**The Twelve Holy Nights and the Spiritual Hierarchies** Sergei O. Prokofieff, 2004-11-05 Prokofieff draws on the whole extent of Rudolf Steiner s work and combines it with his own original spiritual research to form an intricate picture of the cosmic forces at play between Christmas and Epiphany We are led on a tour through the circle of the zodiac and spiritual hierarchies and shown how they form a path from Jesus to Christ The author further explains that the Starry Script is a key to anthroposophical Christology and shows how it relates to the conception of the First Goetheanum Prokofieff guides us imaginatively through the interior of Steiner s architectural masterpiece destroyed by fire at the end of 1922 whose structure and decorations are seen to constitute a coherent esoteric map Our task now he suggests is to rebuild the First Goetheanum within ourselves and through a new form of self development work toward a truly modern path of initiation Supplementary essays focus on the cosmic aspects of Sophia as well as the being of Michael Prokofieff s seminal study offers a rich source of inspiration for those wishing to penetrate the mysteries of the Twelve Holy Nights and their relation to spiritual beings

**The Month** ,1917 Beyond the Ego David Mutchler, 2012-01-25 We live in a marketplace filled with valuable ideas for

how to be happy yet people continue to suffer We are just now awakening to the principal source of our unhappiness and suffering which is ego Ego wreaks havoc in our daily lives from the pain that individuals couples and families experience all the way up to global tensions and international conflict Most people think of ego as an inflated sense of self importance but this is only a fraction of what it really is Ego is the misidentification of who we are as beings It drives us to think and behave in ways that are inconsistent and incongruent with whom we really are leading always to dissatisfaction and suffering The secret to finding happiness is to loosen ourselves from egos painful grip by going beyond ego and entering the world of Spirit the source of true joy and peace To do so we must first travel through the ego Without proper guidance this trip can be perilous because ego to ensure its own survival makes every attempt to derail us along the way Beyond the Ego is an easy to follow step by step guide to help you make this journey safely The seeds of happiness joy and peace of mind will take root at the outset of your journey and continue to grow every step of your way

Dedicated readers of ecology theology or religious philosophy will want to savor each one of these essays from the renowned environmental thinker Library Journal A leading scholar cultural historian and Catholic priest who spent more than fifty years writing about our engagement with the Earth Thomas Berry possessed prophetic insight into the rampant destruction of ecosystems and the extinction of species In this book he makes a persuasive case for an interreligious dialogue that can better confront the environmental problems of the twenty first century These erudite and keenly sympathetic essays represent Berry s best work covering such issues as human beings modern alienation from nature and the possibilities of future regenerative forms of religious experience Asking that we create a new story of the universe and the emergence of the Earth within it Berry resituates the human spirit within a sacred totality This book addresses how the history and diversity of world religions offer ways to engage with Earth how it is necessary to connect with a spirituality that is Earth derived how science can be in conversation with the religious sensibilities of wonder and awe and how our relationship to the natural world is crucial to our spirituality In the earliest essays Berry sounds most optimistic and urges readers to reconcile modern impulses and technology with religious traditions Publishers Weekly Thomas Berry demonstrates in these papers the qualities he calls for humanist vision and imagination Resurgence

The Prospectus of Life in The University of Hard Knocks ... Thomas Parker Boyd, 1920 *Bible Review* ,1920

**The Path** ,1911 **The Yoga of Delight, Wonder, and Astonishment** Jaideva Singh, 1991-08-13 This book offers 112 dh ra s 112 meditations or techniques for experiencing the extraordinary and paradoxical reality of unbounded consciousness called Bhairava In her initial question to Bhairava the Goddess asks him to reveal his own essential nature to her Bhairava praises her question as pertaining to the very essence of the Tantra and he praises the transcendent aspect of the Supreme The Goddess then beseeches Bhairava to teach her the method by which she may gain an understanding of this blissful nondual reality The methods offered here hint at a profound secret only a subtle shift of attention is required in order to bring this astonishing reality into view The shift will open a chink

in the apparently impregnable smoothness of the ordinary world Here are 112 secret gestures of attention that will reveal infinity True to its tantric provenance the Vij na bhairava discovers Supreme Reality in unexpected and bizarre places As one scans the great variety of methods it offers one is struck by the contrast in tone between this text and the classical expositions of Yoga While equally serious the Vij na bhairava has a playful approach anchored in the confidence that one can really never stray from the reality of Shiva Because it is grounded in the tantric realization the text has a freedom to explore meditational domains puritanically disdained by classical Yoga All things all experiences all moments are bathed in the unassailable purity of the absolute consciousness Only a shift of attention a subtle refocusing is required for that extraordinary reality to come into view The Vij na bhairava contains no sustained philosophical position Rather it is an instructional guide that continuously invites the practitioner to look more deeply and more subtly at her own experience The blissful and shattering realizations that she will undergo as a result of its method serves as the only form of proof or justification This is an initiatory manual that instructs in the intricacies of the advanced sport of Shiva      **The Inner Teaching and Yoga** Charles Wase,1921
