Patton *Journal of Economic Literature* The book is in the grand tradition of the history of doctrines It is a history of economic thought broadly conceived and superbly written to boot It is not too much to say that Spiegel's book will become and remain a leading text in the field Warren J. Samuels *Social Science* The author conveys the essence of an idea simply and clearly yet in a graceful style William F. Kennedy *Journal of Economic Literature* The Text of the Bible David S. New, 2013-04-26 For 2000 years the Bible has provided evidence and witness for the beliefs of three major world religions Some consider the Bible dangerous while others have died for it but the response to the Bible is always passionate This book relates the story of such passions from the Roman Empire to the present It is a story primarily about individuals the drama of their lives woven into the tapestry of their times barbarian invasions

Black Death Waldensian heresy the pageantry of medieval romance the debauchery of the medieval Vatican the spirit of the Renaissance the tradition of monk and scholar All of these historical currents influenced the text now corrupted and distorted and existing in a confusing number of versions This book tells how today's Bible came to be what it is and provides an understanding of the richness of its text *The Early Middle Ages* Tim McNeese, 1999-09-01 The Early Middle Ages covers one of the darkest periods in European history from the collapse of the Roman Empire through centuries of chaos destruction and barbarian rule The Germanic Invasions civilizing power of the church the rise of feudalism and life in a medieval castle are among the topics vividly documented in this richly illustrated text Challenging map exercises and review questions encourage meaningful reflection and historical analysis A unit test and answer key are included **Barbarian Queens and the Conversion of Europe** Burnam W. Reynolds, 2024-11-19 The conversion of the Roman Empire to Christianity occurring in the golden glint of the sunset of the Ancient World was not a concluding chapter but an opening one The sequential conversion of the barbarian tribal invaders of the Empire and the subsequent conversion of those beyond the old imperial limes was the making of European culture a prototypical Christendom The process has been well studied from the perspective of kings popes and missionaries by some of the finest historians of our era But the missing component in this civilizational change is that of the decisive influence of barbarian queens Christian women who led their royal husbands in the dangerous journey from one religion to another In recent years much has been done to illuminate queenship in general but a study focusing specifically on the queen's role in conversion is lacking This book seeks to remedy that and provide a missing piece in women's history **Charlemagne, Muhammad, and the Arab Roots of Capitalism** Gene William Heck, 2008-08-22 Presented in six principal analytic chapters with supporting appendices this book explores the role of Islam in precipitating Europe's twelfth century commercial renaissance Employing the classic analytic techniques of economics Gene Heck determines that medieval Europe's feudal interregnum was largely caused by indigenous governmental business regulation and not by shifts in international trade patterns He then proceeds by demonstrating how Islamic economic precepts provided the ideological rationales that empowered medieval Europe to escape its three centuries long experiment in Dark Age economics in the process providing the West with its archetypic tools of capitalism While treatises such as Maxime Rodinson's excellent book *Islam and Capitalism* document the capitalistic nature of the Islamic economic system in applying modern economic method to medieval orientalist historiography this work is unique in capturing both the evolution and the impact of the system's role in forging medieval history *A History of the Middle Ages* Joseph Dahmus, 1995 During the Merovingian centuries when most kings were weak and brutal men fought over power and booty ordinary folk as well as many who were not so ordinary again found themselves in desperate need of protection The result was the appearance and wide extension of a practice called commendation from back cover *The Middle Ages (ENHANCED eBook)* Tim McNeese, 1999-09-01 The Middle Ages A.D. 500-1300 covers one of the darkest periods in European history from the collapse
