The Easter Offensive Vietnam 1972:

The Easter Offensive Of 1972 Lt. Gen. Ngo Quang Truong, 2015-11-06 Includes over 30 maps and illustrations This monograph forms part of the Indochina Monograph series written by senior military personnel from the former Army of the Republic of Vietnam who served against the northern communist invasion In 1968 a U S presidential election year Communist North Vietnam initiated the Tet Offensive striking at almost all major cities and towns of South Vietnam This general offensive was eventually defeated by the collective efforts of the Republic of Vietnam United States and Free World Assistance forces Four years later in 1972 again a U S presidential election year North Vietnam threw its entire military might behind an invasion to conquer the South This time however South Vietnam had to fight for survival with only logistics and combat support provided by the United States Almost all U S and Free World Military Assistance combat forces had been withdrawn when the first attacks began on 30 April 1972 By all standards the Easter Offensive of 1972 was one of North Vietnam s most significant initiatives during the Vietnam War This all out effort involved eventually in excess of ten divisions on each side and affected the lives of well over a million South Vietnamese people During the eight long months of fierce fighting the Republic of Vietnam Armed Forces put Vietnamization to a severe test During the period of the Easter Offensive I had the privilege of participating in some of its major battles first as IV Corps and then as I Corps commander beginning in early May 1972 I visited many of our combat units as they fought the North Vietnam Army and commanded the RVNAF counteroffensive to retake Quang Tri City My critical analysis of the enemy 1972 Easter Invasion therefore is based almost exclusively on my own personal observations impressions and interviews with Vietnamese who were directly involved

The Easter Offensive - Vietnam 1972: Tanks in the streets Albert Grandolini, 2015 On 30 March 1972 while peace negotiations had been dragging on for four years in Paris the North Vietnamese launched a wide scale offensive in order to break the stalemate At that date practically no American ground forces remained in South Vietnam where a limited offensive was expected in the Central Highlands area But nobody imagined the magnitude of the multidivisional armor led onslaught The blow fell first across the Demilitarized Zone DMZ separating the North from South Vietnam see Volume 1 Following from the initial attack in a surprise move three communist divisions with T 54 tanks attacked from their sanctuaries in Cambodia just north of Saigon Their tanks ventured into the streets of An Loc City where they were checked by a desperate and heroic stand by the South Vietnamese soldiers and their American advisers thus saving the capital of South Vietnam Finally the third prong of the North Vietnamese offensive swept across the northern Central Highlands destroying a whole South Vietnamese division The communists then resumed their advance but their tanks were again entangled in street fighting this

time inside Kontum City Furthermore they were harassed by newly developed helicopter gun ships armed with antitank missiles This volume not only details the combat taking place in these two areas but also the organization of both the Army of the Republic of Vietnam ARVN in the South and the People s Army of Vietnam PAVN in the North It particularly emphasizes the transformation of the former from a mainly infantry force into a modern motorized force It also describes how the North Vietnamese learnt the hard way about the use of their tanks The author relies on not only American archives but also on Vietnamese sources from both sides The book contains 130 photos five maps and 18 color profiles Asia War following on from our highly successful Africa War series Asia War replicates the same format concise incisive text rare images and high quality color artwork providing fresh accounts of both well known and more esoteric aspects of conflict in this part of the world since 1945

America's Last Vietnam Battle Dale Andradé,2000-12-31 In the spring of 1972 North Vietnam launched a massive military offensive designed to deliver the coup de grace to South Vietnam and its rapidly disengaging American ally But an overconfident Hanoi misjudged its opponents who led by American military advisers and backed by American airpower were able to hold off the North s onslaught in what became the biggest battle of a very long war Dale Andrade rescues this epic engagement from its previous neglect to tell a riveting tale of heroism against great odds Originally published in cloth in 1995 as *Trial by Fire* and drawing upon recent Vietnamese language sources this new paperback edition will finally allow a true classic on the war to reach the wide readership it deserves

The Easter Offensive of 1972 Ngo Quang Truong,1979

The Easter Offensive - Vietnam 1972: Invasion across the DMZ Albert Grandolini,2015 On 30 March 1972 the South Vietnamese positions along the Demilitarized Zone DMZ that separated the North from South Vietnam were suddenly shelled by hundreds of heavy guns and multiple rocket launchers Caught in a series of outposts of what was the former McNamara Line the shocked defenders had just enough time to emerge from their bunkers at the end of the barrage before they were attacked by regular North Vietnamese Army divisions supported by hundreds of armored vehicles that crashed through their defensive lines along the border Thus began one of the fiercest campaigns of the Vietnam War but also one of the less well documented because by then most of the American ground forces had been withdrawn Following on from the details of the downsizing of American forces and the setting up of the Vietnamization policy the build up of both the Army of the Republic of Vietnam ARVN in the South and the People s Army of Vietnam PAVN in the North is discussed at length A special emphasis is devoted to the study of the development the North Vietnamese armored corps that would spearhead the coming offensive Consequently the nature of the war changed dramatically evolving from a guerrilla one into a conventional conflict The South Vietnamese resistance shuddered and then crumbled under the communist onslaught putting Hue the ancient imperial capital at risk It was only thanks to US airpower directed by a small group of courageous American advisers which helped to turn the tide Under the command of a new capable commander the South Vietnamese then methodically counterattacked to retake some of the lost ground This

culminated in the ferocious street fighting for Quang Tri This first volume describes the combat taking place in the northern part of South Vietnam and uses not only American archives but also Vietnamese sources from both sides The book contains 130 photos five maps and 18 color profiles Asia War following on from our highly successful Africa War series Asia War replicates the same format concise incisive text rare images and high quality color artwork providing fresh accounts of both well known and more esoteric aspects of conflict in this part of the world since 1945 The Easter Offensive G. Turley,1989-09-01 Spring 1972 On the heels of the American troop withdrawals came the worst NVA attack yet Here is the harrowing account of the brave men who fought to keep order when the SVA collapsed Vietnam 1972: Quang Tri Charles D. Melson,2021-05-27 During the Cold War Vietnam showed the limitations of a major power in peripheral conflicts Even so the military forces involved North Vietnamese South Vietnamese American and Allied demonstrated battlefield consistency in conflict that gave credit to them all When North Vietnam launched its massive Easter Offensive against the South in late March 1972 the first invasion effort since the Tet Offensive of 1968 its scale and ferocity caught the US high command off balance The inexperienced South Vietnamese soldiers manning the area south of Vietnamese Demilitarized Zone in former US bases plus the US Army and Marines Corps advisors and forces present had to counter a massive conventional combined arms invasion The North s offensive took place simultaneously across three fronts Quang Tri Kontum and An Loc In I Corps Tactical Zone the PAVN tanks and infantry quickly captured Quang Tri City and overran the entire province as well as northern Thua Thien However the ARVN forces regrouped along the My Chanh River and backed by US airpower tactical strikes and bomber raids managed to halt the PAVN offensive before retaking the city in a bloody counteroffensive Based on primary sources and published accounts of those who played a direct role in the events this book provides a highly detailed analysis of this key moment in the Vietnam conflict Although the South s forces managed to withstand their greatest trial thus far the North gained valuable territory within South Vietnam from which to launch future offensives and improved its bargaining position at the Paris peace negotiations *Airpower And The 1972 Easter Offensive* Lt.-Col Matthew C.

Brand,2015-11-06 In the spring of 1972 North Vietnam launched a massive three pronged attack into South Vietnam that was eventually repulsed by South Vietnamese forces United States US advisors and massive amounts of American airpower The problem is determining what factors were key to South Vietnam s successful defense To that point this thesis will address the overall effectiveness of US airpower in defeating North Vietnam s attack This paper first examines the strategic and operational environment surrounding the 1972 offensive including the role and influence that the leaders of the US Saigon Hanoi China and the Soviet Union had on the conflict It then shifts to the three primary tactical battles describing each in detail from the initial communist successes to their ultimate defeat Finally the analysis focuses specifically on airpower s role from the massive strategic deployment that doubled the available assets in theater in just over a month to its operational success striking targets in North Vietnam to its tactical successes on the various battlefields of South Vietnam Ultimately this

analysis determines that US airpower with US advisors playing a critical enabling role was the decisive element in the defeat of North Vietnam's Easter Offensive Airpower and the 1972 Easter Offensive U.s. Army Command and General Staff College,2014-10-10 In the spring of 1972 North Vietnam launched a massive three pronged attack into South Vietnam that was eventually repulsed by South Vietnamese forces United States US advisors and massive amounts of American airpower The problem is determining what factors were key to South Vietnam's successful defense To that point this book will address the overall effectiveness of US airpower in defeating North Vietnam's attack This work first examines the strategic and operational environment surrounding the 1972 offensive including the role and influence that the leaders of the US Saigon Hanoi China and the Soviet Union had on the conflict It then shifts to the three primary tactical battles describing each in detail from the initial communist successes to their ultimate defeat Finally the analysis focuses specifically on airpower's role from the massive strategic deployment that doubled the available assets in theater in just over a month to its operational success striking targets in North Vietnam to its tactical successes on the various battlefields of South Vietnam Ultimately this analysis determines that US airpower with US advisors playing a critical enabling role was the decisive element in the defeat of North Vietnam's Easter Offensive **North Vietnam's 1972 Easter Offensive** Stephen Emerson,2020-04-30 A history of the military campaign that set the stage for the end of the Vietnam War By the end of 1971 in what Hanoi called the American War and at the height of the Cold War the fighting had dragged on for eight years with neither side gaining a decisive advantage on the battlefield and talks in Paris to the end the war were going nowhere While the United States was steadily drawing down its ground forces in South Vietnam Washington was also engaging in a grand effort to build up and strengthen Saigon's armed forces to the point of self sufficiency Not only had the ranks of Saigon's forces swelled in recent years but they were now being equipped and trained to use the latest American military equipment Perhaps now was the time for Hanoi to take one last gamble before it was too late With the rumble of men and mechanized equipment breaking the early morning silence some 40 000 North Vietnamese troops advanced across the demilitarized zone into South Vietnam on March 30 1972 in what would become the largest conventional attack of the war Ill prepared and poorly led South Vietnamese troops in the far north were quickly routed in the face of the ensuing onslaught Likewise coordinated attacks across the Cambodian border northwest of Saigon and into the central highlands in the coming weeks gained steam and in due course as many as 200 000 men along with T 54 55 main battle tanks 130mm towed artillery ZSU 57 self propelled ant aircraft guns and hundreds of trucks and armored personnel carriers were engaged across three battlefronts Soon Saigon's beleaguered forces were being pushed to the brink of defeat in what appeared to be the end for the Thieu government Ultimately however the timely and massive intervention by U S and South Vietnamese air power along with the bravery of some South Vietnamese commanders and their American advisers saved the day Hanoi's gamble had failed and in its wake lay up to 100 000 dead and South Vietnamese roads littered with the smoldering wrecks of North Vietnamese military

equipment Moreover it would be another three years before the North had recovered enough to try again Informatively presents an episode of the Vietnam War that has otherwise lapsed into obscurity crowded out of the history books by North Vietnam's ultimate victory against the U S and South Vietnamese military Midwest Book Review The lessons from Hanoi's military victory which are discussed in this book still echo in today's U S military intervention in Afghanistan so this book's account is especially pertinent in understanding the current predicaments facing the U S in that troubled country Journal of Counterterrorism Homeland Security International The Easter Offensive - Vietnam 1972: Tanks in the streets Albert Grandolini, 2015 *Tanks in the Easter Offensive 1972* William E. Hiestand, 2022-02-17 This study explains how the armies of North and South Vietnam newly equipped with the most modern Soviet and US tanks and weaponry fought the decisive armored battles of the Easter Offensive Wearied by years of fighting against Viet Cong guerillas and North Vietnamese regulars the United States had almost completely withdrawn its forces from Vietnam by early 1972 Determined to halt the expansion and improvement of South Vietnamese forces under the U S Vietnamization program North Vietnam launched a major fourteen division attack in March 1972 against the South that became known as the Easter Offensive Hanoi's assault was spearheaded by 1 200 tanks and was counteracted on the opposite side by Saigon's newly equipped armored force using U S medium tanks The result was ferocious fighting between major Cold War era U S and Soviet tanks and mechanized equipment pitting M 48 medium and M 41 light tanks against their T 54 and PT 76 rivals in a variety of combat environments ranging from dense jungle to urban terrain Both sides employed cutting edge weaponry for the first time including the U S TOW and Soviet 9M14 Malyutka wire guided anti tank missiles This volume examines the tanks armored forces and weapons that clashed in this little known campaign in detail using after action reports from the battlefield and other primary sources to analyze the technical and organizational factors that shaped the outcome Despite the ARVN's defensive success in October 1972 North Vietnam massively expanded its armor forces over the next two years while U S support waned This imbalance with key strategic misjudgments by the South Vietnamese President led to the stunning defeat of the South in 1975 when T54 tanks crashed through the fence surrounding the Presidential palace and took Saigon on 30 April 1975 *The Easter Offensive* Gerald H. Turley, 1985 **Air War Over South Vietnam, 1968-1975** Bernard C. Nalty, 2000 *The Dictator's Army* Caitlin Talmadge, 2015-07-31 In *The Dictator's Army* Caitlin Talmadge presents a compelling new argument to help us understand why authoritarian militaries sometimes fight very well and sometimes very poorly Talmadge's framework for understanding battlefield effectiveness focuses on four key sets of military organizational practices promotion patterns training regimens command arrangements and information management Different regimes face different domestic and international threat environments leading their militaries to adopt different policies in these key areas of organizational behavior Authoritarian regimes facing significant coup threats are likely to adopt practices that squander the state's military power while regimes lacking such threats and possessing ambitious foreign policy goals are likely to adopt the effective

practices often associated with democracies Talmadge shows the importance of threat conditions and military organizational practices for battlefield performance in two paired comparisons of states at war North and South Vietnam 1963 1975 and Iran and Iraq 1980 1988 Drawing on extensive documentary sources her analysis demonstrates that threats and practices can vary not only between authoritarian regimes but also within them either over time or across different military units The result is a persuasive explanation of otherwise puzzling behavior by authoritarian militaries The Dictator's Army offers a vital practical tool for those seeking to assess the likely course costs and outcomes of future conflicts involving nondemocratic adversaries allies or coalition partners

Kontum Thomas P. McKenna, 2011-09-09 In the spring of 1972 North Vietnam invaded South Vietnam in what became known as the Easter Offensive Almost all of the American forces had already withdrawn from Vietnam except for a small group of American advisers to the South Vietnamese armed forces The 23rd ARVN Infantry Division and its American advisers were sent to defend the provincial capital of Kontum in the Central Highlands They were surrounded and attacked by three enemy divisions with heavy artillery and tanks but with the help of air power managed to successfully defend Kontum and prevent South Vietnam from being cut in half and defeated Although much has been written about the Vietnam War little of it addresses either the Easter Offensive or the Battle of Kontum In Kontum The Battle to Save South Vietnam Thomas P. McKenna fills this gap offering the only in depth account available of this violent engagement McKenna a U S infantry lieutenant colonel assigned as a military adviser to the 23rd Division participated in the battle of Kontum and combines his personal experiences with years of interviews and research from primary sources to describe the events leading up to the invasion and the battle itself Kontum sheds new light on the actions of U S advisers in combat during the Vietnam War McKenna's book is not only an essential historical resource for America's most controversial war but a personal story of valor and survival

The Vietnam War Reexamined Michael G. Kort, 2017-12-14 Going beyond the dominant orthodox narrative to

incorporate insight from revisionist scholarship on the Vietnam War Michael G Kort presents the case that the United States should have been able to win the war and at a much lower cost than it suffered in defeat Presenting a study that is both historiographic and a narrative history Kort analyzes important factors such as the strong nationalist credentials and leadership qualities of South Vietnam's Ngo Dinh Diem the flawed military strategy of graduated response developed by Robert McNamara and the real reasons South Vietnam collapsed in the face of a massive North Vietnamese invasion in 1975 Kort shows how the US commitment to defend South Vietnam was not a strategic error but a policy consistent with US security interests during the Cold War and that there were potentially viable strategic approaches to the war that might have saved South Vietnam *Army* ,1985
