**The Austin, 1905-1952** Robert John Wyatt,1981      Austin 1905-1952 R. J. Wyatt,1995-10-01      **The Fruits of Fascism** Simon Reich,2018-08-06 The West German economic miracle Simon Reich suggests may be best understood as a result of the discriminatory economic policies of the Nazi regime Reich contends that ideological and institutional characteristics originating under fascism were sustained despite Germany's return to democracy and heavily influenced the economic success of its automobile industry By contrast the liberal economic policies of the British state led in time to the decline of an industrial sector that in 1930 had closely resembled its German counterpart Through detailed comparative histories of German and British automobile firms Reich challenges traditional explanations of the divergent performances of the two nations economies and sheds new light on the relationship between state policy and economic success in pre and postwar Europe Liberal nondiscriminatory British policies favorable to multinational investment contributed significantly to the decline of domestic firms he argues so that eventually multinationals could threaten the health of the entire British economy by investing elsewhere The Nazi state however thwarted the development of American subsidiaries and fostered a core of producers government officials bankers and labor union leaders      **Brick by Brick** Martyn Nutland,2012-10-08 The myth that Alec Issigonis conceived the Mini is just one whisp of the smoke screen that obscures the untold story of post War Britains greatest industrialist This is more than a motoring story You will find commentary on life in the first half of the 20th century as you explore the drama of one mans determination to overcome adversity Someone who shot from the hip as no other tycoon This is a tale of political and military intrigue Of spectacular business acumen Of bitter violent industrial conflict An account of savage jealousies and sexual intrigue To record the life of Leonard Lord the author has visited a vast number of sources In recent times some have sought to implant the roots of the British motor industrys ills and ultimate collapse in the policies of Leonard Lord This is both disingenuous and unjust This for the first time is his story      *Americanization and Its Limits* Jonathan Zeitlin,Gary Herrigel,2004 An analysis of Americanization in European and Japanese industry after World War II The contributors analyze the creative role of local actors in selectively adapting US technology and management methods to suit local conditions and in creating hybrid forms combining foreign and indigenous practices in unforeseen yet remarkably competitive ways      *Birmingham's Industrial Heritage* R.M Shill,2003-10-17 Birmingham was a renowned manufacturing centre by the 18th century and the city rapidly grew into the primary industrial centre of the Midlands An account of Birmingham's heyday of heavy industry is recorded and the story is brought up to date with the story of the decline of heavy industry and its subsequent replacement by design technology and computing The proposed redevelopment of Rover's Longbridge site as a science park is symptomatic of this change      *Debrett's Bibliography of Business History* Stephanie Zarach,1987-06-18      **Organization Theory and Class Analysis** Stewart Clegg,1990 No detailed description available for Organization Theory and Class Analysis      **A Bibliography of British History, 1914-1989** Keith

Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index
