The Anticat Book Bruce Sheiman,2018-01-20 If you want to please a dog lover give them this book If you want to piss off a cat lover give them this book Dogs vs cats which pet is superior This is the first book to reveal the truth about cats They are not very bright difficult to train self centered animals that luxuriate in human benevolence but give little in return This book offers proof that in the rivalry between canines and felines dogs are eminently superior with respect to their cognitive skills emotional intelligence language comprehension and service to humanityall the while helping to make us better human beings No species has developed a closer relationship with humanity than dogs which possess remarkable mental and social skills that uniquely enable them to thrive in a human environment In effect dogs live by the Golden Rule treating others the way we all expect to be treated Yet cats seem driven by the opposite principle treating others as a means to get what they want This book concludes that dogs are emotional peers to human whereas cats are hopelessly indifferent to human concerns Thus dogs and cats each have an acute sense of smell In the case of dogs it is used to discover missing people bombs narcotics and cancer In the case of cats it is employed to locate the two day old tuna sandwich that fell behind the couch
