Emergencies in Children's and Young People's Nursing E. A Glasper, Gill McEwing, Jim Richardson, 2011-06-09 Emergencies in Children s and Young People s Nursing is a one stop quick reference for children s and young people s nurses providing emergency care in the acute hospital setting **National Transportation Safety Board Decisions** United States. National Transportation Safety Board, **World Design Science Decade: Phase 1 Document 2** R. Buckminster Fuller, The documents in this series originated with a proposal made by R Buckminster Fuller to the International Union of Architects I U A at their VIIth Congress in London England in July 1961 launching the World Design Science Decade He proposed then that the architectural schools around the world be encouraged by the I U A to invest the next ten years in a continuing problem of how to make the total world s resources which in 1961 serve only 40% serve 100% of humanity through competent design despite a continuing decrease of metal resources per capita In essence The World Design Science

Decade series of documents suggests in great detail ways in which world architectural schools and specifically their students should initiate and assume The Design Science Decade The total series includes many of Fuller s most prescient ideas A note from the series editor John McHale Though the language of some of the texts may seem difficult at first approach it should be borne in mind that one of our major problems in thinking today 1965 is the use of language systems which still represent a fixed structurally compartmentalized world view The terms available to us for the expression of dynamic rather than static concepts are far from satisfactory Fuller s language is particularly representative of the transitional state of the western world between the older traditional noun centered culture to its present day changing verb centered culture In his search for an adequately descriptive terminology he tends to employ concepts and usages from many different fields juxtaposed in ways which may be unfamiliar to those more customarily restrained within the vocabularies of particular disciplines Description by the Buckminster Fuller Institute courtesy of The Estate of R Buckminster Fuller *Big Yellow ?Akc? Loveday,2017-08-30 As an avid traveler for most of his adult life author Michael Loveday has always been keen to soak up all he can about the essence of places from more unconventional sources Not for him the pre packaged official line served up by tourist companies visitor guides and the like In *Big Yellow* Loveday presents an unofficial travel guide perhaps guerilla tourism He doesnt include the choreographed scripted shepherded travel packaged conveniently by tour companies and delivered comfortably palatably and politically correctly drawing a veil over the controversial bits Instead Loveday offers insights and knowledge of real people on the ground who may often turn your view of their world on its head and can even scare you a bit or make you laugh hysterically but will never leave you cozy unchallenged or in your comfort zone From Albania to Zurich the local taxi driver will take you to places you didnt anticipate both physically and psychologically and will leave you with a much more insightful view of their place Someone once said there is no truth in history and the same sentiment might be applied to foreign travel so sit back grasp your seat clench your buttocks expect the unexpected and enjoy the ride

Children of the Lattice Leslie Cohen,2001-03-05 The tall Tamarin bipeds tailed and furry move out from their planet in search of new suitable planets which they can adapt to their needs and then colonize They study the solar system and discover that Earth is already inhabited by intelligent beings They erect a communication facility on the Hopi Reservation and send holographic messages to the humans who have gathered around the circular structure Six of the aliens transport down to Earth and are hosted on the Reservation by two older Hopis two young scientists and an anthropologist and his two students The humans communicate in words the Tamarins in strings of buzzing sounds They cannot understand each other and cannot bridge the gap with their sophisticated electronic speech analyzers The breakthrough is accomplished through the efforts of the two alien children who learn to speak English on their own The tots are able to effect communication between the two groups and eventually to teach English to their elders Interests in music also serve to bind the two groups in friendship Problems arise when a paranoid senior scientist and a xenophobic general join with a

fundamentalist right wing minister to attempt a coup against the Tamarins The problem reaches a crisis at a UN meeting where the United State President introduces the aliens to the General Assembly An uprising is quelled and the United Nations members help the aliens with their colonization problem Common interests and problems arise that are religious in nature Resolution involves a trip to Mt Sinai by our major characters and the undertaking of a trip back to Tamarinoch the alien home planet California.
