

THE ECONOMICS OF PROSTITUTION

Helen Reynolds, Ph.D.

*Visiting Scholar, Institute of Criminology
Cambridge University*

Looking at prostitution from an economic point of view, this book explains how market decisions are made in this oldest of professions. The author shows how the legal and social structure of the community provide the incentives (money) and disincentives (criminal penalties). In the core of the text, she documents the four major environmental models for prostitution in the United States. These are: *laissez faire*, in which prostitution is illegal but tolerated; *regulation*, in which it is lawful but closely monitored; *control*, in which rigorous law enforcement suppresses obvious prostitution; and *zoning*, in which nominally illicit prostitution is allowed, but only within a circumscribed area. Thus are offered a sound theoretical understanding of the economics of prostitution and, just as important, practical methods for officially coping with a phenomenon that, regardless of its legal status, will not go away.

The Oxford Handbook of the Economics of Prostitution

Scott Cunningham, Manisha Shah, 2016 Prostitution bears the unique title of being both the world's oldest profession and one of the least understood occupations. Unlike most of the crime and family literature, prostitution appears to have all the features of traditional markets: prices, supply and demand, considerations of variety in the organizational structure, and policy relevance. Despite this, economists have largely ignored prostitution in their research and writings. This has been changing, however, over the last twenty years as greater access to data has enabled economists to build better theories and gain a better understanding of the organization of the sex market. The Oxford Handbook of the Economics of Prostitution fills the gap in our understanding. It brings together many of the top researchers in the field who explain how the prostitution markets are organized across space and time, the role of technology in shaping labor supply and demand, the intersection of prostitution with trafficking, and the optimal use of law enforcement. What makes the material unique is its explicit focus on economics as the primary methodology for organizing our understanding of prostitution. The Handbook brings to scholars' attention for the first time a collection of original writings on prostitution that provides an overview of what is known and what is not known in this area. Researchers with an interest in underground markets, labor economics, risky behaviors, marriage, and gender will find the book's contents illuminating and path breaking.

The Economy of Prostitution in the Roman World

Thomas McGinn, 2010-03-25 In recent years a number of classical scholars have turned their attention to prostitution in the ancient world. Close examination of the social and legal position of Roman meretrices and Greek hetairai have enriched our understanding of ancient sexual relationships and the status of women in these societies. These studies have focused, however, almost exclusively on the legal and literary evidence. McGinn approaches the issues from a new direction by studying the physical venues that existed for the sale of sex in the context of the Roman economy. Combining textual and material evidence, he provides a detailed study of Roman brothels and other venues of venal sex, from imperial palaces and private houses to taverns, circuses, and back alleys, focusing on their forms, functions, and urban locations. The book covers the central period of Roman history, roughly from 200 B.C. to A.D. 250. It will especially interest social and legal historians of the ancient world and students of gender, sexuality, and the

Demanding Sex: Critical Reflections on the Regulation of Prostitution Marina Della Giusta, 2016-05-13 Interrogating supply demand from an inter and multi disciplinary perspective this collection broadens engagement beyond the routine analysis of the locus of violence in prostitution and the validity of the prostitute's consent A focus on the supply demand dynamic brings into play a range of other societal economic and psychological factors such as the social construction of sexuality the viability of alternative choices for prostitutes and clients and the impact of regulatory regimes on the provision of sexual services The factors which underlie each component of the supply demand dyad are also studied and an examination is made of their dynamic interrelation The collection emphasizes the importance of rendering policy makers alert to the evidence emerging from empirical studies conducted in different fields of enquiry in the hope of moving beyond polarity and politics at the local national and international level ***Prostitution, Harm and Gender Inequality*** Maddy Coy, 2016-04-08 Prostitution Harm and Gender Inequality brings together international research exploring the range of gendered harms to women involved in prostitution and the consequences of growth of the sex industry for global gender relations While there is an increasing amount of research and academic output on prostitution the current focus is often on discussion and critique of policy frameworks and contemporary debates over harm are largely limited to sex trafficking and sexual exploitation of children Less attention is paid to questions of how the sex industry perpetuates notions of objectification and male entitlement with respect to sexual access to women's bodies despite being key feminist concerns for several decades This position has become effectively marginalized but the global growth and industrialization of the sex industry requires a return to these questions Through exploring gendered inequality and re engaging with an understanding of prostitution as harmful with impacts on the self and body that are experienced as abusive but do not always constitute violence this book introduces a range of research and thinking while also drawing on existing literature to explore the consequences of prostitution for women in the sex industry and wider gender relations These issues are discussed with regard to coercion and recruitment including trafficking notions of male entitlement in accounts of men who buy sex critical interrogations of agency and choice legal and policy frameworks and representations of prostitution in popular culture

Essays on the Economics of Prostitution and Sex Crimes Riccardo Ciacci, 2018 This thesis consists of three chapters devoted to analyse the determinants of prostitution and sex crimes The first chapter jointly co authored with Micaela

Sviatschi Princeton finds evidence that adult entertainment establishments and sex crimes behave as substitutes We build a daily panel that combines the exact location of not self reported sex crimes with the day of opening and exact location of adult entertainment establishments in New York City We find that these businesses decrease daily sex crime by 13% per police precinct The results imply that the reduction is mostly driven by potential sex offenders frequenting these establishments rather than committing crimes The second chapter shows that improving prostitutes outside options deter prostitution Specifically this chapter fills the gap between two strands of the literature suggesting that unilateral divorce should decrease prostitution as a result of higher wives welfare I build a unique panel data set for the U S to test this prediction Differences in the timing of entry into force of unilateral divorce laws across U S states provide a quasi experimental setting allowing to estimate the effect of unilateral divorce laws on female prostitution proxied by female prostitutes arrests Using a diff in diff estimation approach I find that unilateral divorce reduces prostitution by about 10% I explore several mechanisms that could rationalize my findings The mechanism that fits best the empirical evidence is one where unilateral divorce improves the option value of getting married by increasing wives welfare As a result the supply of prostitution declines Finally in the third chapter I rely on a recent economic literature including Chapter 1 of this thesis reporting evidence on how sex crime and prostitution behave as substitutable activities This chapter makes use of variation in fines for sex purchase in Sweden to analyse the relationship between criminalising the purchase of prostitution and rape and finds that higher fines for sex purchase increase rape on impact *Sex and the contract* Vincenzo
