C. Hamilton, 2024-02-29 A useful work for all interested in the history of the alphabet Hamilton shows a direct correspondence between the West Semitic alphabet and its proposed Egyptian counterparts Following an examination of the various Egyptian prototypes each grapheme of the various Canaanite scripts is shown and described in exhaustive detail in terms of feature and stance Subsequently each individual unit is augmented with a survey of the development of the names of letters and their vocalization with the author pointing to acrophony rhyming and clipping as factors in their nomenclature Hamilton also provides summary charts of the ancient Egyptian models and West Semitic derivatives *An Eye for Form* Jo Ann Hackett, Walter E. Aufrecht, 2014-06-06 At the first meeting of his class in Northwest Semitic Epigraphy at Harvard Frank Cross would inform students that one of the things each of them needed was an eye for form By this he meant the ability to recognize typological or evolutionary change in letters and scripts Frank like his teacher

William Foxwell Albright was a master of typological method In fact typology was the dominant feature of his epigraphic work from the origins of the alphabet to the development of the scripts of the Dead Sea Scrolls Indeed he has written about the importance of typology itself Because Frank Cross has so dominated the study of the ancient Near East in the last 60 years Aufrecht once asked him what he considered his primary field of study to be Without hesitation he said Epigraphy It seems therefore that the field that he loved and to which he contributed so much is an appropriate subject for this Festschrift in his honor which is being presented by his colleagues friends and former students Included are an appreciation by Peter Machinist and a contribution by the late Pierre Bordreuil

From Epic to Canon Frank Moore Cross, 2000-11-21 Winner of the Centennial Book Award from the Tuttleman Family Foundation of Gratz College In *From Epic to Canon* Frank Moore Cross discusses specific issues that illuminate central questions about the Hebrew Bible and those who created and preserved it He challenges the persistent attempt to read Protestant theological polemic against law into ancient Israel Cross uncovers the continuities between the institutions of kinship and of covenant which he describes as extended kinship He examines the social structures of ancient Israel and reveals that beneath its later social and cultural accretions the concept of covenant as opposed to codified law was a vital part of Israel's earliest institutions He then draws parallels between the expression of kinship and covenant among the Israelites and that practiced by other ancient societies as well as in primitive societies
