and Other Essays René Wellek, 1982 **The Attack on Literature** René Wellek, 1972 *The Writing of Yehuda Amichai* Glenda Abramson, 2012-02-01 Yehuda Amichai is an Israeli poet of international distinction Known as Israel's master poet Amichai conveys a portrait of life in modern Israel summarizing and reflecting all the major preoccupations of his generation Unlike most of his Israeli contemporaries he explores the alteration of Jewish perspectives the loss of religious orthodoxy and the nature of Jewish identity in the mid 20th century He illuminates the dislocation of Jewish life after the Holocaust and the dilemma of response on the part of young Israelis His poetic language is rich in figuration and laced with quotations from classical Jewish texts which he manipulates into ironic discourse with the problems of the present Echoing the 17th century metaphysical poets Amichai's writing reveals a tussle between physical love and spirituality its tension lies in his failure to synthesize both in religious faith Abramson presents a detailed critical description and thematic analysis of Amichai's work with reference to the historical background from which it has emerged The problems of an emerging national culture are seen subjectively through the eyes of one of its most sensitive and perceptive literary observers **Criticism and Literary**

Theory 1890 to the Present Chris Baldick, 2014-06-11 Presents a coherent and accessible historical account of the major phases of British and American Twentieth century criticism from decadent aestheticism to feminist deconstructionist and post colonial theories Special attention is given to new perspectives on Shakespearian criticism theories of the novel and models of the literary canon The book will help to define and account for the major developments in literary criticism during this century exploring the full diversity of critical work from major critics such as T S Eliot and F R Leavis to minor but fascinating figures and critical schools Unlike most guides to modern literary theory its focus is firmly on developments within the English speaking world *The Practice of Satire in England, 1658-1770* Ashley Marshall, 2013-06-28 An exhaustive study of satire in the long eighteenth century Outstanding Academic Title Choice In *The Practice of Satire in England 1658 1770* Ashley Marshall explores how satire was conceived and understood by writers and readers of the period Her account is based on a reading of some 3 000 works ranging from one page squibs to novels The objective is not to

recuperate particular minor works but to recover the satiric milieu to resituate the masterpieces amid the hundreds of other works alongside which they were originally written and read The long eighteenth century is generally hailed as the great age of satire and as such it has received much critical attention However scholars have focused almost exclusively on a small number of canonical works such as Gulliver's Travels and The Dunciad and have not looked for continuity over time Marshall revises the standard account of eighteenth century satire revealing it to be messy confused and discontinuous exhibiting radical and rapid changes over time The true history of satire in its great age is not a history at all Rather it is a collection of episodic little histories

History of the Literary Cultures of East-Central Europe Marcel Cornis-Pope, John

Neubauer, 2007-07-18 The third volume in the History of the Literary Cultures of East Central Europe focuses on the making and remaking of those institutional structures that engender and regulate the creation distribution and reception of literature. The focus here is not so much on shared institutions but rather on such region wide analogous institutional processes as the national awakening the modernist opening and the communist regimentation the canonization of texts and censorship of literature. These processes which took place in all of the region's cultures were often asynchronous and subjected to different local conditions. The volume's premise is that the national awakening and institutionalization of literature were symbiotically interrelated in East Central Europe. Each national awakening involves a language renewal an introduction of the vernacular and its literature in schools and universities the creation of an infrastructure for the publication of books and journals clashes with censorship the founding of national academies libraries and theaters a re construction of national folklore and the writing of histories of the vernacular literature. The four parts of this volume are titled 1 Publishing and Censorship 2 Theater as a Literary Institution 3 Forging Primal Pasts The Uses of Folk Poetry and 4 Literary Histories Itineraries of National Self images.

Comparative Cultural Studies and Latin America Sophia A. McClennen, Earl E. Fitz, 2004 The genesis of Comparative Cultural Studies and Latin America stems from the contributors conviction that given its vitality and excellence Latin American literature deserves a more prominent place in comparative literature publications curricula and disciplinary discussions. Following an introduction by the editors the volume contains papers by Gene H. Bell Villada on the question of canon by Gordon Brotherston and Licia de S on the First Peoples of the Americas and their literature by Elizabeth Coonrod Mart nez on the Latin American novel of the 1920s by Rom n de la Campa on Latin American Studies by Earl E. Fitz on Spanish American and Brazilian literature by Roberto Gonz lez Echevarra on Latin American and comparative literature by Sophia A. Wordsworth's Pope Robert J. Griffin, 1996 Recent studies of the concepts and ideologies of Romanticism have neglected to explore the ways in which Romanticism

defined itself by reconfiguring its literary past In Wordsworth s Pope Robert J Griffin shows that many of the basic tenets of Romanticism derive from mid eighteenth century writers attempts to free themselves from the literary dominance of Alexander Pope As a result a narrative of literary history in which Pope figured as an alien poet of reason and imitation became the basis for nineteenth century literary history and still affects our thinking on Pope and Romanticism Griffin traces the genesis and transmission of romantic literary history from the Wartons to M H Abrams in so doing he calls into question some of our most basic assumptions about the chronological and conceptual boundaries of Romanticism
