition to the scholarly papers selected for publication by the Editorial Board it also accepts notes on the conference topic Contributors should note that FLS does not publish conference proceedings Rather submissions must be revised for

Paris Colin Jones, 2006-04-04 From the Roman Emperor Julian who waxed rhapsodic about Parisian wine and figs to Henry Miller who relished its seductive bohemia Paris has been a perennial source of fascination for 2 000 years In this definitive and illuminating history Colin Jones walks us through the city that was a plague infested charnel house during the Middle Ages the bloody epicenter of the French Revolution the muse of nineteenth century Impressionist painters and much more Jones s masterful narrative is enhanced by numerous photographs and feature boxes on the Bastille or Josephine Baker for instance that complete a colorful and comprehensive portrait of a place that has endured Vikings Black Death and the Nazis to emerge as the heart of a resurgent Europe This is a thrilling companion for history buffs and backpack or armchair travelers alike

Hospital Politics in Seventeenth-Century France Tim McHugh, 2016-07-22 The seventeenth century witnessed profound reforms in the way French cities administered poor relief and charitable health care New hospitals were built to confine the able bodied and existing hospitals sheltering the sick poor contracted new medical staff and shifted their focus towards offering more medical services Whilst these moves have often been regarded as a coherent state led policy recent scholarship has begun to question this assumption and pick up on more localised concerns and resistance to centrally imposed policies This book engages with these concerns to investigate the links between charitable health care poor relief religion national politics and urban social order in seventeenth century France In so doing it revises our understanding of the roles played in these issues by the crown and social elites arguing that central government s social policy was conservative and largely reactive to pressure from local elites It suggests that Louis XIV s policy regarding the reform of poor relief and the creation of General Hospitals in each town and city as enshrined in the edict of 1662 was largely driven by the religious concerns of the kingdom s devout and the financial fears of the Parisian elites that their city hospitals were overburdened Only after the Sun King s reign did central government begin to take a proactive role in administering poor relief and health care utilizing urban charitable institutions to further its own political goals By reintegrating the social aspirations of urban elites into the history of French poor relief this book shows how the key role they played in the reform of hospitals inspired by a mix of religious economic and social motivations It concludes that the state could be a reluctant participant in reform until pressured into action by assisting elite groups pursuing their own goals

North, J.J. Roche, 2012-12-06 This volume of essays is meant as a tribute to Alistair Crombie by some of those who have studied with him. The occasion of its publication is his seven tieth birthday 4 November 1985. Its contents are a reflection or so it is hoped of his own interests and they indicate at the same time his influence on subjects he has pursued for some forty years. Born in Brisbane Australia Alistair Cameron Crombie took a first degree in zoology at the University of Melbourne in 1938 after which he moved to Je sus College Cambridge. There he took a doctorate in the same subject with a dissertation on population dynamics foreshadowing a later interest in the history of Darwinism in 1942. By this time he had taken up a research position with the Ministry of Agriculture and Fisheries in the Cambridge Zoological Laboratory a position he left in 1946 when he moved to a lectureship in the history and philosophy of science at University College London. H G Andrewa ka and L C Birch in a survey of the history of insect ecology R F Smith et al History of Entomology 1973 recognise the importance of the works of Crombie with which they couple the earlier work of Gause as the principal stimulus for the great interest taken in interspecific competition in the mid 1940s

Frenchmen into Peasants Leslie CHOQUETTE, Leslie Choquette, 2009-06-30 In considering the pattern of emigration in the context of migration history Choquette shows that in many ways the movement toward Canada occurred as a by product of other perennial movements such as the rural exodus or interurban labor migrations. Overall emigrants to Canada belonged to an outwardly turned and mobile sector of French society and their migration took place during a phase of vigorous Atlantic expansion. They crossed the ocean to establish a subsistence economy and peasant society traces of which lingered on into the twentieth century

Planning Europe's Capital Cities Thomas Hall, 2003-12-16 During the nineteenth century many of Europe's capital cities were subject to major expansion and improvement schemes. From Vienna's Ringstrasse to the boulevards of Paris the townscapes which emerged still shape today's cities and are an inalienable part of European cultural heritage. In *Planning Europe's Capital Cities* Thomas Hall examines the planning process in fifteen of those cities and addresses the following questions: when and why did planning begin and what problems was it meant to solve; who developed the projects and how and who made the decisions; what urban ideas are expressed in the projects; what were the legal consequences of the plans and how did they actually affect subsequent urban development in the individual cities; what similarities or differences can be identified between the various schemes; how have such schemes affected the development of urban planning in general. His detailed analysis shows us that the capital city projects of the nineteenth century were central to the evolution of modern planning and of far greater impact and importance than the urban theories and experiments of the Utopians

Citizens without Nations Maarten Prak, 2018-08-16 Examines how urban citizenship gave many people a real stake in their own communities even before the rise of modern democracy

The Great Wave David Hackett Fischer, 1996 Fischer has examined price records in many nations and finds that great waves of rising prices in the 13th 16th 18th and 20th centuries were all marked by price swings of increasing volatility falling wages a growing gap between rich and poor and an increase in violent crime family
