## The Energy People A History Of Pseg:

The Energy People James C. G. Conniff, Richard Conniff, 1978      When the Lights Went Out David E. Nye, 2010-01-29

Blackouts whether they result from military planning network failure human error or terrorism offer snapshots of electricity's increasingly central role in American society Where were you when the lights went out At home during a thunderstorm During the Great Northeastern Blackout of 1965 In California when rolling blackouts hit in 2000 In 2003 when a cascading power failure left fifty million people without electricity We often remember vividly our time in the dark In When the Lights Went Out David Nye views power outages in America from 1935 to the present not simply as technical failures but variously as military tactic social disruption crisis in the networked city outcome of political and economic decisions sudden encounter with sublimity and memories enshrined in photographs Our electrically lit up life is so natural to us that when the lights go off the darkness seems abnormal Nye looks at America's development of its electrical grid which made large scale power failures possible and a series of blackouts from military blackouts to the greenout exemplified by the new tradition of Earth Hour a voluntary reduction organized by environmental organizations Blackouts writes Nye are breaks in the flow of social time that reveal much about the trajectory of American history Each time one occurs Americans confront their essential condition not as isolated individuals but as a community that increasingly binds itself together with electrical wires and signals      Encyclopedia of New Jersey Maxine N.
