spectacular career as General of the Union forces William Tecumseh Sherman experienced decades of failure and depression Drifting between the Old South and new West Sherman witnessed firsthand many of the critical events of early nineteenth century America the Mexican War the gold rush the banking panics and the battles with the Plains Indians It wasn't until his victory at Shiloh in 1862 that Sherman assumed his legendary place in American history After Shiloh Sherman sacked Atlanta and proceeded to burn a trail of destruction that split the Confederacy and ended the war His strategy forever changed the nature of warfare and earned him eternal infamy throughout the South Sherman's Memoirs evoke the uncompromising and deeply complex general as well as the turbulent times that transformed America into a world power This Penguin Classics edition includes a fascinating introduction and notes by Sherman biographer Michael Fellman

Underground Warfare Daphné Richemond-Barak, 2018 Underground warfare a tactic of yesteryear has re-emerged as a global and rapidly diffusing threat This book is the first of its kind to examine tunnel warfare in a systematic and comprehensive way addressing the legal issues while keeping in mind operational and strategic challenges Like many other aspects of contemporary warfare the renewed use of the subterranean in armed conflict presents a challenge for democracies wishing to abide by the law To Dr Richemond Barak this challenge has not only been under-explored it is also largely underestimated by the community of states security experts and public opinion She analyzes traditional concepts of the laws of war as they relate to tunnels and underground operations contemplating questions such as whether tunnels constitute legitimate targets the assessment of proportionality in anti-tunnel operations and the availability of advanced warning in this complex terrain She also identifies issues that are unique to underground warfare including those that arise when cross-border tunnels burrow under a state's own civilian infrastructure
