Teaching Academic Writing in European Higher Education Lennart Björk, Gerd Bräuer, L. Rienecker, Peter Stray Jørgensen, 2005-12-30 DAVID R RUSSELL English Department of Iowa State University U S A I was fortunate to attend as a visitor from the U S the first European Association for the Teaching of Academic Writing EATAW conference in 2001 at Groningen I was struck by the similarities in the challenges higher education faces on both sides of the Atlantic in terms of developing students academic writing and students learning through writing It is indeed an international problem But I was equally struck by the profound differences in responding to these challenges among tions institutions disciplines and even within disciplines The essays in this traordinary volume address a growing demand for help with academic writing on the part of students and academic staff alike And they do so in ways that bring fresh approaches not only to Europeans who have only recently begun to study academic writing but also to researchers and academic staff in the U S where we have a c tury old tradition of attention to the problem but are much in need of these fresh approaches Academic writing has become a problem in higher education all around the world because higher education sits smack between two contradictory pressures On one end far more students and far more diverse students come streaming into higher education bringing in a far greater diversity of linguistic resources often interpreted as standards are falling as Frank Haacke Tente point out *American Book Publishing Record* , 2006 *Academic Writing* Stephen Bailey, 2011-01-25 Most international students need to write essays and reports for exams and coursework Yet writing good academic English is a demanding task This new edition of Academic Writing has been fully revised to help students reach this goal Clearly organised the course explains the writing

process from start to finish Each stage is demonstrated and practised from selecting suitable sources reading note making and planning through to re writing and proofreading The book is divided into short sections which contain examples explanations and exercises for use in the classroom or self study Cross references allow easy access to relevant sections and a full answer key is included The 3rd edition has been developed in response to suggestions from both students and teachers Featuring a new website there is increased coverage of plagiarism argument cause and effect comparison definitions and academic style Different forms of writing including reports and literature reviews are also covered All international students wanting to maximise their academic potential will find this easy to use practical book a valuable guide to writing in English for their degree courses You can follow Stephen s blog at the following address <http://academicwrite.blogspot.co.uk> **The Bedford Guide for College Writers with Reader, Research Manual, and Handbook with 2009 MLA and 2010 APA Updates** X.
