The Art Of Narration The Novella:

The Art of Narration: the Novella Arthur Grove Day, 1971-01-01 **Patterns in Literary Art Series (textbook): The art of narration: the novella**, 1971 Narrative Purpose in the Novella Judith Leibowitz, 2013-11-05 No detailed description available for Narrative Purpose in the Novella **Narrative and Identity in the Ancient Greek Novel** Tim Whitmarsh, 2011-04-07 The Greek romance was for the Roman period what epic was for the Archaic period or drama for the Classical the central literary vehicle for articulating ideas about the relationship between self and community This book offers a reading of the romance both as a distinctive narrative form using a range of narrative theories and as a paradigmatic expression of identity social sexual and cultural At the same time it emphasises the elasticity of romance narrative and its ability to accommodate both conservative and transformative models of identity This elasticity manifests itself partly in the variation in practice between different romancers some of whom are traditionally Hellenocentric while others are more challenging Ultimately however it is argued that it reflects a tension in all romance narrative which characteristically balances centrifugal against centripetal dynamics This book will interest classicists historians of the novel and students of narrative theory Contexts of Pre-Novel Narrative Roy Eriksen, 2020-10-12 No detailed description available for Contexts of Pre Novel Narrative **The Novel and the New Ethics** Dorothy J. Hale, 2020-11-24 For a generation of contemporary Anglo American novelists the question Why write has been answered with a renewed will to believe in the ethical value of literature Dissatisfied with postmodernist parody and pastiche a broad array of novelist critics including J M Coetzee Toni Morrison Zadie Smith Gish Jen Ian McEwan and Jonathan Franzen champion the novel as the literary genre most qualified to illuminate individual ethical action and decision making within complex and diverse social worlds Key to this contemporary vision of the novel s ethical power is the task of knowing and being responsible to people different from oneself and so thoroughly have contemporary novelists devoted themselves to the ethics of otherness that this ethics frequently sets the terms for plot characterization and theme In *The Novel and the New Ethics* literary critic Dorothy J Hale investigates how the contemporary emphasis on literature s social relevance sparks a new ethical description of the novel s social value that is in fact rooted in the modernist notion of narrative form This new ethics of the contemporary moment has its origin in the new idea of novelistic form that Henry James inaugurated and which was consolidated through the modernist narrative experiments and was developed over the course of the twentieth century In Hale s reading the art of the novel becomes defined with increasing explicitness as an aesthetics of alterity made visible as a formalist ethics In fact it is this commitment to otherness as a narrative act which has conferred on the genre an artistic intensity and richness that extends to the novel s every word The Routledge Companion to Narrative Theory Paul Dawson, Maria Mäkelä, 2022-07-18 The Routledge Companion to Narrative Theory brings together top scholars in the field to explore the significance of narrative to pressing social cultural and theoretical issues How does narrative both inform and limit the way we think today From conspiracy

theories and social media movements to racial politics and climate change future scenarios the reach is broad This volume is distinctive for addressing the complicated relations between the interdisciplinary narrative turn in the academy and the contemporary boom of instrumental storytelling in the public sphere The scholars collected here explore new theories of causality experientiality and fictionality challenge normative modes of storytelling and offer polemical accounts of narrative fiction nonfiction and video games Drawing upon the latest research in areas from cognitive sciences to complexity theory the volume provides an accessible entry point for those new to the myriad applications of narrative theory and a point of departure for new scholarship

The Art of Brevity Per Winther, Jakob Lothe, Hans H. Skei, 2004 The Art of Brevity gathers fresh ideas about the theory and writing of short fiction from around the globe to produce an international inclusive exploration of the steadily growing field of short story studies Though Anglo American scholars have served as the primary developers of contemporary short story theory since the field's inception in the 1960s this volume adds the contributions of scholars living in other parts of the world Such Anglo American pioneers as Mary Rohrberger Charles May Susan Lohafer and John Gerlach join with short fiction scholars at universities in Norway Denmark Sweden and Canada to build academic bridges and expand the field geographically as well as conceptually Contributors to the volume weave together themes of time space compression mystery reader response and narrative closure They discuss writers as varied as Edgar Allan Poe Nathaniel Hawthorne Herman Melville Sarah Orne Jewett James Joyce Franz Kafka Ernest Hemingway Mavis Gallant Flannery O'Connor Eudora Welty Margaret Atwood Alice Munro and Robert Olen Butler the nineteenth century queer short story and contemporary Danish short shorts
