Thompson, John Camp, 1990-12-01 In 2006 it will be 75 years since excavations by the American School of Classical Studies at Athens started in the ancient Agora Almost every year since 1931 new areas of the ancient civic center have been cleared and exciting discoveries made and this book presents the latest detailed account of the monuments and artifacts that can be seen on a visit to the site After a short introduction to the history of the Agora each monument is described in turn Famous buildings like the Tholos or Stoa of Attalos are discussed in detail but also lesser known areas passed over by other books are revealed Plans and color illustrations help locate the reader while a large fold out map at the back of the book distinguishes the different chronological phases of the Agora For the first time this map also shows discoveries made in the last few years at the northern edge of the site A final section presents a guide to the museum substantially reorganized in preparation for the 2004 Olympic Games Written by the director of the Agora excavations for over a decade this book presents the most detailed and up to date coverage available of the birthplace of democracy It will be invaluable for any visitor to or student of the site

Camp II, Craig Mauzy, 2010-02-28 This definitive guide to the archaeological remains in the civic and commercial center of ancient Athens is an essential companion to the interested visitor as well as to students of the topography of the classical city A large scale map provides an overview of the site keyed to descriptions and plans of every monument still visible from the majestic Temple of Hephaistos to the utilitarian Great Drain The fifth edition retains many of the elements that made the earlier editions so popular but also takes full account of new discoveries and recent scholarship It is intended for visitors touring the site and is arranged topographically monument by monument Also included are an overview of the historical development of the site and a history of the excavations A companion guide to the Agora Museum in the Stoa of Attalos is also available The Athenian Agora Museum Guide by Laura Gawlinski 2014 **The Athenian Agora** Laura Gawlinski, Craig A. Mauzy, 2014-06-18 Written for the general visitor the Athenian Agora Museum Guide is a companion to the 2010 edition of the Athenian Agora Site Guide and leads the reader through all of the display spaces within the Stoa of Attalos in the Athenian Agora the terrace the ground floor colonnade and the newly opened upper story The guide also discusses each case

in the museum gallery chronologically beginning with the prehistoric and continuing with the Geometric Archaic Classical Hellenistic Roman and Byzantine periods Hundreds of artifacts ranging from common pottery to elite jewelry held in 81 cases are described and illustrated in color for the very first time Through focus boxes readers can learn about marble working early burial practices pottery production ostracism home life and the wells that dotted the ancient site A timeline maps and plans accompany the text For those who wish to learn more about what they see in the museum a list of further reading follows each entry

Bronzeworkers in the Athenian Agora Carol C. Mattusch, American School of Classical Studies at Athens, 1982 The prominence of the Temple of Hephaistos Greek god of metalworkers situated on a hill to the west of the Agora reflects the esteem in which bronzeworkers were held by the Athenians Although many of the objects these craftsmen produced have now been melted down the statues lamps and vessels that remain testify to the high standards of their craftsmanship As well as illustrating some of the surviving finished products the author discusses the techniques used to cast bronze and the level of skill involved in producing complex metal statuary

Marbleworkers in the Athenian Agora Carol L. Lawton, 2006 The 5th century B C poet Pindar remarked on the rich sculptural decoration of the Athenian Agora and indeed over 3 500 pieces of various types of sculpture have been uncovered during its excavation This full color guide sheds new light on the marble industry in and around the Agora including rich evidence for sculptors workshops their tools and techniques The text discusses the works of both famous and anonymous artists

Inscriptions from the Athenian Agora Benjamin Dean Meritt, 1966 Many types of written records are found in the Agora and this booklet presents a sample of the more than 10 000 inventoried inscriptions written on stone The texts illustrated include diplomatic agreements commemorative plaques for athletic victories records of court judgements boundary stones identifying different buildings and fragmentary inscriptions featuring names over 30 000 individual Athenians are now recorded

Life, Death, and Litigation in the Athenian Agora Mabel L. Lang, 1994 Athens was a famously litigious city in antiquity as the sheer quantity of evidence for legal activity found in the Agora makes clear Every kind of case from assault and battery to murder and from small debts to contested fortunes were heard in various buildings and spaces around the civic center and the speeches given in defense and prosecution remain some of the masterpieces of Greek literature As well as describing the spaces where judgments were made such as the Stoa Basileios office of the King Archon the author discusses the progress of some famous cases known from the speeches of orators like Demosthenes such as the patrimony suit of a woman named Plangon against the nobleman Mantias or the assault charge leveled by Ariston against Konon and his sons

Gods and Heroes in the Athenian Agora John McK. Camp (II), 1980 Religion played a part in almost every aspect of civic life so shrines temples altars and dedications are conspicuous at almost every turn during a visit to the Athenian Agora The author of this booklet shows where and how the major Olympian gods were worshipped and then turns his attention to lesser known deities such as Hekate the triple bodied goddess of the crossroads He argues that the cults of heroes such as Theseus one of

the legendary founders of Athens were much more popular than the official state religion focused on the Olympian gods

Graffiti in the Athenian Agora Mabel L. Lang, 1988 Like fragments of overheard conversations the thousands of informal inscriptions scratched and painted on potsherds tiles and other objects give us a unique insight into the everyday life of the Athenian Agora Some are marks of ownership or the notes of merchants but many are sexual innuendos often accompanied by graphic illustrations Using her wide contextual knowledge the author suggests why these scraps of sentences were written and what they can tell us about one of the first widely literate societies *Horses and Horsemanship in the Athenian Agora* John McK. Camp (II), John McK. Camp, 1998 Full colour booklet illustrating the many role played by the horse in Greek life from myth and early history to its significance as a mark of status and its use in war transport games and festivals Waterworks in the Athenian Agora Mabel L. Lang, 1968 Preserved beneath the surface of the Agora are thousands of terracotta pipes stone drainage channels and lead pressure lines These form a complex chain of waterworks constructed and repaired over many different periods This book discusses the complex engineering that channeled fresh water into the Agora and disposed of waste water and shows some of the ornate wells and fountain houses where ancient Athenians gathered to drink and bathe The Athenian Citizen Mabel L. Lang, 2004 Using archaeological evidence from excavations at the heart of ancient Athens this volume shows how tribal identity was central to all aspects of civic life guiding the reader through the duties of citizenship as soldier in times of war and as juror during the peace **Birds of the Athenian Agora** Robert Lamberton, Susan I. Rotroff, 1985 As well as the Little Owl or glaux so often seen accompanying the goddess Athena many other birds played an important role in Greek art and symbolism This booklet describes the ways in which the Greeks viewed birds from useful hawks and fowl to exotic parakeets and peacocks Some of the birds most often depicted are imaginary from the griffin to the phallos bird whose head and neck consisted of an erect penis The book ends with a field guide to species likely to be seen on a visit to the Agora archaeological park today **Women in the Athenian Agora** Susan I. Rotroff, Robert Lamberton, 2006 Using evidence from the Athenian Agora the authors show how objects discovered during excavations provide a vivid picture of women s lives The book is structured according to the social roles women played as owners of property companions in and outside of marriage participants in ritual craftspeople producers and consumers A final section moves from the ancient world to the modern discussing the role of women as archaeologists in the early years of the Agora excavations
