The New Science of Enlightenment V. J. Fiorella, 2021-02-11 The fundamental purpose of the soul is to grow and expand but if we all just keep growing and expanding without direction the universe will continue to explode into greater chaos than it already has Our unifying direction must be our own personal growth We are capable of wielding powerful forces of light and guarding our galaxy against the forces of lower vibrations To grow into this power we must look within ourselves and cultivate love The New Science of Enlightenment focuses on removing all that is in the way of becoming such a being of light and love Using the Kundalini Karma System it offers a modern day approach to building an abundant peaceful and happy existence helping you learn to navigate the world of spirit and matter simultaneously You can attain your goals understand the true meaning behind the events of your life overcome the challenges that come your way and triumph as you take control of your destiny
