The Easter Island Bulletins Of William Mulloy:

The Easter Island Bulletins of William Mulloy William Thomas Mulloy, 1995 *The Survival of Easter Island* Jan J. Boersema, 2015-04-13 In this book Jan J Boersema reconstructs the ecological and cultural history of Easter Island and critiques the hitherto accepted theory of the collapse of its civilization The collapse theory advanced most recently by Jared Diamond and Clive Ponting is based on the documented overexploitation of natural resources particularly woodlands on which Easter Island culture depended Deforestation is said to have led to erosion followed by hunger conflict and economic and cultural collapse Drawing on scientific data and historical sources including the shipping journals of the Dutch merchant who was the first European to visit the island in 1722 Boersema shows that deforestation did not in fact jeopardize food production and lead to starvation and violence On the basis of historical and scientific evidence Boersema demonstrates how Easter Island society responded to cultural and environmental change as it evolved and managed to survive

Easter Island, Earth Island Paul Bahn, John Flenley, 2017-09-01 Easter Island isolated deep in the South Pacific and now a World Heritage Site was home to a fascinating prehistoric culture one that produced massive stone effigies the moai and the birdman cult and yet much of the island s past remains shrouded in mystery Where did the islanders come from and when How did Rapa Nui culture evolve over the centuries How and why did their natural environment change over time Paul Bahn and John Flenley guide readers through the mysteries and enigmas of Rapa Nui incorporating the records of early explorers folk legends and archaeological evidence along the way They cover the island s geological and environmental history and explore its flora and fauna illustrating how human actions affected the

natural environment of the island This fourth edition draws in recent DNA studies of ancient human and animal bones as well as plant remains evolving understandings of how the moai were transported and current efforts to reforest the island

Island at the End of the World Steven Roger Fischer, 2006-06-01 On a long stretch of green coast in the South Pacific hundreds of enormous impassive stone heads stand guard against the ravages of time war and disease that have attempted over the centuries to conquer Easter Island Steven Roger Fischer offers the first English language history of Easter Island in *Island at the End of the World* a fascinating chronicle of adversity triumph and the enduring monumentality of the island's stone guards A small canoe with Polynesians brought the first humans to Easter Island in 700 CE and when boat travel in the South Pacific drastically decreased around 1500 the Easter Islanders were forced to adapt in order to survive their isolation Adaptation Fischer asserts was a continuous thread in the life of Easter Island the first European visitors who viewed the awe inspiring monolithic busts in 1722 set off hundreds of years of violent warfare trade and disease from the smallpox wars and Great Death that decimated the island to the late nineteenth century Catholic missionaries who tried to save it to a despotic Frenchman who declared sole claim of the island and was soon killed by the remaining 111 islanders The rituals leaders and religions of the Easter Islanders evolved with all of these events and Fischer is just as attentive to the island's cultural developments as he is to its foreign invasions Bringing his history into the modern era Fischer examines the colonization and annexation of Easter Island by Chile including the Rapanui people's push for civil rights in 1964 and 1965 by which they gained full citizenship and freedom of movement on the island As travel to and interest in the island rapidly expand *Island at the End of the World* is an essential history of this mysterious site

The Archaeology of Darkness Marion Dowd, Robert Hensey, 2016-05-31 Through time people have lived with darkness Archaeology shows us that over the whole human journey people have sought out dark places for burials for votive deposition and sometimes for retreat or religious ritual away from the wider community Thirteen papers explore Palaeolithic use of deep caves in Europe and the orientation of mortuary monuments in the Neolithic and Bronze Age It examines how the senses are affected in caves and monuments that were used for ritual activities from Bronze Age miners in Wales working in dangerous subterranean settings to initiands in Italian caves to a modern caver's experience of spending time in the one of the world's deepest caves in Russia We see how darkness was and is viewed at northern latitudes where parts of the year are spent in eternal night and in Easter Island where darkness provided communal refuge from the pervasive sun We know that spending extended periods in darkness and silence can affect one physically emotionally and spiritually How did interactions between people and darkness affect individuals in the past and how were regarded by their communities And how did this interaction transform places in the landscape As the ever increasing electrification of the planet steadily minimizes the amount of darkness in our lives curiously darkness is coming more into focus This first collection of papers on the subject begins a conversation about the role of darkness in human experience

Handbook of Landscape Archaeology Bruno David, Julian Thomas, 2016-06-03 Over the past three decades landscape has become an umbrella term to describe many different strands of archaeology From the processualist study of settlement patterns to the phenomenologist s experience of the natural world from human impact on past environments to the environment s impact on human thought action and interaction the term has been used In this volume for the first time over 80 archaeologists from three continents attempt a comprehensive definition of the ideas and practices of landscape archaeology covering the theoretical and the practical the research and conservation and encasing the term in a global framework As a basic reference volume for landscape archaeology this volume will be the benchmark for decades to come All royalties on this Handbook are donated to the World Archaeological Congress

Cultural and Environmental Change on Rapa Nui Sonia Haoa Cardinali, Kathleen B. Ingersoll, Daniel W. Ingersoll Jr., Christopher M. Stevenson, 2017-08-09 Rapa Nui one of the world s most isolated island societies and home to the notable moai has been at the centre of a tense debate for the past decade Some see it as the site of a dramatic cultural collapse occurring before Western contact where a self inflicted ecocide was brought on by the exhaustion of resources Others argue that the introduction of Western pathogens and the slave raids of 1862 were to blame for the near extinction of the otherwise resilient Rapa Nui people Cultural and Environmental Change on Rapa Nui brings together the latest studies by prominent Rapa Nui researchers from all over the world to explore the island s past and present from its discovery by Polynesians through the first documented contact with Western culture in 1722 to the 20th century The exiting new volume looks beyond the moai to examine such questions as was there was a cultural collapse how did the Rapa Nui react to Westerners and what responses did the Rapa Nui develop to adjust to naturally or humanly induced environmental change This volume will appeal to scholars and professionals in the fields of history archaeology and ecology as well as anyone with an interest in the challenges of sustainable resource management and the contentious history of Rapa Nui itself

Easter Island Archaeology/Arqueologia en Rapa Nui (Isla de Pascua) , 2016-04-30 This well illustrated volume presents in its introduction a personal history of Daniel Sch velzon s experience of Easter Island during his youth before collecting all the papers and work he produced in 2014 leading up to his retirement

Rongorongo Steven R. Fischer, 1997 Rongorongo Easter Island s enigmatic script and Oceania s only known pre twentieth century writing system is here comprehensively documented for the first time The author tells the full history of rongorongo s exciting discovery and the many attempts at a decipherment Pre missionary traditions surrounding rongorongo are described from previously unpublished material Full transcriptions of all the 25 surviving rongorongo inscriptions are provided along with detailed photographs of nearly every incised artefact In over six years of full time research that took the author from St Petersburg to Easter Island a wholly new picture of the rongorongo phenomenon has emerged This book is the definitive study of one of the world s most fascinating and eloquent graphic achievements

The Routledge Handbook of Bioarchaeology in Southeast Asia and the Pacific Islands Marc Oxenham, Hallie

Buckley,2015-11-19 In recent years the bioarchaeology of Southeast Asia and the Pacific islands has seen enormous progress This new and exciting research is synthesised contextualised and expanded upon in The Routledge Handbook of Bioarchaeology in Southeast Asia and the Pacific Islands The volume is divided into two broad sections one dealing with mainland and island Southeast Asia and a second section dealing with the Pacific islands A multi scalar approach is employed to the bio social dimensions of Southeast Asia and the Pacific islands with contributions alternating between region and or site specific scales of operation to the individual or personal scale The more personal level of osteobiographies enriches the understanding of the lived experience in past communities Including a number of contributions from sub disciplinary approaches tangential to bioarchaeology the book provides a broad theoretical and methodological approach Providing new information on the globally relevant topics of farming population mobility subsistence and health no other volume provides such a range of coverage on these important themes
