The Emperor's Tomb Joseph Roth, 2013-04-22 An intensely beautiful book about one of history s bleakest periods The Emperor s Tomb the last novel Joseph Roth wrote is a haunting elegy to the vanished world of the Austro Hungarian Empire and a magically evocative paean to the passing of time and the loss of hope The Emperor s Tomb runs from 1913 to 1938 from the eve of one world war to the eve of the next from disaster to disaster Striped with beauty and written in short propulsive chapters full of upheavals reversals and abrupt twists of plot the novel powerfully sketches a time of change and loss Prophetic and regretful intuitive and exact Roth tells of one man s foppish sleepwalking spoiled youth and then his struggle to come to terms with the uncongenial society of post First World War Vienna financial ruin and the first intimations of Nazi barbarities

Copper Coins and the Emperor's Wallet: The Role of Currency in Ming China Sui-Wai Cheung, 2023-10-20 Sui Wai Cheung s study of the institutional history of copper coins in the Ming dynasty reveals how emperors and statesmen perceived and used the copper coins at their disposal In this process he uncovers the reality of the Sons of Heaven showing that although Ming emperors seemed to

have unlimited power they could not afford the upkeep on their palace In this revealing history of Ming China Cheung argues that especially after the breakdown of the household registration system the aim of the Ming coinage system was to create a new source of income in order to maintain the emperor's domain in Beijing **The Last Emperors** Evelyn S. Rawski, 1998

The Qing Dynasty was the last of the conquest dynasties to rule China Its rulers Manchus from the north held power for three centuries despite major cultural and ideological differences with the Han majority In this book Evelyn Rawski reinterprets the remarkable success of this dynasty arguing that it derived not from the assimilation of the dominant Chinese culture but rather from an artful synthesis of Manchu leadership styles with Han Chinese policies **Travel Guide of Guizhou** Ni Hao, This book is the volume of Travel Guide of Guizhou among a series of travel books Travelling in China Its content is detailed and vivid *Three Years in Nanjing* Derek Redfern, 2019-03-12 Three Years in Nanjing is a photographic record of what Derek H Redfern and his wife experienced whilst teaching and living in the former capital city of China It tells the story of the changes in lifestyle that two middle aged expatriate British teachers had whilst embarking on a new and exciting adventure in a very different culture to the one they were used to **From Object to Concept** Stacey Pierson, 2013-01-01

Ming porcelain is widely regarded among the world's finest cultural treasures From ordinary household items patiently refined for imperial use porcelain became a dynamic force in domestic consumption in China and a valuable commodity in export trade In the modern era it has reached unprecedented heights in art auctions and other avenues of global commerce This book examines the impact of consumption on the evolution of porcelain and its transformation into a foreign cultural icon The book begins with an examination of ways in which porcelain was appreciated in Ming China followed by a discussion of encounters with Ming porcelain in several global regions including Europe and the Americas The book also looks at the invention of the phrase and concept of the Ming vase in English speaking cultures and concludes with a history of the transformation of Ming porcelain into works of art **Supreme Conceited God** Zhi BiFu, 2020-05-22 The female emperor stood guard in the air while the Sacred Emperor controlled the cycle of reincarnation Below the great Dao the nine clans competed with each other while countless others wept blood It was the same day in March Stars were gathering in the sky A teenager who never returned to the mountain walked out The curtain of the era slowly opened Previous Chapter Table of Contents Next Chapter Close **Art of the Yellow Springs** Wu Hung, 2015-02-15 We might think the Egyptians were the masters of building tombs but no other civilization has devoted more time and resources to underground burial structures than the Chinese For at least five thousand years from the fourth millennium B C E to the early twentieth century the Chinese have been building some of the world's most elaborate tombs and furnishing them with exquisite objects It is these objects and the concept of the tomb as a treasure trove that The Art of the Yellow Springs seeks to critique drawing on recent scholarship to examine memorial sites the way they were meant to be experienced not as a mere store of individual works but as a work of art itself Wu Hung bolsters some of the new trends in Chinese art history that have been challenging

the conventional ways of studying funerary art Examining the interpretative methods themselves that guide the study of memorials he argues that in order to understand Chinese tombs one must not necessarily forget the individual works present in them as the beautiful color plates here will prove but consider them along with a host of other art historical concepts These include notions of visibility viewership space analysis function and context The result is a ground breaking new assessment that demonstrates the amazing richness of one of the longest running traditions in the whole of art history

Handbook of Ancient Afro-Eurasian Economies Sitta von Reden, 2021-12-20 The second volume of the Handbook describes different extractive economies in the world regions that have been outlined in the first volume A wide range of economic actors from kings and armies to cities and producers are discussed within different imperial settings as well as the tools which enabled and constrained economic outcomes A central focus are nodes of consumption that are visible in the archaeological and textual records of royal capitals cities religious centers and armies that were stationed in some cases permanently in imperial frontier zones Complementary to the multipolar concentrations of consumption are the fiscal tributary structures of the empires vis vis other institutions that had the capacity to extract mobilize and concentrate resources and wealth Larger volumes of state issued coinage in various metals show the new role of coinage in taxation local economic activities and social practices even where textual evidence is absent Given the overwhelming importance of agriculture the volume also analyses forms of agrarian development especially around cities and in imperial frontier zones Special consideration is given to road and water management systems for which there is now sufficient archaeological and documentary evidence to enable cross disciplinary comparative research

Problems of Han Administration Michael Loewe, 2016-05-18 Michael Loewe calls on literary and material evidence to examine three problems that arose in administering China's early empires Religious rites due to an emperor's predecessors must both pay the correct services to his ancestors and demonstrate his right to succeed to the throne In practical terms tax collectors merchants farmers and townsmen required the establishment of a standard set of weights and measures that was universally operative and which they could trust Those who saw reason to criticise the decisions taken by the emperor and his immediate advisors whether on grounds of moral principles or political expediency needed opportunities and the means of expressing their views whether as remonstrants to the throne by withdrawal from public life or as authors of private writings

Information, Territory, and Networks Hilde De Weerd, 2020-05-11 The occupation of the northern half of the Chinese territories in the 1120s brought about a transformation in political communication in the south that had lasting implications for imperial Chinese history By the late eleventh century the Song court no longer dominated the production of information about itself and its territories Song literati gradually consolidated their position as producers users and discussants of court gazettes official records archival compilations dynastic histories military geographies and maps This development altered the relationship between court and literati in political communication for the remainder of the imperial period Based on a close reading of reader

responses to official records and derivatives and on a mapping of literati networks the author further proposes that the twelfth century geopolitical crisis resulted in a lasting literati preference for imperial restoration and unified rule Hilde De Weerd makes an important intervention in cultural and intellectual history by examining censorship and publicity together In addition she reorients the debate about the social transformation and local turn of imperial Chinese elites by treating the formation of localist strategies and empire focused political identities as parallel rather than opposite trends *Hawai'i Reader in Traditional Chinese Culture* Victor H. Mair, Nancy Shatzman Steinhardt, Paul R. Goldin, 2005-01-31 The Hawai i Reader in Traditional Chinese Culture is a collection of more than ninety primary sources all but a few of which were translated specifically for this volume of cultural significance from the Bronze Age to the turn of the twentieth century They take into account virtually every aspect of traditional culture including sources from the non Sinitic ethnic minorities
