The Balancing Act A History Of Modern Thailand:

The Balancing Act Joseph J. Wright, 1991 **Bangkok** William Warren, 2002 Bangkok is an informal portrait of the city where the districts and cities of modern Bangkok are explored in a series of personal impressions of the people their customs cuisines and modern life *National Security, Statecentricity, and Governance in East Asia* Brendan Howe, 2017-10-11 This book assesses the extent to which an emphasis on national security and prioritization of state interests has dominated governance policy making in Northeast and Southeast Asia at the expense of human security human development and human rights The findings are that in many cases there are embedded structural obstacles to achieving human centered governance objectives in the region These relate to the role of the military historical authoritarian legacies and new authoritarian trends Contributors examine not only the most obvious instances of military domination of governance in the region North Korea with its Military First philosophy Thailand since the 2014 coup and Myanmar with its long history of military rule but also less well known examples of the influence of conflict legacies upon governance in Cambodia Timor Leste and Laos as well as the emergence of new reservoirs of power and resources for the forces of authoritarianism **Thailand: History, Politics and the Rule of Law** James Wise, 2019-04-15 This introductory book on Thai politics and the rule of law explains why chronically unstable Thailand struggles to mediate and adjudicate its political disputes It focuses on the continuities between the pre 1932 and post 1932 periods Since the shift to constitutional monarchy in 1932 the power of the monarch and military has endured the legislature electorate and until recently judiciary have been comparatively powerless and constitutions and laws have been comparatively unimportant Historical continuities are also evident in the persistence of hierarchical thinking and ethno nationalism both of which have inhibited open debates about governance And the rule of law does not always apply owing to different principles underlying western and traditional Siamese law and the emergence of a distinctively Thai legal culture and consciousness Thailand s governance was re cast ambitiously in the 1890s 1932 and 1997 Since 1997 governing Thailand and developing Thailand s economy have become harder So political disputes have become more acute and the absence of a national consensus on dispute settlement mechanisms more obvious Until governance is again re cast Thailand s political instability and cycle of coups will continue *Transforming Asian Cities* Nihal Perera, Wing-shing Tang, 2013 While there is no lack of studies on Asian cities the majority focus on financial districts poverty the slum tradition tourism and pollution and use the modern affluent and transforming Western city as the reference point This vast Asian empirical presence is not complemented by a theoretical presence academic discourses overlook common and basic urban processes particularly the production of space place and identity by ordinary citizens Switching the vantage point to Asian cities and citizens Transforming Asian Cities draws attention to how Asians produce their contemporary urban practices identities and spaces as part of resisting responding to and avoiding larger global and national processes Instead of viewing Asian cities in opposition to the Western city and using it as the norm this book instead opts to provincialize mainstream and traditional

knowledge It argues that the vast terrain of ordinary actors and spaces which are currently left out should be reflected in academic debates and policy decisions and the local thinking processes that constitute these spaces need to be acknowledged enabled and critiqued The individual chapters illustrate that global spaces are more trans local traditional environments are more modern and Asian spaces are better defined than acknowledged The aim is to develop room for understandings of Asian cities from Asian standpoints especially acknowledging how Asians observe interpret understand and create space in their cities

Political Booms Lynn T. White, 2009 Why have Taiwan rich parts of China and Thailand boomed famously while the Philippines has long remained stagnant both economically and politically Do booms abet democracy Does the rise of middle OC classes OCO promise future liberalization Why has Philippine democracy brought no boom and barely served the Filipino people This book unlike most previous studies shows that both the roots and results of growth are largely political rather than economic Specifically it pays attention to local not just national power networks that caused or prevented growth in the four places under consideration Violence has been common in these polities along with money Elections have contributed to socio political problems that are also obvious in Leninist or junta regimes because elections are surprisingly easy to buy with corrupt money from government contracts Liberals should pay more serious theoretical attention to the effects of money on justice and Western political science should focus more clearly on the ways non state local power affects elections By considering the effects on fair justice of local money and power largely from small and medium sized firms that emerge after agrarian reforms this book asks democrats to face squarely the extent to which electoral procedures fail to help ordinary citizens Students and scholars of Asia will all need this book OCo as will students of the West whose methods have become parochial

Rituals of National Loyalty Katherine Ann Bowie, 1997 In the 1970s the Thai state organized the Village Scout movement to counter communist insurgency The movement was soon used to thwart growing demands for democratic reform recruiting five million members to become the largest mass organization in Thai history and mobilized by the military controlled media helped topple a civilian government and restore military rule This book bridges both the macro and micro levels of analysis to place the dynamics of a national political movement within a richly detailed account of its working at the village level

Unstately Power: Local causes of China's economic reforms Lynn T. White,1998 China s dramatic reforms are usually said to have been caused by the policies of state leaders under Deng Xiaoping This fascinating new study by one of the West s leading authorities on contemporary China shows however that reforms began and are maintained by local networks They emerged first in the economy partly as unintended results of previous policies Agricultural extension in Mao Zedong s time freed so much labor from the land in rich

areas such as the Shanghai delta that peasant leaders set up rural industries to employ clients Many of these leaders were avowed state cadres but they acted for local constituencies more than for Beijing Their initiatives can be documented in the early 1970s long before the 1978 proclamation of new enterprises which the central bureaucracy could not monitor taking materials and markets away from state industries This caused socialist control of input prices and commodity flows to collapse by the mid 1980s As a result shortages and inflation bedeviled the economy the state ran deficits management decentralized local banks proliferated and immigration to cities soared
